HARRISBURG, April 4.- The city is crowded this morning with politicians There are but two men of prominence State not yet here, namely Quay n the and Wanamaker. At nine o'clock there was a general roundup of the anti-Quay ites to decide for whom they would vote when they switch off from Dalzell. The Democrats meet at another hotel. Jenks is here, but like Dalzell, he did not participate. The meeting was for the purpose of determining whether to change from Jenks. The meeting con-tinued to almost the time to convene the legislature. Quayites are seemingly unaffected by all this display of energy. There is as full a fight as ever over in-surance commissioner. Durham said Quay would come to Harvisbury tomor row and no stock are to be taken in the stories of his withdrawal. He will stick until the last gun fires. He said Magre and Quay have not yet met. If Magre

withdrew it would have no effect on the situation, but Magee has not yet withirawn his support. The vote today stood Quay, 95; Jenks, 76; Stewart, 51. Necessary to a choice

Water Co.

The last case against the Raieigh Water Company was begun today. The plaintiff is Mr. C. F. Sowers, proprietor of the Excelsior Steam Laundry. He is Mr. W. C. Douglass, Mr. R. N. Simms and Mr. B. C. Beckwith. The first suit

is for damages and is set to the heard before Justice of the Pence J. T. Watts next Saturday at 10:30. Another suit will be brought by Mr. Sowers' attorneys in the Superior court for a larger amount for alleged damages sustained in his business.

To the Editor of The Times-Visitor: As a subscriber to your valuable paper wish to commend you for the active and vigorous policy which you have in-augurated and maintained in insisting upon the Raleigh Water Co., furnishing its patrons with good, pure and whole-some water. This is a matter of vital importance to our city and can not be treated lightly. In this connection, the writer wishes to most heartily approve the steps taken by Mr. C. F. Sowers, a laundryman and on one of the largest water consumes in the city, who has brought suit in order to test the right of the Water Co. to collect money for good, pure and wholesome water, ac

In fact there has been only two snows in April. The first was April 1st, 1887 when 1.7 inches, of snow fell and in 1889 an April 6, there was a fall of .4 inches. This snow is for heavier than either of these. However, about twenty years ago there was a snow on April 17, the latest snow emembered in this section.

It was indeed a remarkable sight to Joseph Blake, Wake's popular survey-or, celebrated his 60th birthday today by taking a sleigh ride up Fayetteville street. He attracted much attention.

PRIMARIES

The Woods are Full of Aldermanic Candidates

The discussion of municipal politics was the sole topic of conversation on the streets today. The various aldermanic candidates or their friends are working for dear life. The primarics will doubtless be largely attended notwithstanding standing the unfavorable weather. Never were the primaries of more import-ance in Raleigh than at this time. Some vital questions are at issue. Also these are the first primaries under the new charter. The question if municipal ownership of the water works will be raised. if reliable reports are true, and each candidate will be pledged to work to this end.

Four ballot boxes have been provided for each precinct meeting place. These boxes are for mayor, city clerk, tax collector and aldermen respectively. Every safe guard will be provided for a fair expression of popular choice. Each precinct will prescribe its own regulations for governing the ballot. A can-didate will be entitled to one delegate in the convention for every ten votes or faction over 7½ he receives.

'ine three candidates for Mayor and Mr. A. M. Powell, present mayor, Mr. Joseph E. Pogue and Mr. M. T. Leach. Each of these gentlemen are very popu-lar and their friends are confident of success. The contest will not a walk over for any one, according to the opin-

ion of shrewd politicians. For city clerk and tax collector Messrs Ham Smith and C. F. Lumsden, re spectively, have no opposition.

Wnen it comes to aldermanic candidates they are almost as plentiful as the sand on the sea shore. The follow ing are some of the gentlemen urged for the place, but it is impossible to give a complete list.

MECHANIC'S CARD.

Editor of The Times-Visitor: It has been said, "that the working man has no show," why is it that he has not? It is simply because they will not stand shoulder to shoulder and fight for their fellow mechanic when he is put forward for a position, they fail to give him their united support. I am a mechanic hav-ing worked at a trade for 25 years, and should rally, to the support of, but I sincerely hope tonight at the primaries this will not be the case. So turn out in force all you mechanics and working men and give your support to Mr. D. M. King, as your choice for one of the aldermen in the Second Division of the First Ward and thurshy show the prime First Ward, and thereby show the people of this city that we have men in the ranks of the working class that we are willing to entrust our interest to. He is one whom we can depend on to work is one whom we can depend on to work for the good of the masses without fear, favor or reward. In Mr. King we will have a representative that is, pro-gressive, wise, competent and up to date o nail things that pertain to the good of the people and the city. You may depend on it, that he will do nothing the or without due consideration. every r a or without due consideration, every application that come before the Boar of Aldermen he will carefully weigh and will consider the merits of the apof Aldermen he will carefully weigh and will consider the merits of the ap-plicant to be high or low, rick or poor, it venture the assertion that no man in the city of Raleigh knows the needs of the laboring class as well as Mr. King does, because he has been of that class all his life, and is proud of that fact, that being the case it is nothing more than natural to suppose he will look out for our interest. There are other candidates in this precinct. All good true and wise men, but the do not because their paths of life have led them in different direction. So I say give us at least one mechanic and we will be satisfied with a man of any pro-fession as the other man. Now you mechanics and laborers if you do not night. You should stop that old chest-aut, "the working man has not show," and go in your holes. Yours for the suc-cess of the laboring class. MECHANIC.
