PROFITABLE CONVICTS.

The new convict lease system in Georgia, which some months ago supplanted the antiquated method of disposing of convicts, seems to be operating successfully. The first quarterly report of the new prison commission has just been filed, and shows that \$50,000 gross profits come to the State. This makes a total of \$200,000 per annum, as against \$25,000 formerly gained from the irregular lease of the convicts. Under the old regime complaints were frequent, and more than one scandal arose out of the inhuman treatment of the convicts. The new system of State supervision has worked wonders and gained the approbation of those who at first opposed it as unwise and expensive.

Judge Moore's infliction of penalties upon offenders is a splendid example to our lower courts.

The Times-Visitor regrets the accident to our most excellent Coroner, Dr. J. J. L. McCullers.

That much abused lynching bee has struck Kansas and the noxious made a great batch of their work. But give the boys a chance and they will do better next time.

It will be a pleasant and appropriate service tonight at Christ Church in recognition of the quarter century of faithful services of the able and much beloved rector, Dr. M. M. Marshall. The Times-Visitor wishes them another twenty-five years pleasant associations.

Can it be possible? Has Alger resigned? 'Twas thought Eagan embalmed him so he would keep in a Cabinet for four years. But Senatorial hot air decomposed the portfolio and poor Alger will be buried.

There will be great joy in this hall-wick, for there is a future for the aldermanic goat. The U. S. Agricultural Department has struck—not oil, but milk, in the goat. For years the goat has been a success in the butter business but now one good female Angora goat will produce four quarters of rich milk daily, upon a diet of one-twelfth the cost of that of a cow.

The action of the Democratic aldermanic caucus last evening in selecting Dr. James McGee, Jr., for city superintendent of health meets the hearty approbation of the people of Raleigh. Dr. McGee as city physician has been diligent, faithful and painstaking, and merited the increased honors which have come to him.

The aldermanic caucus could not have made a finer selection for mayor pro tem than they did last night in choosing Alderman J. S. Wynne. He is an excellent business man and in municipal ethics he seems to have found the golden mean, avoiding the extremes which separate the two schools in our city.

Glorious news! The old Raleigh auditorium to be pulled down and a new modern one constructed. The Metropolitan city is to have a great structure erected in some convenient locality where immense crowds may congregate to consider vital questions, political, religious, agricultural, commercial and social. It will be ready for democratic, republican, populist, prohibitionist, gold-bug and free-silver conventions next year. This is the plan of the Chamber of Commerce.

Judge Fred Moore is surely a "Daniel come to judgment." Though the youngest judge upon the bench in point of service, yet he has grasped the situation and deals with incorrigible offenders in a manner calculated to do them some good, diminish our criminal dockets and lessen the court expenses. It will be well for those who have been playing regular engagements upon the calendar of our criminal court terms to hustle to some other district while Judge Moore presides in this one.

VOLCANIC ERUPTIONS.
Are grand, but Skin Remedies rob life of joy. Bucklen's Arnica Salve cures them, also Old, Running and Fever Sores, Ulcers, Boils, Corns, Warts, Bruises, Burns, Scalds, Chapped Hands, Chilblains. Best Pile cure on earth. Drives out Pains and Aches. Only 25 cts. a box. Cure guaranteed. Sold by all druggists.

KILLED BY A BURGLAR ALARM.
San Francisco, Cal., July 10.—Dr. Mary C. Edmunds, a well-known physician of this city, died of fright early this morning. The accidental setting off of a burglar alarm excited her to such a degree that she went to a window and blew a whistle. Help came, but she opened the front door .6. 1/2 but as she opened the front door she tottered and fell dead. Mrs. Edmunds was a talented and successful physician, the widow of Judge Edmunds, late of the Superior Court. She leaves two sons and a daughter. The latter, Miss Annie Edmunds, is a teacher in Berkeley, and one of her sons, Frank W. Edmunds, who has been connected with the United States Geodetic Survey for years, is now in Alaska. Her other son, Dr. Harry Edmunds, is a physician in Fresno county.

MISS WHEELER TO GO TO MANILA.
Washington, July 10.—One of the happiest women in Washington is Miss Annie Wheeler, the daughter of General Wheeler. She is going to accompany her father to the Philippines. Miss Wheeler has been appointed a nurse by the War Department, and so she goes in an official capacity. She applied herself for the commission, and after her record in the hospitals in Cuba and the camps in this country the Department cheerfully granted her request, and on Saturday she got her papers. She starts with her father this week on his overland trip to San Francisco and will sail for Manila on the first transport. When it was settled that General Wheeler was to go to the Philippines Miss Annie determined that she would go with him; and unknown to him, she applied for a nurse's commission and secured it.

ATLANTA'S TRAINING SCHOOL.

Mr. Aaron French, a wealthy manufacturer of Pittsburgh, Pa., who has proved his faith, says the Baltimore Sun, in the Technological School at Atlanta, Ga., by giving \$8,000 toward its maintenance, was in that city a few days ago and made a thorough inspection of the various departments of the school. Mr. French afterward stated that the textile department was one of the best equipped in the world, and would prove of immense value to the State. Before leaving Atlanta Mr. French engaged a place in the school dormitories for a young man from Pennsylvania, to whom he has awarded a scholarship. The school now has 332 pupils, and if additional dormitories can be provided the number will reach 500 in a few months.
