Esterhazy's Treachery Officially Admitted

ATTACK ON PICOUART

Col. du Clam Admits that Dreyfus Always Maintained He was innocent-Maj. Lauth Jeered by the Audience.

Rennes, Sept. 6.-The first official admission of Esterhazy's treachery was ninde to-day, and created a startling sensation. M. Palologue, a government deputy and expert on cipher codes, sprang the surprise when he testified that "Count Munster, the German Ambassador at Paris, told Delcasse, the Minister of Foreign Affairs, that Col. Schwartzkoppen, while a German attache, sent Esterhazy a large number of petit bleus.

Dreyfus smiled grimly at this evidence and Labori did not attempt to conceal his gratification. A buzz of astonishment ran through the audience, which was greatly excited.

After the examination of Cernusche in secret session, Trarieux finished his testimony, commented severely on Maj-Lauth, who claimed that he acted honestly throughout, and had not the slightest doubt of Piconart's falsification in the petit blen order incriminating Esterhazy.

Lauth accused Picquart of bringing into General Staff Mme, D., wife of a magistrate, and mistress of Picquart. The latter protested loudly, and the au-

dience jeered Lauth. Labori made General Zurlinden admit that the magistrial inquiry showed pet t bleu had not been tampered with when it arrived at the intelligence bureau hence Picquart could not have been guil-

ty of disturbing the document. Paleologue said Delcasse's statement that Munster told him Schwarzkoppen had sent the petit-bleus to Esterbazy,

was contained in the diplomatic Dossier. It is understood that Cernuschi stuck to his evidence, but the defence showed that he was a gambler with an evil reontation. Prosecution admits that Esterhazy may be guilty, but is merely an

accomplice of Dreyfus. Col. Du Paty De Clam's deposition says that Dreyfus always maintained

MORMON WORK

Goldsboro Made Headquarters for N. C. Conference

PRESIDING ELDER HERE

Says N. C. is a Promising Field - One of the Best States-Presiding Elder Swenson Talks of the Work.

Presiding Elder Louis Swenson, Utah, has arrived here and is now actively in charge of the North Carolina Conference of the Latter Day Saints or Mormons. The North Carolina conference embraces 57 counties of this State, some of the extreme western counties being in Tennessee conference and some southern counties in the conference of South Carolina. "You see," explained the presiding elder, "we group these counties as best suits the convenience of the work."

Presiding Elder Swenson talked in er stingly of the Mormon work this morning. He said: "The Southern States Mission embraces fourteen conferences. covering eleven States, namely, Virginia, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Louisiana, Florida, Kentucky, Tennessee and Ohio, which has recently been added. Chattanooga is the headquarters for the Southern States Mission; there our organ, the Southern Star, is pubished. There are now about five hundred elders at work in the Southern

States Mission." The Presiding Elder says that about orty-five elders are, or soon will be, at work in the North Carolina conference To this number add six or eight local workers in the field. Elders Jos. P. Emery and R. A. Bolin are located in this county with headquarters in Ral-

The headquarters for the North Carolina Conference will be in Goldsboro," said the Presiding Elder, "and I am going there to establish it now."

"Why did you not select Raleigh?" the eporter asked. "Goldsboro is more convenient," he re plied. "You see we have elders at work in Wilmington, Wilson, Kinston, Elizabeth City and other places in the east and I can best reach these fields from

Goldsboro." Special attention is paid to

the east in winter.

Presiding Elder Swenson says that he regards North Carolina as one of the elders receive here is in marked contrast to the way they are mobbed in Georgia. The elders say that if the people do not agree with them here they generally cases of the plague and twenty-six treat them fair. In reply to a question, Presiding Elder

Swenson said: "Yes, the elders go out

by twos. This is the way it was done in apostolic times. The Latter Day Saints have made no changes in the gospel commands. 'Christ was the only perfect man that ever lived and he made mistake in the organization he perplan he established of sending out the workers in pairs. We do not change a letter of Christ's commands.

"It is a great sacrifice to be an elder They receive no salary and are sent forth to labor. I was sent here to take \$75 position, left my wife and two children to come to North Carolina to work for two years."

Latter Day Saints do not practice polyramy now. They yield obedience to the law of the land. It was a severe strain when the law was passed on those who had more than one wife. The Presiding Elder's father had two wives and he is the son of the second wife. His father went to fail rather than renounce his wife and basterdize his children. There are no poor houses in Utah, says

the Presiding Elder, and the poor are well cared for. There are fast days on which those who have plenty fast and give their food to the poor instead of Of the two Elders here, Elder Emer;

COUNCIL CALLED

ULTIMATUM TO FOLLOW

The Boers Must Now Either Back Down or Fight-The Climax Inevitable This Week.

London, Sept. 6 .- Lord Salisbury came to London to meet Chamberlain to-day. Immediately after a conference an urgent message was sent and it summoned all minister to a Cabinet Council Fri-

Geenral opinion leads to the belief that the Cabinet Council called will result in an ultimatum to the Transvaal Republic followed by an immediate backdown of the Boers or the commencement of hostilities by Great Britain. This feeling however is founded on the rend of recent negotiations and it is often forgotten that in these Lord Chamberialain had practically a free hand and was hindered by the cautions of conservatism, which will undoubtedly characterize the deliberations of a full abinet conneil.

The Pall Mall Gazette says "It is cared that during the next twenty-four ours the probability of war has become

preciably greater." Advices from various sources indicate in acute tension in all parts of South Africa, but unless the Boers take the inintiative, which at present is improbable, it is pretty certain that the issue of peace or war lies solely in the result

of Friday's council. GEN. WOLSEY'S ADVICE. London, Sept. 6.-Generals Wolsey, Sir Evelyn Wood and Sir Redvers Bulier conferred today at the war office over the Transvaal crisis. Wood advoated immediate occupation by a strong

A DOUBLE MARRIAGE

Marriage of Misses Fannie and Bessie Fortune

Mr. Fo. e did Not Expect to Lose Both Daughte, Wutil the Second Bride-

A double marriage and a surprise marringe, all combined, was solemnized at noon to-day at the residence of Mr. J. B. Fortune, clerk of the United States District Court, on Newbern avenue.

Invitations had been issued to the marriage of Miss Fannie Fortune to Mr. James Edgar Bailey, of Marshville, N. C., to take place at noon to-day. This morning about an hour before the cer mony was performed, Mr. Fortune received a telegram from Mr. B. E. Hamrick stating that he would arrive here at eleven o'clock, and asking him to be at the station. Mr. Fortune met him and they went immediately to the court house, where a ficense was procured for he marriage of Miss Bessie Fortune to Mr. B. E. Hamrick. It seems that the young people had arranged their plans but they were not made known until the arrival of the groom. Their marriage

at this time was entirely inexpected. Hence instead of the marriage which had been arranged for, a double marringe took place. Rev. Dr. Thomas E. Skinner performed the double ceremony at noon in the drawing room. It was a home wedding and only a few invited guests were present. The Misses Fortune have not lived in Raleigh two years

but have made many friends. Mr. and Mrs. James E. Bailey left for Marshville, their future home, this afternoon. Mr. Bailey is a prominent

ness man of that town. Mr. and Mrs. Hamrick will not leave before to-morrow. Mr. Hamrick is a son of ex-Sheriff Hamrick of Cleveland county. For some time, however, Mr. Hamrick has been traveling in the west and he would have reached here sooner. but was delayed by a railroad accident

A show never presented a more gorgeom pageant. We visited the grounds later on a business errand and again met a surprise. The show is absolutely new throughout, and covers not only the entire show lots, but all the streets surrounding them. The tents at the arter noon performance were packed with visiters, and the circus program for novelty, great features, comedy and real refinement excels anything San Francisco has seen in many years. WISE STAND OF SEC'Y ROOT The Rough Riders Need Help-The Ohio

Campaign-Cramps Shut Down-Sampson's Retirement-

Troops Returning Washington, Sept. 5 .- (Special.)-It is believed in Washington that there will be no war between England and the Transvaul Government. It would mean a great sacrifice for both parties, and, at the present writing, the British seem to be backing down from their demands. Much sympathy is felt for the Boers. who are fighting for independence, though in official circles friendly support is given to the British. It seems odd that just after a peace conference, when so much was talked about arbitration, that in the first two disputes that arose, there should be a disinclination on the part of the contestants in both affairs to submit their claims to arbitration. The United States refused to arbitrate

the Alaskan Boundary question, while the British take the same position relative to the dispute in the Transvaal. A number of the Rough Riders have, through the recommendation of Governor Roosevelt, received commissions in the volunteer regiments now being formed, but because William S. Murphy, one of the Rough Riders, was denied a commission, probably on account of lack of places to go around, he brooded over his failure to such an extent that it has caused him to become insane, and he is now confined in the Washington Insane Asylum. Just what to do with the Rough Riders, many of whom have no means of support, is a problem that has aused Gevernor Roosevelt many an auxious thought, and since he is their eader, they naturally look to him for

help. Roosyelt has done all that he

could for them, but, of course, cannot

create government positions for the enire regiment. Secretary Root has taken a wise stand in refusing to admit the reporters to the proving ground at Sandy Hook, New York, and says that there has been altogether too much publicity in the past. As a direct result of the publicity, the experiments of the United States have become known to the whole civilized world. The attaches of foreign embassies have been kept fully informed as to the experiments of the United States. In the mitted. Any one who has visited foreign countries knows how difficult it is to get access to the arsenals, forts and fortifications, and yet we are so free as to allow the whole world to know exactly what we are doing in the matter of making a proper defense in case of war. This thing should never have been permitted at any time, and every one will approve Secretary Root's firm stand in

The Havana press are considerably perplexed concerning the President's Census Proclamation, and comment upon the absence of the words "Cuba is by right and ought to be free and independent," which were in the proclamation of 1898. The census will, however, enable the Administration to determine about the qualifications of the voters, preparatory to an election to be held in Cuba, and is understood to be one of the tirst steps towards establishing an independent stable government in Cuba. Although, on the surface, nobody

seems to seriously oppose the renomination of Mr. Bryan by the Democrats for the Presidency next year, signs are not wanting that shoul events turn out as they seem likely to do, Mr. Bryan will be laid upon the shelf. The critical States seem to be Nebraska and Ohio. In Ohio, Editor McLean has been nominated for Governor, and, should he be elected, he will step at once into the position of the logical candidate for the Presidency. This will be the case even if Nebraska remains in the Populist ranks, but should the fusionists fail to hold that State this fall. Mr. Bryan's hopes of a renomination will be in vain. As between Mr. Bryan who failed to hold his own state, and Mr. McLean who could carry Ohio, President Me-Kinley's home State, | the Democratic party could hardly hesitate, strong though Mr. Bryan's hold on the affection of his party may seem to be. True, the Ohio Democratic platform declares for Bryan's renomination, but McLean thinks a bird in the hand is worth two in the bush. If he is elected Governor of Ohio, the Presidential nomin come to him without his asking for it.

The Administration is very much concerned over the reported shut-down of the shops of the Oramp Ship Building Company in Philadelphia. The Cramps claim that it is because of the coming of the veterans to Philadelphia, that they have closed down, as they desire to give the veterans every opportunity to go through their shops. The workmen claim that the closing up of the snops was to avoid a strike. The Government is not so much concerned as to the causes, as in the fact that the stopping of all work now is going to delay the completion of
