## DR. BROUGHTON WANTS MAYOR OF ATLANTA IMPEACHED.

He Makes a Sensational Attack on Mayor Woodard—Woodard Says Broughton's Statements are Ridiculous.

Atlanta, Ga., June 18.—In a sensational sermon tonight Dr. J. G. Broughton, pastor of the Baptist Tabernacle, called upon the city council to impeach James C. Woodard, mayor of Atlanta. Dr. Broughton said the chief executive was a confessed gambler, a libertine, a sot, and a disgrace to the city. At these words the audience of about 2,000 people cheered. In the course of his remarks Dr. Broughton said:

"When the mayor was a member of an important committee to go to Washington on a matter of the Federal prison site, he was drunk most of the time, and there were other things that occurred in connection with him that I hesitate to mention from the pulpit. He should be impeached at once. If the members of the City Council do not impeach him, I shall take steps myself. No such man has a right to be mayor of this city. The situation is indecent and disgraceful."

When asked after the sermon why he moved against Mayor Woodard, Dr. Broughton said: "I have given this matter much consideration, and I believe I have taken a step in the right direction. I know what I am talking about. The actions of the present mayor of Atlanta since he has held office are a disgrace to this city and the people this man represents."

Mayor Woodard was informed of Dr. Broughton's remarks this evening. The executive said: "I regard the statements of Dr. Broughton as ridiculous. I ask the public to suspend judgment."

## A BOLD LETTER

Mr. McMullan Writes Concerning a Fertilizer Inspector.

## MAN OF BAD CHARACTER

However, Fertilizer Inspectors were Merely Nominated by Directors and This may Cause a Director's Impeachment.

An open letter has been addressed to the State board of agriculture regarding the character of one of the fertilizer inspectors, nominated by the member of the board from each district. The grave charges made against his character has caused a sensation and there is no probability of his ever serving as an official of the State in the present light of the situation.

A member of the board was shown the open letter today and asked his opinion as to the result of the matter. He said: "The fifteen inspectors of fertilizers were not elected by the board. It was agreed that since the services of fertilizer inspectors are only required at certain times in the year that fifteen inspectors should be nominated, each district naming some inspector, and that the commissioner of Agriculture should have power to call these inspectors into service whenever they are needed. Hence the board did not elect any inspector but simply nominated men for the commissioner to draw from."

"The nomination of this man Reid by the member from the first district should cause the impeachment of that member for imposing upon the board by nominating such a man."

Following is an open letter, which appeared in yesterday's Charlotte Observer, to the members of the State Board of Agriculture:

Sirs: In the recent State campaign the Democratic party made the canvass largely on the issue of "white supremacy," and invited every white man to join in the effort to redeem the State from negro rule. The invitation was promptly accepted by men of every former shade of political opinion and they have a right to expect that henceforth the State's government would be clean; that decent men only would be put into office and that they could again look with pride to pure and prosperous administration. How are these anticipations being realized?

At your recent election one Hill J. Reed, of this (Pedquimans) county, was chosen fertilizer inspector. You could not have selected from our midst a man of more despicable character. For years he has lived in concubinage with negro strumpets, and has kept his negro offspring in social contact with his white wife, an estimable lady, whom he has humiliated and made miserable by his vile conduct. He has done more to encourage miscegenation than any other influence and by his outrageous conduct has defiled the law and public sentiment and placed himself, without the gate of human sympathy, and his elevation to office is a disgrace to civilization.

I am sorry you knew nothing of his character, but relied upon the endorsement of a prominent politician of this community, who alone stands for this man and makes for him the plea of poverty and therefore needs the office. It is true he is poor, but the party cannot afford to endorse a man without character, because he is poor. He has become poor because he has spent his means, which were ample for his comfortable support, in the gratification of his vile and unchecked passions with disgraceful associations, and instead of making him the custodian of the party's honor, he ought to be rebuked and held as an example of the reaping of the sowing.

I do not write you, gentlemen, from personal considerations, but in the interest of purity in politics. I write that you may know the truth and that from your positions you may call a halt in this disgraceful matter and thereby relieve the party from a responsibility which, if not repudiated, will in future campaigns be pressed to its attention in a manner that will cause it to hang its head in shame and demoralize it, because of its gross inconsistency.

Respectfully,  
W. T. McMULLAN,  
Hertford county.

### JOE MUNDAY SPOKE.

He Will Lecture Tonight On "A Brand New Baby in Town."

Joe Munday, the converted showman, spoke to a large audience in Metropolitan hall Sunday afternoon. He announced that he was not a preacher but a lay talker hence he could use illustrations and language which might seem undignified for a minister. He used the license thus assumed quite freely and brought forth much laughter from his audience. His jokes appeared to be very amusing to some of those present.

At the conclusion of the lecture he described his personal misfortunes and his desire to secure enough money to get a little home somewhere in this State, where he could locate his family, and then devote his time wholly to the Lord's work in North Carolina. His method of taking up a collection was to say the least unique. He passed the hat himself and emptied the contents on the hat's return from a trip down each row.

He put the question of whether he should remain over and lecture tonight to a vote of the audience and that body went by a big majority in his favor.

Hence he will deliver at the Metropolitan hall tonight his famous lecture on "There is a Brand New Baby in Town." Mr. Munday says that this is his master piece and is greatly enjoyed by the ladies.

Admission only 10 and 15 cents.

Byer made a mad run for several miles with a Staten Island electric car, turning curves and rushing down steep grades at a furious rate until finally he was hurled from his post by a sudden stop.

The car was filled with passengers, who yelled frantically at the motorman during the wild run. Byer danced on the platform, swung his arms in the air and grinned with idiotic glee at the discomfort he was causing in the seats behind him.

When the end came Byer was hurled twenty feet into the roadway and escaped with only a few bruises. The passengers fled in alarm, and Byer was sent to his home, where a physician attended him for heat prostration.

### THE UNIVERSITY.

The growth and expansion of the University should be a matter of pride to every North Carolinian. In efficiency, patronage and public favor it is now second to none in the South. Its requirements are exact, its standard rigid, its tone of life high and manly. ### SOUTHERN IMPROVES SERVICE.

The Southern railway's "Washington and Southwestern Limited," between New York and New Orleans, is well known among the famous modern limited trains of this country, and the Southern has made another attractive addition to this service by putting on a line of elegant Pullman Library Observation Cars between Atlanta and New Orleans.

These cars are in some respects an innovation in this section. Half of the cars are taken by Pullman sections, and the rear is the observation end, with a library and a number of large comfortable chairs and settees. These cars are open to all passengers on the train occupying a Pullman space. Traveling is indeed a pleasure when passengers may recline in easy chairs, with the latest books and magazines at hand, and view the beautiful Piedmont country as the Limited races along.

The public is invited to inspect these elegant trains, especially the new observation cars. Dining cars serve all meals between New York and New Orleans.
