THE LEADER IN THE NEWS AND IN CITY CIRCULATION. WEDNESDAY, OCTOBER 4, 1900

Another evidence that wealth without love is a dismal failure is furnished in the elopement of a wealthy New York farmer's wife with a hired man on the farm. It is either that or the woman was a fool—the latter is no doubt the philosophy of the matter.

Chicago is not to be left in honoring Dewey. The title of LL. D. will be hurled at him from the Chicago University. While in the conferring business the college might confer the title of J. L. L. on Admiral Sampson, correctly interpreted means "just a little late."

Cartier, the government swindler, has resorted to the habes corpus and will be given a hearing. It is held under the articles of war that Cartier could not be punished both by fine and imprisonment. It would be a pity if such a scoundrel should escape just punishment.

China is seeking an alliance with Japan. With the greed of European powers staring her in the face, this step is looked forward to as a matter of self-preservation. It is doubtful, however, if such an alliance was perfected, that it would save Celestial pig-tails from being gobbled up, which only appears to be a matter of time.

"Under the Double Eagle," by Wagner, is said to be Admiral Dewey's favorite air. This is the piece the band on the Olympia played as the fleet steamed out of the harbor of Hong-Kong to give battle to the Spaniards in Manila Bay, and again when the famous war ship started homeward.

The Japanese government, having decided to keep its system of education strictly secular, is withholding its sanctions and privileges from all schools in which religion is in any form taught. This has been construed as an attack upon the Christian schools, which are, in effect, almost the only ones to suffer from the new policy. Some have been already closed and all are being greatly depleted in attendance because of the superior advantages and privileges which purely secular schools enjoy.

VOLCANIC ERUPTIONS. Are grand, but this eruption took its toll of lives. Eruption's Andes Salvo curves down. Utters, Bells, Corns, Warts, Itches, Burns, Scalds, Chapped Hands, Swollen Feet, Itch, and many more. Only if you use this. Guaranteed. Sold by all druggists.

"Golden Rule" Jones, the independent gubernatorial candidate claims to have 100,000 signatures attached to his petition and "golden rule" clubs are springing up all over the State. "Golden Rule" Jones will find that signing petitions is one thing and casting ballots is another.

Both Bryan and President McKinley will take a hand in the fight in Ohio. Bryan is booked for a flying tour of the State and for about 50 speeches. McKinley will simply make a trip across the State, speaking at the principal railway towns.

Even Embalmed Beef Egan talks of restoration to his former command. So far the Filipinos have not succeeded in driving Otis from Manila. He is still manfully holding the town.

HOW TO PROLONG LIFE. "Intemperance anticipates age," so said the late Sir Benjamin Ward Richardson. The more the social causes of mental and physical organic diseases are investigated, the more closely the origin of degenerative organic changes leading to premature degeneration and decay are questioned, the more closely does it come out that intemperance, often not suspected by the person himself who is implicated in it, so subtle is its influence, is at the root of evil. When old age has really commenced its march toward final decay it is best delayed by attention to those rules of conservation by which life is sustained, with the least friction and the least waste. The prime rules for this purpose are—to subsist on light but nutritious diet, with milk as the standard food, but varied according to season; to take food in moderate quantities four times a day, including a light meal before going to bed; to clothe warmly, but lightly, so that the body may in all seasons maintain its equal temperature; to keep the body in fair exercise, and the mind active and cheerful; to maintain an interest in what is going on in the world, and to take part in the pleasures and pleasures, as though old age were not present; to take plenty of sleep during sleeping hours; to spend nine hours in bed at least, and to take care during cold weather that the temperature of the bedrooms is maintained at 60 degrees Fahr.; to avoid passion, excitement and luxury.—American Journal of Health.

CHILLS. and Fever is a bottle of Grove's Tasteless Chilli Tonic. The formula is plainly printed on each bottle, showing that it is simply Iron and Quinine in a tasteless form. Imitators do not advertise their formula because if they did they know that you would be afraid to take their medicine. Be sure then you get Grove's as the formula shows what you are taking.
