GERMANY INDIGNANT

Trades Guilds Act on Dreyfus Outrage

LOUBET'S UNEXPECTED COURSE

Bills Will be Introduced in French Chamber of Deputies Abolishing Court-martials in Time of Peace.

Cologne, Sept. 13.—At a final session of the Trades Guilds of all Germany last night it was decided that no member of the Guilds Union will exhibit at the Paris Exposition. A resolution was passed to the effect that the verdict at Rennes was equivalent to a slap in the face of Germany in view of the official declarations of this government in regard to Dreyfus. It was further declared that the verdict had shaken the very roots of the people in French justice and moral credit.

LOUBET OPPOSES.

Paris, Sept. 13.—The Journal states that the government has not abandoned its intended action against some General, but the President is showing unexpected opposition. Several members of the Chamber of Deputies intend introducing bills at the next session abolishing courts martial in time of peace and modifying the criminal code.

DEYFUS PARDONED

New York, Sept. 13.—The Journal has a Paris special which says it can now be stated that it is almost certain that Dreyfus has been pardoned.

London, Sept. 13.—The Evening News says it is rumored in this city that the Rothschilds are informed that Dreyfus is pardoned.

The Kinston furniture factory has been incorporated. The following are its incorporators: Messrs. J. W. Grainger, L. Harvey, J. B. Temple, T. W. Mewborn, J. Q. Ackson, E. T. Moseley, W. O. The value of a share is \$50. Stock worth \$25,000 has been taken so far.

The Balfour Quarry Company, of Asheville, was today incorporated for the purpose of quarrying and erecting buildings. The capital stock is \$5,000.

DEVIL ANSE ARRESTED.

The Famous Mountain Outlaw a Prisoner at Last.

Wharfedale, W. Va., Sept. 1.—"Devil Anse" Hatfield, now fifty-eight years of age, and who for fifteen years has led the clan bearing his name during their bloody warfare with the McCoy along the border of West Virginia and Kentucky, was arrested late this afternoon for the first time in his life. His son Bob and son-in-law, John Dingess, were also arrested at the same time.

The Hatfields' lawlessness is known all over the country, but now that Mingo county is becoming more civilized, the inhabitants are tired of feeds, and a few weeks ago concerted action was taken by citizens to put a stop to outlawry. Accordingly, a posse fifty strong, composed of the bravest men in this county, assisted by half a dozen officials of Huntington, W. Va., today boarded a special train at Gray, and came to this place for the purpose of making an attempt to capture all the Hatfields and their kin, against whom indictments have been made either here or in Kentucky.

This is the Hatfields' stronghold, their fort being located only a short distance away. When the train stopped "Devil Anse," his son Bob and John Dingess, who were standing near, got sight of the posse, and all started rapidly to ward their fort. The posse started in pursuit, and after several shots had been fired, the Hatfields surrendered. The posse hurried on to the big fort with the hope of capturing the notorious "Cap" Hatfield. To their disappointment "Cap" was not there, but they found enough ammunition and provisions for a small army. "Cap" had evidently escaped to the mountains on hearing the firing at his relatives, and a portion of the posse is in the mountains to-night and hope to locate him soon at daybreak.

The prisoners were taken to Williamson on the special train. Miss Belle Stebbins, who murdered Doc Ellis on a passenger train last summer, is now on trial at Williamson. There is great excitement in Mingo to-night, and it is difficult to predict the outcome of to-day's captures. At least forty more of the Hatfields and relatives are hiding in this region, and should the posse come upon them in a body a bloody battle will result. The men arrested to-day carried Winchester.

A PLAIN TRAIT.

New York, Sept. 13.—The late Cornelius Vanderbilt's funeral will take place Friday morning at ten thirty from St. Bartholomew's church. It is stated that Cornelius Vanderbilt, Jr., reconciled to his father and will be the head of the family.

Senator Depew says that in regard to the relations of Vanderbilt with his son, Cornelius, Jr., the only fair inference left is that William K. Vanderbilt, Jr. will handle the deceased's fortune.

BUILDING PERMITS

Chief Mullin Says the Law will be Enforced—Liable to \$25 Penalty.

Chief of Police Mullin this morning was talking of the failure of contractors and property owners to get building permits. The fire limit in this city is bounded by Morgan, Salisbury, Blount and Davis streets, and it is necessary to secure a permit before this work can be done.

Wherever building is done in the city to cost as much as \$100 a building permit is required. These permits cost nothing yet the law is constantly violated but a penalty of \$25 is imposed for all.

Chief of Police Mullin said to-day: "This ordinance will be enforced now and a warrant will be issued for the next violation and the penalty imposed."

CONCERT AT PEABOE.

The musicale given at Peace Institute last evening by the faculty was largely attended and proved a most delightful occasion. This famous institution never had an abler corps of teachers than this year and the prospect for a large opening was never so good.

SMALL BOY'S REWARD.

The small boy was at last rewarded. He had been standing for some time watching a man considerably the worse for liquor, and it was evident that he expected something to happen.

The man was standing against the side of a saloon, and a number of persons passed him by and went into the saloon. Suddenly the man gave a lurch and slowly sank to the ground.

The boy's face brightened, and he quickly ran to the saloon door. Throwing it open he called out: "Say, mister, your sign has fell down."

The saloonkeeper went out and, looking at his sign, saw that it was in place. He looked at the boy and said: "I thought you said that my sign had fallen down."

"I did," said the boy, "there it is," and he pointed to the prostitute man.

The saloonkeeper gazed at the boy, then at the man and a smile came over his face as he gathered up "the sign" and took it inside.—Pittsburg Teleg. sp.

IRISHMEN WILL HELP TRANSVAAL

Kruger Sees that War has Come

ULTIMATUM MAKES IT INEVITABLE

Safe Conduct or Protection Offered by Transvaal to the Italian Miners There.

Pretoria, Sept. 12.—(Delayed in transmission.)—The latest understanding here in regard to the British reply is that Great Britain asks an answer from Transvaal within forty-eight hours. The executive has already deliberated on the matter, and has been in telegraphic communication with the Orange Free State government, which Kruger consulted in regard to his reply, which will be drafted to-morrow, after the views of the Orange Free State are ascertained. Then the reply will be submitted to Volksraad. The situation is regarded as grave, but Secretary of State Reitz has declared that he does not regard it as hopeless.

MEANS WAR.

London, Sept. 13.—Secretary Chamberlain's message to the Transvaal says the franchise concessions will be accepted if the Court of Inquiry shows them adequate. The Outlander members of the Rand must be permitted to use their own language. An immediate reply is requested in order to relieve their present tension.

The All Mail Gazette's Cape Town special says that the British reply is regarded as the equivalent of an ultimatum, and its correspondent's advice from Pretoria indicate that was inevitable.

A Pretoria special from Cape Town says the Transvaal has notified the miners of Italy that it will give them safe conduct and protection, in case they wish to remain in Transvaal.

The report that Rand, an Irishman, has formed a corps to help Kruger, is confirmed.

It is said at Cape Town that a telegram was received from New York saying that ten thousand Irishmen are ready to help Transvaal.

The Orange Free State Burghers are reported as bitterly divided on the merits of the controversy and their probable course is uncertain.

ABSOLUTE REFUSAL.

Brussels, Sept. 13.—A legation from the African Republic here has received a copy of Chamberlain's reply, which says that Great Britain absolutely rejects all Boer proposals and bases it on the assumption that Transvaal is a foreign international state. A despatch says: "Her majesty's government has absolutely repudiated this view of the political status of Transvaal."

EXAMINE OUR SYSTEM

Durham County's Representatives Visit Convict Camp.

County Road Supervisor A. H. Stokes, Contractor T. S. Christian and County Road Foreman J. S. Durham, all of Durham, spent yesterday here. They were sent by the board of county commissioners to see the Wake county convict camp with a view of having one built for that county. What Durham wanted was a house built in sections so that it may be taken down, placed on wagons and moved from place to place so that when it is necessary to move from one part of the county to another, the stockade, as well as the other fixtures necessary for the safe keeping of the convicts may be taken along and set up.

However, the gentlemen were very much pleased with Wake's plan of having a convict camp when it was explained by Mr. McMackin. It is probable that Durham will adopt the plan used in this county.

CARRIED TO PIT

Elijah Joyner the Murderer to be Tried There.

This morning Sheriff Moring from Pitt arrived here and carried the negro Elijah Joyner, who has been kept in the jail for safe keeping, back to Pitt county for trial. Joyner is the self-confessed murderer and robber of a merchant in Pitt and then burning the building. Joyner will be placed on trial next week. There seems to be no question of his conviction.

SUIT POSSIBLE

The City and County Have Not Agreed on a Settlement of the Small Tax Bill of Last Spring.

The city and county disagree about the payment of the money expended in the small tax business here last spring, and it is possible that a law suit may result.

The city claims that the county agreed to defray half of the expense while the county says that it will pay only its proportionate part.

The total expended in suppressing the disease and the maintenance of the pest house is about \$7,000. The county commissioners had the matter up at their last meeting and referred it to Chairman Lewis and County Attorney Jones.

Mayor Powell to-day called on Chairman Lewis and the latter informed him that the county would pay only its proportionate part.

Mayor Powell stated afterwards to a reporter that he and the City Attorney made an agreement with the chairman of the county commissioners and the county attorney last spring that the county was to pay half of the costs and in consideration of this understanding the city health officer went to even the remote parts of the county after cases and suspects and the pest house was kept up nearly six weeks longer than the city needed it in order to care for a county patient. The city vaccinators also worked outside of the city limits.

He says that this was only done after the agreement was made.

Chairman Lewis was seen and said that Attorney Jones was out of the city and he would have to act with him. The county is willing to bear its part of the expense but, he says, that is no agreement to pay half. The county physician did some vaccinating in the county and another physician was employed for seven days.

NO CREDIT FOR GOOD INTENTIONS.

From the Chicago Tribune.

"Some people," said the boy with the dirty face, "never thank me, no matter what ye do for 'em. An' by George, he thanked me for it."

A MECHANICAL PRODIGY.

Latest Addition to the Equipment of the Boston Elevated Railroad.

Another mechanical prodigy has been added by the Boston Elevated Railroad Company to its magnificent equipment at the New York Sun. This is a new steel shaft—reported to be the largest ever cast—to form part of a new vertical cross-compound engine, which is being put in place in the company's central power station, an engine 4,000-horse power, at ordinary speed. The shaft is twenty-eight feet in length over all, thirty-eight inches diameter in the center and weighs in its finished state about 75,000 pounds; as a rough casting its weight was much heavier, of course, a hole fifteen inches in diameter having to be bored in the center. In the journals, which are each fifty inches in length, leaving a length of some twenty feet between the centers, the diameter is thirty inches. The vast proportions characterizing all the other features of this undertaking will be further underscored when it is stated that the flywheel casting weighs seventy-five tons.

THE MAUSER PISTOL A WONDER

Shoots Ten Times in Three Seconds, and Will Kill at 500 Yards.

By Associated Press.

Kansas City, Mo., Sept. 11.—Dr. J. D. Griffith, of this city, has just completed for the Government an official test of the Mauser pistol in use by German cavalry, and under consideration for adoption by the United States. The test was made not only with targets, but with human cadavers also, and Dr. Griffith says it was proved at ranges of from 50 to 500 yards. The Mauser pistol is the most effective and deadly weapon of its kind ever invented, and up to the maximum range tried it is practically as good in the hands of marksmen as a Krug-Jorgensen, a Lee or a Mauser rifle.

When nothing but flesh resists the passage of the bullet it makes a small, round incision which it enters; a knife like cut where it departs. If bone is in the way it is often shattered into fragments. The pistol with a shoulder attachment shoots accurately and will kill at a range of 500 yards.

Several surgeons who witnessed the test said it was a humane weapon, because it would kill a man instantly if the bullet hit a vital organ, or would incapacitate a soldier if it struck a bone. The pistol fires ten shots, without reloading, and can be emptied with accuracy of aim in less than three seconds. The cartridges are .30 calibre, and are propelled by smokeless nitro-powder. The bullets weigh 85 grains each, and have a lead core, surrounded by a nickel-plated copper jacket.

A SQUATTER 'IN RALEIGH

From Colorado and Pitches Tent by Brooklyn Church

HAS A DEED FROM DR. EUGENE GRISSOM

The Land was Supposed to Belong to the State—The Stranger Paid \$750, For Three and a Half Acres.

It was learned this morning that a stranger had quartered himself on the property in front of the Brooklyn Methodist church on the northwestern suburb of the city and claimed ownership.

You can imagine the surprise of the Brooklynites when the stranger appeared and erected his little tent on the ground which they supposed the city bought for the A. and M. College. But as will appear below it seems that Dr. Grissom owned over half of the field in front of the church.

A Times-Visitor reporter went out this afternoon and had an interview with the stranger who was laying down under the shade of trees and taking things quite easy. On the hill side was a little white tent in which he sleeps. Beside the tent was a large substantial trunk.

He greeted the reporter pleasantly and gave his name as Andrew W. Hunter, of Pueblo, Colorado.

He was very reticent when questioned as to his ownership of the property on which he was quartered, saying that he was here for "his health and did not care to talk for publication." However, he has a very genial disposition and the reporter managed to worm the information desired out of him.

He is a native of Pennsylvania and has lived in Colorado for the past three and a half years, holding a position in the Colorado State Insane Asylum. He was ousted from this position the first of the month owing to the fusion party which gained control in the last election.

Dr. Thoms, whom he stated had been superintendent of the asylum for the past nineteen years, but who had also been politically decapitated.

Mr. Hunter stated that Dr. Eugene Grissom, of whom he bought the property, was assistant physician at the Colorado State Insane Asylum, and was getting along splendidly.

Mr. Hunter says he likes the country here and will probably build on the tract on which he is now quartered.

The date of the deed to the property is July 13, 1890, and is properly recorded at the court house here by Register Hood. The price is \$725. The tract contains 3 1/2 acres in front of the Brooklyn church. Dr. Grissom sold him the property while in Colorado.

Mr. Hunter is a large
