In his annual report to Congress Librarian Young, of the Congressional Library, states that special attention was given by the library to the collection of the literature and music of the Southern Confederacy. He says that one hundred years from now, when the resuits of the great movement were more fully realized and appreciated and could discussed more impartially, the Ebrary would be the source to which the student and historian would go for information regarding the Confederacy. Its polemics, its domestic music and its war songs, and everything in the way of records and history, were being carefully collected and arranged.

THE OCCUPATION OF HAVANA.

General Lee's return to Havana at the head of his troops is significant of the altered political situation in Cuba. Spanish sovereignty is ended and American military domination takes its place till Cuban sovereignty is developed. Such is the provisional theory, invented to justify the refusal to shoulder the Cubin debt. American troops yesterday marched through Havana-a sign of the times. Their presence excited no demonstration from the Spaniards, who have made up their minds to accept the situation. American control is better, they think, than Cuban control. As for the Cubans, they receive us with the best grace possible, while wishing us away. They are aware that we are likely to spoll their dream of Cuba Libre.

ENCOURAGING MANUFACTURES.
