THE LEADER IN THE NEWS AND IN CITY CIRCULATION.

OCTOBER.

I walk knee-deep in bracken plumes that redden. The sound of winter's steps my heart leaves shiver. Above the noise my standards of soul-shaken. I did the wood sleep and the wind awaken. My day to hold the morning mist I saw. My wind walls sadder than the mistle's silver.

I had the garden glades so in 1900. I send the first frost through my way. I strain the last leaves off from old and new. With leaves some cover their the hands of March.

First the drowsy dormouse, hawking its eyes. Before he finds his place of winter sleep. Above the empty nests, the flag's out-sheath. I had the wood sleep and the wind awaken. North Harbor in the Westminster Gazette.

So on the water-lilies has established the fact that thunder can be heard a distance of 14 miles. It is reported that the scientific faculty tried to measure the sound of thunder in a Southern Maryland political campaign.

The Republican committee in Ohio has called for \$1,000,000 for "legitimate campaign expenses." No wonder they have no touch trouble in that State to put the people away from the political campaign.

"Secretary Lang really thinks that the emergency question is 'nothing of the past,' and not to be met and met now by the Republican party, then it deserves the contempt that we have and administered to him. Probably it means nothing of the sort."

The Fairville Courier Journal takes this view of the Transient situation. There is a good deal of sympathy with the Transient simply because it is the smaller dog. In the end, however, the dog will need no sympathy. From a practical point of view, the people who will be benefited most from the whipping Great Britain is the administrator in the Bears will be the Bears themselves.

Small Rubio became Mexican Minister of the Interior under President Diaz. The father is presumably fond of drink drinking. Rubio is not, but he was persuaded to join the President on an expedition. While in the late one day Diaz saw a number of ducks rise on the opposite side and began flying toward him. He took position in the bow of the boat and the boatman paddled slowly toward the bank. Just as Diaz raised his gun to fire the boat struck and the President sat down in the mud. Without noticing the interruption, he let go both barrels and brought down two ducks. Then he quietly turned to Rubio and said: "I wonder if the President of the United States could beat that?"

In Newton, Mass., the public schools are closed on stormy days; but as it is the policy upon the superintendent to determine what constitutes a "stormy day," the pupils frequently have no means of knowing whether or no school will "keep" when the weather is threatening. Arrangements have now been made whereby the Boston Weather Bureau will send a forecast to Newton each morning, and upon receipt of the same signal flags will be hoisted over the school houses for the guidance of the pupils.

Rheumatism—"My mother, eighty years old, has received much benefit from taking Hood's Sarsaparilla for rheumatism, and recommends Hood's to others." Agnes D. Derby, Jamestown, N. Y.

Catarrh in Head—"My daughter had catarrh in the head and Hood's Sarsaparilla cured it. We take it as blood medicine and tonic and it keeps us well all summer." Mrs. Ed. Peterson, Kibbey, Mont.

New Life—"As a spring tonic and blood purifier Hood's Sarsaparilla overcomes that tired feeling and gives our whole family new life." Wm. Ringel, 513 5th Ave., Peoria, Ill.

Grip Cold—"My boy had a terrible grip cold and was very much run down. Hood's Sarsaparilla made him well; it is growing strong and fleshy." Mrs. Thos. S. Osborn, Norwich, Ct.
