demoralizing effect.
Sixty five dead Filipinos were found in

Not more than one fifth of the tax ayers of Raleigh township have thus far listed their taxes. It is well for the public to remember that there will be no extention of time this year and unless the taxes are properly listed you will have to pay double. Property for taxation should be listed promptly in order to avoid the rush and confusion which will necessarily follow if the matter is delayed until the last day.

Companies Claims for Places in State Guard.

TWO IN RALEIGH

Amalgamation of the Companies Here Found Impossible - Two May Continue.

Adjutant General Royster was asked while in the city yesterday, what would be done as to the conflicting claims of companies of the State Guard at Asneville, but said he really could not tell what would be done. It appears that three companies are involved there, and a like number at Charlotte. He declin-ed to say what would be the result at Charlotte, but did say that the ques tion between the two companies at Rahigh was giving him trouble.

It will be remembered that there was a company raised here last winter while Company K was in Cuba. It was in the Third Regiment. Then Company K. of the First Regiment of Volunteers, reorganized as Company K of the First Regiment of the Guard.

This gave Raleigh two military companies. It was thought these might amalgamate, but that is hopeless, Then the question came up whether the com panies could not both be retained one in one regiment and one in the other. It appears that the Adjutant General favored this, while Major Charles I. Davis opposed. But the latter is now zone, being in Porto Rico, and the two companies may stand, but the "volum

teers" are always given the preference From present indication It seems that the company organized last winter w remain Company B of the Third Real ment while the old Governor's Guard will continue Company K, of the First Regiment.

Of course, malgamation was not to sible since to accomplish that Compan K would have to disband and be recruited into Company B, and thereis ose its officers.

Company K has seenred the armory for the year, but they could allow Company R to also share it if they saw it. The commissioned officers of Company K, which served in Cuba, are Cap-tein William R. Beavers and Second Lientenant Claude Broughton The successor of Col. Z. P. Smith as First Lieutenant has not been elected.

Last Monday night Capt, Jos. J. Bernard was elected captain of Company B. John Williams and Presley Medlin are respectively First and Second Lieu

Thus it seems assured that Raleigh will have two military companies. There has not been two Raleigh white companies here at the same time before since the civil war.

GREAT MINDS FOR EXPANSION.

The Raleigh Christian Advocate of

this week says:
"Bishop W. W. Duncan, who preached at Trinity College last week, is in favor of expansion. Most all the great minds of our country think that way, and they believe it is the providence of God that true Christianity should be planted in these remote parts of the earth, here-tofore debarred that privilege."

SOUTHERN IMPROVES SERVICE.

Pullman Library Observation Cars Between New York and Atlanta. The Southern Railway's "Washington and Southwestern Limited," between New York and New Orleans, is well known among the famous modern limit-

These cars are in some respects an innovation in this section. Half of the cars are taken by Pullman sections and the rear is the observation end, with a library and a number of large com-fortable chairs and settees. These cars are open to all passengers on the train occupying Pullman space. Traveling is indeed a pleasure when passengers may recline in easy chairs with the latest books and magazines at hand and view the beautiful Piedmont country as the Limited races along.

Then public is invited to inspect these elegant trains, especially the new observation cars. Dining cars serve all meals between New York and New Orleans.

CONSTITUTIONAL AMENDMENT.

The Statesville Landmark of this week says:

"Although Gen. A. D. Cowles, of Statesville, is the first Republican of prominence in the State to publicly anonnee that he will support the constiutional amendment restricting the suftage, there is good reason to believe hat he and the other Iredell Republians who are with him will have plenty company. The Landmark has it from high source and a reliable one that ch prominent Raleigh Republicans C. I. Shaffer, Hon. John Nichols, Judge Paraell, Major Joshua Hill, Mr. Thos. Devereux and other leading Republiwill support the amendment. With such Republicans as these favoring the amendment it will be adopted by an everwhelming majority, notwithstanding the efforts of Senator Pritchard and a few who train with him to defeat it."

Three of the gentleman mentioned in he alway were shown the clipping today. They asserted that the statement was manthorized since they have not anmeed their position.

However, it is thought that the amendent will receive Republican support in
