THE LEADER IN THE NEWS AND IN CITY CIRCULATION.

INTERSTATE TELEPHONE NO. 170.

SATURDAY, March 25, 1899.

THE LAST OF THE PIONEERS.

I have no word to speak their praise. Theirs was the deed; the gerdon ours. The wilderness and weary days...

The flag, whose lustre none may mar. The brightest thing that loves the air—See you our California's star...

So they go out. A little while, And none shall answer to the call. Still shall the great world weep of woe...

When they are gone—when o'er one's clay Our tears of long farewell and fall—We'll pay our tribute then, and say: "He was the last, the last of all..."

General Miles will now proceed to describe the style of whiskers on army canned beef.

It is a \$50,000,000 bicycle trust that comes on the track and will have fair coasting.

Today the Cuban Assembly dissolution takes place and affairs in the Island will move along more smoothly.

That old dead lock in Harrisburg is getting State. Why don't the be honest and sell out to the other side.

City politics is not worrying the people, but the multiplicity of men who are willing to run the municipal machine is alarming.

That embalmed beef court of inquiry is smelling bad in the nostrils of the public. Embalming it would not save it now, its too rotten.

Get there Eli—an Ohio man has been selected by President McKinley for postmaster at Washington, D. C.

The battleship Iowa, after being overhauled will go to Manila and relieve the Oregon which will return to the United States to be docked.

Two thousand tons of Pocahontas coal for Admiral Dewey's fleet left Hampton Roads yesterday on the sailing ship Challenger.

President McKinley left Thomasville, Ga., yesterday for Tallahassee, Florida where he will spend a few days.

The National and State Revenue laws has taken the trouble off Mr. Kipling's hands about "The White Man's Burden," and placed it square on the white's man's pocket book.

There has a great American boom set in the Philippines particularly about Manila. Aguinaldo and his followers do not take kindly to this new feature of Yankee enterprise. Booms are not popular with them.

There will be an entire new stock of aldermanic candidates opened Monday. They are all wool and a yard wide and will serve the city gratuitously with great satisfaction to themselves.

Leading Texan newspapers, inspired by the prominence given the movement in North Carolina for the establishment of a textile department by the State, have begun serious agitation for a similar institution in Texas.

If it were not for unfriendly action of Secretary Long of the Navy Department, Admiral Schley would have a sea command promised him by President McKinley.

A young lady was held on probation the post of superintendent of the 560 conductors employed by the London Tramways Company, and has been an unqualified success as practically absolute director of this large army of men.

One of Joseph Choate's peculiarities is told by a friend who declares that whenever Mr. Choate was studying over, or "working up" a case, he became solitude until his work was done and so would sit for hours at his desk without food.

President McKinley, as Commander-in-Chief of the Army and Navy, has been bounced from the Army branch by an order issued by General High Mogul Alger asserting his supreme authority in the War Department. Alger may request Mr. McKinley to resign.

Sound money, anti-trust and anti-imperialism, with Democratic principles and J. Sterling Morton, of Nebraska, is making a desperate struggle for a new party in National politics for 1900. There are to be expected hysterical and paroxysmal efforts in the political revivals in the near future, but the I-am-opposed-to-a-new-party element will evidently survive.

LARGE FIGURES.

The New York Journal of Commerce, after careful inquiry, finds the number of trusts, or combines, in the United States at the end of February, 1899, to have been 353, with stock and bonds aggregating \$5,832,882,842, as against 200 such combines a year before, with an aggregate of \$3,062,241,543 of stock and bonds. The Journal finds the common stock at present amounts to \$4,247,575,981, the preferred stock to \$870,575,200, the bonded debt to \$714,388,601. A large proportion of the manufacturing capital of the country is thus combined to extinguish competition, under the protection of the tariff.

CHILLS.

Chills are a bottle of Grove's Tasteless Chill Tonic. The formula is plainly printed on each bottle, showing that it simply Iron and Quinine in a tasteless form. Imitators do not advertise their formula because if they did they know that you would be afraid to take their medicine. Be sure then you get Grove's, as the formula shows what you are taking. NO CURE NO PAY. Price 25 cents.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c. The genuine has L. B. Q. in each tablet.

The Pope said since his last attack, "When I die I shall not give much trouble to the doctors, nurses or servants. I am only skin and bone, and my life will go out like a lamp which has no oil to feed it." He has completely ignored medicines, and the end is looked for at any time. The question of a conclave is the subject of much secret negotiation.

WATER SUPPLY OF CITIES.

The Baltimore Sun on the above subjects has this to say: The pollution of streams and the water supply of cities is a matter which is now generally discussed. Philadelphia is suffering from an epidemic of typhoid fever which is attributed to the pollution of the Schuylkill. The cities on the Mississippi are in a state of alarm at the approaching discharge of the sewage of Chicago into that stream, from which they obtain their water supply. The city of Seattle, in Washington State, was purposing to obtain pure water by extending its pipes to Cedar river, and then it was announced that a New Jersey corporation was about to establish a factory on the river above the proposed intake. It is absolutely essential to the public safety that water supplies should be kept uncontaminated. The health of the people is of the first importance, far above the importance of industries. It is probable that the epidemic of fever in Philadelphia costs more in money, apart from the loss of human life, than all the factories on the Schuylkill can repay. The law was laid down by Chancellor McGill in New Jersey recently that the rivers and streams of the land cannot be legally converted into sewers. The people living along the streams have a right to have the water flow to them uncontaminated. If this discharge of sewage into streams were unavoidable there would be more excuse for it. But it is said that there are scientific processes by which refuse from cities and factories can be made entirely harmless. If this is so it should be done. People should not be compelled to drink poisoned water or to be deprived of pure water upon any consideration.

RACING FOR A WIFE.

A Novel Method of Courtship Prevailing in Lapland. In Lapland the crime which is punished most severely next to murder is the marrying of a girl against the express wishes of her parents. When a suitor makes his appearance he says nothing to the girl, nor does she often know who he is, but her parents inform her that her hand has been applied for. Then, on a day appointed, the girl, her parents and friends meet together and sit at meat, with the suitor and his intended opposite to one another, and converse freely. When the feast is over the company repair to an open space, where "the race for a wife" is to be run. The usual distance is about a quarter of a mile, and the girl is placed a third of the distance in advance of the starting point. If she be fleet of foot and does not care for her suitor she can easily reach the goal first, and if she accomplishes it he may never trouble her again. If, on the other hand, she wishes to have him for a husband she has only to lag in her flight, and so allow him to overtake her. If she be particularly struck with him and would signify to him that his love is returned, she can run a short distance, then stop and turn and invite him with open arms.

Her New Scheme—Wife—"There, dear. Here are all the magazines, here's whisky and soda, and a box of your favorite cigars and the papers. If you want anything just ring the bell." Husband—"What on earth is the matter?" "Nothing. I merely wanted to make your home as clublike as possible."—Brooklyn Life.

A man can lay claims to greatness when his private affairs begin to interest the public.—Chicago News.

"You are suffering from—well, to put it in the ordinary vernacular, an influenza condition of your spinal column. You should try cooling applications along the base. What is your present occupation?" "I've driven an ice wagon for twenty years, sir."—Cleveland Plain Dealer.

Hood's Sarsaparilla. In many important particulars, Hood's Sarsaparilla is peculiar to itself. It is a medicine as far ahead of the usual preparation as the electric light is ahead of the tallow dip. The ingredients used in making it are selected with the very greatest care, and are gathered for us at the time they possess the greatest remedial value. The peculiar Sarsaparilla, are unknown to any other, thus making Hood's Sarsaparilla peculiar to itself. The value of this peculiarity is best shown by actual results. And Hood's Sarsaparilla has a record of cures unexcelled in medical history. Has more of them, greater successes in serious cases, better genuine, unsolicited testimonials than any other medicine in existence. It cures extreme cases of blood diseases, humors, scrofula, salt rheum, rheumatism, catarrh, and all other troubles traceable to impure or vitiated blood. Possessing great stomach-acting qualities, it cures indigestion, dyspepsia, catarrh of the stomach, etc. It builds up the nerves, renews strength and curing nervous prostration. As a natural tonic, it strengthens the whole system and cures that tired feeling. It has done all this for others and what it does for others it will do for you. All we ask for Hood's Sarsaparilla, is a necessity, an opportunity and a fair trial. Be sure to get Hood's. Sold by druggists. Prepared only by C. I. Hood & Co., Lowell, Mass. *It never disappoints.

WINE OF CARDUI. HEALTHY OLD AGE. I am 49 years old and have been suffering with Change of Life. I had flooding spells so bad that none thought I could live. My husband got me Wine of Cardui and it saved my life. I am like another person since taking it. MRS. E. B. TOWNSEND. Wine of Cardui. It is the devout wish of nearly all people to live to a ripe old age. None of us want to die young. This universal desire can be realized if care be taken of the health in early and middle life. A little precaution then will add many years to our existence. Death can be kept away a long time. Happy, healthy old age will be the lot of the woman who promptly corrects the ailments which afflict her sex. In youth, Wine of Cardui will take the female child safely over the dividing line between girlhood and womanhood. As a wife she needs it to help her through the trials of pregnancy and childbirth with as little discomfort as possible. At the Change of Life it will help her over the dangerous place that appears in her pathway between 40 and 50. Then will come many years of truly blissful existence. She will grow old slowly and gracefully. To the last she will preserve that charm and beauty which are always characteristic of perfectly healthy grandmothers. It is for women alone to decide whether they will be healthy or sick. The remedy for their sickness is close at hand. LADIES' ADVISORY DEPARTMENT.
