Jim Young Says Hoover Will No: be

Much gossip is heard as to waether the aldermanic tickets in the low-r dis The addremanic tickets in the low r dis cricts of the third and fourth wards will really have any serious opposition or not. Jim Young, the colored boss, said today, "Very few colored boss, said today, "Very few colored boss, will register for the city election and lewer still will vote. The result of the section as to aldermen will be 16 to 0 lot even 16 to 1 for Hoover is running an his own book in the lower third and won't get any backing. Mr. Jos, Correl, and Mr. Sherwood Upchurch will be sected."

"No, there won't be any ticket in the lower fourth either. A few n' gors Jown there want to get up a ticket just o squeeze a fittle money out of the Jemocrats but they don't amount to anything. Some of those fellows nave ueen stirred up towards putting out a ... icket by some white folks, but the elec-tion will be 16 to 0."

AT THE ACADEMY OF MUSIC.

It was a house full of cultured admirers of the talent which greeted Miss Eunice Goodrich and her company at he Academy of Music last night. The opening bill was "Fanchon, the Cricket" with Miss Goodrich in the title cole. Her support was good, and the specialties entertaining. In fact the program was appreciated by the large audience. Particularly excellent was he music rendered by Miss Marie Estes, pianist. Miss Estes is a handsome, atinactive lady and a most skilled per-former upon the piano, render-ing the sweetist overtures be-tween acts. The show is one ing the sweetist overtures be-tween acts. The show is one solos were charming. The show is one the best popular-priced companies on he road. Tonight will be given 'Bob-blink," with an entire change of specialties. Matinee Saturday afternoor for ladies and children. Saturday aight a grand farewill bill will be given. Tonight the bill will be "Bob O'Link, The Tomboy," Miss Goodrich in Septen-tine dances. ALDERMEN MET BURGLAR CAUGHT gre Who Burglarized M1

ANED LEE JOHNSON

Osteptive Clever Work on the Part of Officer Thompson Assisted byOfficer Alderson-Jordan Confessed After His Arrest.

Officer Mont Thompson, assisted by Ufficer T. B. Alderson, did one of the cleverest pieces of detective work, this morning, seen in Raieigh for many a day. As a result of their efforts Lee Jordan, a negro, is now in the station acuse and he will be arraigned and sema on to court on the charge of burglary. It is a plain case and if Lee does not "get it in the neck" then he will proba-Jy have to spend the remainder of his Juys in the State prison. Last Monday night Mr. Henry Young

eft his home on Morgan street and went to church. When he left he accompaued his wife across the street to avighbor's to spend the time during his absence. When Mr. Young returned about nine o'clock he saw a light in his aouse and supposed that Mrs. Young and returned home without waiting for him to call by for her. However, he aw the light moving from room to room and this excited his suspicion so be went over to the neighbor's to see if Mrs. Young had left. He found her still here so he hastened over to his house. The burglar evidently fied on his approach. Mr. Young found the house proach. .n confusion. Clothing was scattered on the floor and the rooms had been ransacked. About \$40 or soil worth or clothing had been taken and also a pocket book with \$5 in money. Mr Young borrowed a pistol and examined the premises. He found a hatchet and a bar of iron which had been used to break into the house. He also found a hat with Rev. J. L. Foster's name in it. There was no other clue to the burglar. The case was placed in officer Ihompon's hauds. He had Officer Alderson to assist him and they went to work. Officer Thompson found that ... negro named Lee Jordan had been loafing around the power house for a few days but had not been there since Monday. He then investigation, without arousing the suspicions of anyone, where Jordan at the same time in an adroit stayed manner trying to find out if any one had ost a hatchet. He saw a hatchet at a negroe's house exactly like the one used in the burglary and found out from the owner that Mary Lee, who also dives on the bowery, had a hatchet like that one. He then found that Lee Jordan some-times stayed at Mary Lee's. Officer

Thompson went there before day this morning pretending to be looking for snother negro. He could not find Jor-dan then, but he found him there this morning at ten o'clock and nabbed him. Jordan confessed the crime when tak-

Make an Exhaustive Report for the Year.

The board of aldermen will hold their final session tonight before the new board comes in. Hence the session tonight will be very important since the annual reports will be handed in. It will be a miracle almost if all the committees have their reports ready. Some four weeks since an analysis of the city water was made. This analy was given to the special committee of physicians and has not been mane public. It will be, however, with their unal report probably tonight. Chairman of the street Committee Drewry will make his annual report and at will be very exhaustive, covering in detail all the work of the committee for the past year. The committee has spent \$03,048.66 and of this \$43,921.37 was from the bond issue. Chairman Drewry rocites the fact in his report that Kaleigh has made phenominal progress in the past year. Over haif a million dol-

lars in improvements have been added. Alderman Drewry will introduce the following very timely resolutiou: "Whereas under the recent re-organitation of the Seaboard Air Line system there is a strong possibility that the machine shops of that road may be losated and robuilt in this city, and fulij realizing the vast results for good in he up-building and growth of our city which will follow from such action, and being conscious of the fact that this city by reason of its situation occupies the most reasonable and logical situation, therefore,

"Resolved, That it is the unanimous opinion of this board that every effort should be made on the part of the our citizens and this board to secure the lu-cation of these shops in Raleigh if pos-sible, and that we extend to the Seaboard Air Line system every assurance and guarantee of fair and just treatment at the hands of our city govern-ment and a generous and courteous re-ception on behalf of our citizens. "Resolved, That a committee of three

be appointed from this Board to take this matter in charge and make every effort in their power to set forth cleany the advantages of Raleigh as the most desirable location for these shops, and secure them if possible."

First of Dewey's Returning Ships Like-ly to Stop En Route. The Philadelphia Record yesterday says: says: The people of Philadelphia, as well as of New York will probably have a chance to shout themselves hourse in honor of the cruiser Raleigh, the first of Admiral Dewey's victorious fleet to return to the United States since the battle of Manila. Bay. The Lialeigh, now slowly making her way across the Atlantic, is expected to reach New York about the middle of the mouth, and is under orders to proceed from that toright the states of the stat that port to Fortress Monroe. Robert Adams, Jr., of this city, saw President McKinley and Assistant Sec retary of the Navy Allen yesterday to urge that orders be changed and that the Haleigh be allowed to stop at Philadelphia on her way to bortress alongue from New York. He was told that there would be no objection to giving the people of Philadelphia a glimpse of the Raleigh, provided the vessel was not in such bad condition when she .ea thed New York that it would be inadvisable for her to make another stop before going to Fortress Monroe for 'leaning and overhauling.

Acute Stage in Beef Inquiry Reached PENSION ROLLS

McCreary on the Political Situation-Admiral Schley Says We Can Never Swap Philippines tor British

West Indies.

(From Our Regular Correspondent) WASHINGTON, April 7 .- Things have reached an acute stage in the best inquiry. The court has done several this week calculated to make the pub-ic suspect its fairness, and believe that it had a preference as to the kind of testimony it wished to hear. It started by ignoring a courteous request irona ex-Representative J. Hamilton Lewis that he be allowed to appear as counsel for Dr. Daiy, when he gave his testi-mony, and it aggrevated matters my trying to dodge a special request of Geg. Miles, from when the standard greater number, would confirm the tes-timony that has already been given that a portion of the food supplied the army was unwholesome and unsuitable for Gen. Miles knows that the use." ple are with him in this case and he has no idea of being bluffed off.

If all the applications are granted, and they continue being made as rapidly as they have been, a goodly proportion of the men who enlisted for the war with Spain will soon be on the pension roll of the government. From official fig-ures at the Fension Bureau it is shown that the number of applicants for pen sion have been comparatively enorm Out of five regiments, which lead the pension procession, there have already been filed 1735 applications for sension. These regiments and the number of applicants from each follow: Thirty-fourth Michigan, 398; First District of Columbia, 532; Eighth Ohio, sometimes call-third Michigan 319, and the Sec. ad ed "the President's own," 349; Thirty-Massachusetts, 317. Ex-Gov. and Ex-Congressman Me-

Creary, of Ky., was in Washington this week. He said of the pontical outlook in his state: "A spin muest is going on between the three aspirants for the governorship, but it matters not to which the nomination fails he will be elected by 25,000 to 30,000 votes. We lost the State in 1896, but next year Mr. Bryan or whoever is the standard parer of the party will get mentucky's electoral vote. I presume that Mr. Bryan will be the nominee again on pretty much the same platform, aichough there will no doubt also be strong de ciarations against trusts and against imperialism. The republicans will al-most cortainly renominate McKinley, so we shan have a campaign pretty much on the lines of 1896."
