MacArthur Rests and Wheaton Reconnoiters

SAN FERNANDO SHELLED

Otis Says Aguinaldo Exhorts His Followers to Hold Out Since European Recognition is Near.

Manila, Aug. 10.—General MacArthur's troops are resting at noon today at Calcut, while General Wheaton is reconnoitering. The weather is scorching hot. No rain is falling. The gunboats Yorktown, Concord, Callao and Panga shelled San Fernando, De La Union and half destroyed it. The natives returned the fire with musketry and two cannons, but were finally driven to the hills.

LOCAL OPTION.

A Fight on the Question in Oakland Township, Chatham County. Mr. H. A. London, of Pittsboro, is in the city today. Mr. London has just been participating, as attorney, in an interesting temperance fight in Chatham County.

A prohibition election was held last week in Oakland township and resulted as follows: License 117, no license 100. An application for license by Mr. W. D. Bright to retail spirituous, vinous and malt liquors was then laid before the county commissioners at their meeting this week. Mr. R. H. Hayes represented the license faction and Mr. H. A. London the no license faction. Mr. London by petition asked for a continuance for one month that evidences of fraud in the election might be shown. The board granted the continuance.

PAULINE HALL IN A TRUNK.

Smuggled Into Atlantic City Amusement Place to Avoid Injunction. Atlantic City, N. J., August 7.—Concealed in a trunk which was said to contain her stage costumes, Pauline Hall, the vaudeville actress, was tonight smuggled into the new Auditorium Pier to avoid a score of Constables who sought to prevent her appearing.

The injunction against Miss Hall and the Auditorium Pier management was today obtained by Manager Joseph Fralinger, of the Academy of Music, who, on representing, it is alleged, that the pier would not open this season, had contracted for Miss Hall's appearance at the Academy this week. Mayor Thompson succeeded in serving the notice of injunction on Manager Starling, of the Auditorium, but not until after Miss Hall had sung.

A hit of the evening was made when Miss Hall, in response to encores, rendered the lullaby from "Ernie," in which opera she was billed to sing at the Academy tonight. Miss Hall refused to sing at the Academy, claiming misrepresentation when making that contract.

Policemen, armed with clubs, guarded the doors and aisles of the Auditorium during the entertainment.

The first intimation that Miss Hall had been concealed in a trunk came from an expressman, who saw preparations for placing her inside, and afterward assisted in removing the trunk from the hotel to the Auditorium. Every effort was made to conceal the fact, but Manager Starling declared they had been obliged to smuggle her into the hall to avoid injunction.

QUESTION OF JURISDICTION.

Has the Mayor Exclusive Jurisdiction of Violation of City Ordinances. Hitherto there has been a conflict of opinion among lawyers and magistrates concerning the jurisdiction of violations of city ordinances, some contending that the general law of the State gave magistrates as well as the mayor cognizance of these offenses, while others insisted that the city charter, as revised by the legislature of 1890, gave exclusive jurisdiction to the mayor. A case in which these points were involved came up today. Two boys were arrested for violating a city ordinance (disorderly conduct) on a warrant issued by a magistrate and then came up for trial. Their counsel, M. N. Anis, Esq., made motion to discharge the defendants on the grounds that the magistrate had no jurisdiction. This was refused, thereupon the motion was made for removal of the case. The justice then sent the case on to the mayor. Here counsel renewed motion for dismissal, insisting that although the mayor had original jurisdiction he had none in the case as constituted before him then, because it should have been commenced before the mayor. This view was sustained by Mr. Powell and the prisoners discharged.

WASHINGTON LETTER

Administration Watching Haiti and San Domingo

YELLOW FEVER BROKEN

Soldiers for the Philippines—No State Social Function Before the New Year Reception—New Faces in Cabinet.

Washington, August 8.—(Special Correspondence to the Times-Visitor).—A terrific wind and rain storm, almost with the fury of a real tornado, swept over this city last Thursday afternoon and within less than half an hour many thousands of dollars worth of property was destroyed. Houses were blown down, roofs torn from their beams and whirled through the air, telegraph poles thrown to the ground and scores of trees broken or uprooted. The storm passed from southwest to the northeast doing much damage along the east-coast branch and through the extreme northern section of the city. Fallen trees and disjointed branches were scattered about all the streets, heavy damage was done in the beautiful parks, especially among the Scotch-plantain trees in the grounds of the Smithsonian Institution and the National Museum, where the terrific wind seemed to do the widest sweep for its destructive operations. Much damage was done to the executive grounds. In Lafayette, Franklin and Judiciary Squares the injury to the shade trees was serious.

The Navy Department is closely watching developments in Hayti and San Domingo. Hayti is in a state of ferment, perhaps out of sympathy with the neighboring State of Santo Domingo. United States Minister Powell called the State Department that the presence of a warship may be required to protect the United States legation and consulates. The New Orleans and Machesais are now at San Domingo, only half a day's sail from Hayti's capital, Port au Prince.

The eight transports for the Philippines now in the harbor of San Francisco are being prepared for the earliest possible start. General Otis has called for rapid fire guns, which are especially adapted to the warfare in the Philippines. The Ordnance Bureau has ordered the guns shipped.

Thanks to the prompt and vigorous steps taken by the Administration relative to the outbreak of yellow fever at the Soldiers' Home, at Hampton, Va., the disease appears today under perfect control, and the end of the first week of the yellow fever scare finds conditions more reassuring than at any previous time. Dr. White, Marine Hospital surgeon, states that there are now no new cases at Phoebus, Dr. Vickers, of the Hampton's Soldiers' Home, reports to Surgeon General Wynman to the same effect. So far there was a total of 42 cases, eleven of which resulted fatally.

The gratifying reports from Lake Champlain, to the effect that Mrs. McKinley is steadily improving in health, remove all apprehension of a short season next winter. During the absence of the Presidential family the interior of the White House is being thoroughly renovated and will partly be refurbished.

The historic Blue Room in which all the state receptions are held, is now in the hands of the decorators. The family dining room and western corridor, on the second floor, are also undergoing a great change. The great East Room known to every visitor of this city with its white and gold pillars, mantels and white frames, will not undergo any changes this season.

On the return of the President and the re-assembly of the Cabinet families, there will be many new faces to gather around the White House table. No state functions are likely to occur before the New Year reception opens the season. The newly appointed Secretary of War, Mr. Root, and his family are regarded as a distinct acquisition to the Cabinet circle and to Washington's smart society. Only two of Mr. McKinley's original Cabinet officers remain at present a Washington residence, ex-Secretary John Sherman and former Attorney General McKenna, now of the Supreme Court of the United States.

MR. J. W. HOBBY DEAD.

Mr. Charles F. Lumsden received a telegram this morning announcing the death of Mr. John W. Hobby at Chapel Hill. He died at eight o'clock this morning and his death must have been sudden, since his sickness was not known in Raleigh. The funeral services will be held here tomorrow.

Mr. Hobby leaves a wife and five children. He married Mrs. Dnnlop, nee Miss Eliza Thomason, sister of Mrs. C. F. Lumsden of this city. The family has the sincere sympathy of friends in Raleigh.

COUNTY OWES HIM

Says Ex-Sheriff Jones in His Answer

NOT GIVEN DUE CREDITS

Ex-Sheriff Jones Today Answers the Complainant Filed Against Him and His Bondsmen.

Ex-Sheriff H. T. Jones, through his attorneys, Messrs. Argo & Snow, today filed an answer to the complaint in the suit entitled "The State of North Carolina upon the relation of Bailey P. Williamson, Treasurer of Wake County, North Carolina, vs. Hamilton T. Jones and Fidelity Trust and Deposit Company of Maryland," in which the ex-sheriff is sued for \$4,718.41 and costs.

After admitting the preliminary articles of the complaint the defendant says: "6. That it is admitted, as alleged in article six of the complaint, that the sheriff was required to settle the taxes therein specified by the time specified, and that it is admitted that his account was audited, and that defendant Jones paid the amounts stated in said article six and the defendants aver that the defendant Jones, as sheriff and tax collector, did not and does not owe on account of said taxes the sum of \$4,718.41 and that the defendant Jones on account of said taxes he would not owe anything on account thereof."

"7. That it is admitted, as alleged in article 7, that the report was made to said board and filed, but the defendant aver that the said report was and is specially erroneous and generally so in not giving the credits to which defendant Jones was entitled."

The defendants also deny article 8 which charges that the defendants are indebted to the State for \$2,500, for failure and neglect to pay the amount due, also article 9, which says that the defendants owe the 2 per cent per month for failing to pay, is denied.

And for a further defense the defendants allege: "1. That they are advised and believe that upon a fair and just and lawful accounting with H. T. Jones, sheriff, he would not owe anything on account of said taxes or other account, that said commissioners erroneously and recklessly and unlawfully refused to credit the said H. T. Jones with insurances, sales for taxes, costs and other sums which would have fully balanced the amount claimed against him, and that hence he owes the county nothing on account of said taxes, as he is informed and believes."

"2. That as the defendants are informed and believe upon a just settlement with the defendant Jones the county of Wake owes him several hundred dollars on account of said taxes, commissions, etc."

"Wherefore the defendants ask judgment: "1. That the plaintiff do not recover. "2. That the defendants recover their costs and other relief."

INCREASE ASKED

\$14,500 Per Year for Police Department

TELEPHONE SYSTEM

Chairman Parish Says If Not Adopted Four More Policemen Will be Required—Patrol Wagon.

Alderman W. W. Parish, chairman of the Police Committee, requests that the appropriation of the city to the police department for the next two years be made \$14,500 per year.

The finance committee is still working on the budget, assigning specified amounts for each department for two years' expenses, and will make their report at a special session of the Aldermen tomorrow night.

Last year the police department was run on \$10,500, but Chairman Parish now asks for \$1,000 more than the previous appropriation.

Chairman Parish stated this morning very clearly the reason for this increase. In the first place, the Police Captain's and the Turnkey's salaries are now \$10 a month more than formerly. But the intention of the police committee is to give the city a more efficient service. To this end the committee wants to put in an up-to-date telephone and telegraph police service, which will be located in every section of the city. This will not only give the citizens a chance to summon an officer at any hour by going only a short distance, but the policemen will also have to register at these boxes at certain hours while on their beats.

The committee will also purchase a patrol wagon. Chairman Parish says that the increased appropriation asked is a necessity, for if this telephone system is not put in then four new policemen will have to be added to the force. This would cause an increase of \$2,400 a year.

Hence it can readily be seen that the telephone system, which will cost the city \$6,000, will really be a saving, since the four additional policemen would, in a little over two years, cost more than the system will.

NO FALSE ARREST

Ex-Sheriff Jones Denies the Allegations of A. P. Fuquay.

A. P. Fuquay, through his attorneys, Messrs. Shepherd & Bushe, several weeks since, as was announced in this paper at the time, brought suit against ex-Sheriff H. T. Jones and his bondsmen for \$5,000 for false arrest. This morning ex-Sheriff Jones, through his attorneys, Messrs. Argo & Snow, filed an answer in which the defendant admits that he was the sheriff of Wake county, and that his bonds for faithful execution and the return of all process and precepts to him directed in the sum of \$5,000 and the acceptance of this bond, but the defendant denies allegation IV of the complaint which charges that on November 26th, 1898, George C. Upchurch, a duly authorized deputy of H. T. Jones, "did forcibly and unlawfully arrest, detain and imprison" A. P. Fuquay for an hour or more, "restraining him of his liberty and subjecting him to humiliation, hardships and disgrace," without any right or authority. The defendant also denies the allegations of the relator for damages.

GOOD EXAMPLE.

(Durham Herald.)

The Raleigh cotton mill has set the pace that will, it is thought, bring in twenty thousand dollars towards establishing the textile department in the Agricultural and Mechanical College. The mill in question has given its check for one hundred dollars for this object and a request has been made that each mill in the State do likewise. It is said that quite a number of mill owners have signed their intention of doing as the Raleigh mill has and it is more than probable that every mill in the State will give at least one hundred dollars towards this object. As a rule the mill owners in North Carolina are very liberal and patriotic, and the Durham cotton mill men are especially so. They are ever ready to give their money for the cause of education or for any object that will make better citizens of the people, and this move on the part of the cotton manufacturers deserves the highest praise and credit. The textile department is now assured.

HOUSE BURNED.

The House Where a Murder Was Committed Destroyed.

Early this morning, about 3 o'clock, a house in Watson's field, southeast of the city limits, was entirely destroyed by fire. This house was the scene of the brutal murder last Christmas when the negro Allen choked his wife to death with a rope and was sentenced to the penitentiary for thirty years. The place belonged to Allen, but was sold to defray his expenses in maintaining a defence in court. No one has lived in the house since the murder.

The building was a shabby three-room affair with a poor excuse for a stable and barn close by. The house, stable and barn were completely destroyed and the light could be plainly seen far off. There seems to have been no effort to extinguish the fire.
