TIMES-VISITOR TELEPHONES:

A REAL ATTRACTION.

Once more Raleigh is to be given a theatrical treat and a genuine artist is to give a performance in the Academy of Music. During this season Louis James, Kethrya Kidder and Charles Handord presented "A Winter's Tale" and the entire city was charmed. Up to this time there has been only this one play that is equal to the best that is given in the North, but once again a ready firstelass attraction is booked. Herrmann the Great, than whom there is no greater in his line and who is noted throughout the whole country for his wonderful powers The writer has seen Herrman and has witnessed the wonderful spectacular performance of Solaret. This one feature of Mr. Herrman's attraction costs him about \$400 per week, and it is that sum that must be guaranteed him for each appearance that he makes in this part of the country. In the North his guarantee amounts to three times that amount, and so it does in the far South, but Herrmann is going for fame and his appearances in a lew of the Southern cities is only for the purpose of breaking his long journey to Havana and the City of Mexico.

The position that Haleign as to take in the eyes of theatrical managers of the North depends largely upon the appreciation shown here for the nigh class productions that stop here under guarantee. Whether Raieigh theatre goers wish first class productions will be definitaly settled by another season. The notices reprinted from other papers concerning the programme rendered by Herrman do not in a single instance give undeserved credit. The performance is of such a nature that all of the electrical facilities in this city will be necessary on Wednesday night to aid the great magiclan in his work and to give the powerful and intense light that is necessary for the production of Solaret's wonderful

It is hoped, by those who love good attractions, that this season will mark a new era in the theatrical life of Raleigh. that the efforts of the management of the Academy of Music to present the best productions will meet with proper gnition; and that the coming of the "Texas Steer," "The Christian" and "Quo Vadia" will be properly welcomed by theatre-goers to that extent that we may expect in future equally good attractions as are presented in Atlanta and the other large cities of the South.

COMMENTS ON KENTUCKY.

(From the Baltimore Sun.)

There is fear of Federal interference in Kentucky, but this would not be warmable to preserve order. Under the law the Legislature has the power to decide sta for State officers, and if its decission is against Governor Taylor it must be assumed that it is carryong ou the wishes of the majority of the people of Kentucky. As a matter of fact, this may not be the case, but as long as the Legislature acts within the law there should be no interference by the Federal authorities. The election of State of ficers is not a matter which concerns the Federal Government. President Mc-Kinley should not interfere in Kentucky, re, unless the situation is such that, for the protection of life and property, action by the National Government is essential. The country has not for gotten the flimay pretexts upon which there was Federal interference in the

Murder is not required to seavince Kentuckians that hose rule is a tyranny of which they should rid themselves if they would preserve their liberties under a sepublican form of severament, when they fully appreciate the enormity of the crime involved in the deliberate appearation of whereaster of the well of the majority of the resident subversion of the will of the majority they will find an ample remody in the ballot box. Honest election laws, en-lightened public sentiment and independence in voting will destroy any boss sys-tem that was ever devised to thwart and millify the will of the people.

The cry for a union station in Durham has been begun by the people of that town, and is led by the Durham Sun, ever sealous paper that it is for the good of local interests. The proposition is that the town of Durham has grown and should have public accommodation commensurate with the importance of that station. The Southern Railway, Secaboard Air Line and Norfolk and Seeaboard Air Line and Norfolk and Western Railway are appealed to and the Sun fatiniates that if the three do not unite in giving ample accommodation, one of the three will be appealed to and will be offered the largest share of antennant that are the surpress to the support of the support

patronage that can be given to it.

It is never wise to attempt to account plish any matter by threats, but it seems that Durham has an excellent case and should be given a favorable hearing by the railroad companies that divide the patronage of that enterprising tobacco
