Rennes, August 16.—The court martial in the trial of Captain Dreyfus resumed again this morning.

ADJOURNMENT REFUSED.

Maitre Demange applied for an adjournment on account of the unavoidable absence of Labori, advocate counsel for Dreyfus.

Carriere opposed this motion vehe mently and in doing so made a speech, He read a certificate from Labori's physicians, which, however, was a very weak point, as the physician only said that it might not be impossible that Labori could attend the court Monday. Carriere dilated upon the fact that the entire world was anxiously awaiting the decision of the court martial and emphasized the necessity of ending the sus-

TO SHOOT DREYFUS.

It was brought out in the testimony before the court today that M. Laborl had ordered, on the slightest alarm of an attempted rescue, that Dreyfus was to be shot.

When Dreyfus was asked if he had any questions to ask of Lebon, he re-"No, I am here to defend my honor. I do not wish to speak atrociously after suffering for five years. I am an innocent Frenchman, but have suffered lie le diable."

This affecting scene followed the reading of the records of his imprisonment, and the recital o ffhe tortures to which he endured under the or ders of Minister Lebon, whose testimony today brought out these facts be-

PASTOR ON THE RACE PROBLEM

Dr. Broughton Would Eliminate the Ig-

norant Negro From Politics. The Rev. Dr. Len G. Broughton, pastor of the Tabernacle Baptist Church of Atlanta, Ga., whose church was partially wrecked by vandals as a result of his severe condemnation of the lynching of Southern negroes, prenened isst evening in the Hanson Place Baptist Church, Brooklyn. The subject of his sermon was "Christian Citizenship." In the course of his sermon be called for the absolute elimination of the ignorant negro of the South as a political factor. This, he declared, would be secessary before the race problem could he settled. He would have the mgro's right to vote taken away and not restored until the negro was qualified

xercise the franchise. Dr. Broughton further declared that the negro was most happy and prosperous in the State of South Carolina. where, he said, there was no lynching. and to which there was a steady exodus of negroes from other States in the South. This condition of things in that State, he said, was due to the fact that the negro was not a political factor in

from an educational and morat point to

South Carolina. He asserted that most of the negro voters of Georgia were wholly without a political conscience; that their votes were sold to the highest bidder without hesitation. Matters in this respect, he said, would be no better there until the negro could be brought to un-

berstand the true value of citizenship. Dr. Broughton, when seen after the service, said that he believed that if the ignorant negroes could be eliminated from polities in the South the people of that section would be agreeable to redistricting of the Congressional districts according to the votes actually east, thus largely reducing the numher of Democratic districts. The great question in the South sines the civil war he said, had been the race question, and he gave it as his opinion that as soon as this problem was in a way of being settled the white vote would be about evenly divided between both

# THE INSURRECTION

Trouble Arises on Negros and Cebu"

ISLANDS FORMERLY FRIENDLY

### Leading Men Join the Insurrection Because the Government Established by Peace Commission Has Falled.

Manila, August 13, via Hong Kong, August 16.—The arrival of mail advices here from the Islands of Negroes and Cebu agree that the insurrection is gaining strength there, which is remarkable, since both islands have hitherto been counted as the mostly friendly. The inhabitants of these islands received Professor Schurman of the Peace Commission, with the greatest cordiality.

However, outbreaks are now feared, particularly in Cebu, where some of the leading men of the Island have gone over to the insurrectionists. Many of the wealthy inhabitants of Negros and Cebu are preparing to leave the islands as a result of the autonomist government in Negroes proving most disappointing to them.
