dition to the lits is George M. Fisner, son of Captain George L. Fisher, of Company B. First Maryland Regiment, who an-nounces that he will be an independent candidate for Congress from the Sixth District. He says he is an independent Republican. He has but one arm and keeps a cigar and tobacco store in Ha-His platform will entitle him to a posl-

tion in the front ranks of cranks and anarchists. The paltform is as follows: "I am in favor of a national law mak-

ing eight hours a day for all working people.
"Every honorably discharged soldier

should have a pension. The Government should give the pension appropriation to the soldiers and do away with political examining boards and pension attorney sharks.

"I am opposed to Government by injunc tion, imperialism and civil service.

"I am in favor of a national law not to allow any railroad company to haul over 35 cars in one train, the crew of said train to consist of two brakesmen. one flagman, conductor, engineman and fireman, and allow no railroad company to run double-headers, and to compel all corporations to take care of all employes hurt in their service."

Fisher's platform reads like the demands of a Western Populist.

NOW FOR A JOINT DEBATE.

The Baltimore Sun suggests: "The conversion of Webster Davis, late Assistant Secretary of the Interior, to the Democratic platform had hardly ceased to cause political wonder before nouncement comes from Philadelphia that nited States District Attorney James M Beck, who was appointed by President Cleveland, has taken an opposite course He avers that he 'has not let the Democratic party, because there is none to leave. But coincidently with his statement comes from Washington the announcement that Mr. Beck is to be ap-pointed Assistant Attorney General, succeeding Col. James E. Boyd, who is to go upon the Federal Bench in North Carolina. Therefore Mr. Beck's declared change of faith is calculated to be of some avail both as to present and future opportunities with the party to which he has now allied himself.

"Mr. Davis' change of faith is note-worthy in this connection, because both he and Mr. Beck are orators of more than ordinary skill and fluency. Mr. Davis will doubtless exert his gifts in behalf of the Democratic ticket and Mr. Beck can be equally of service to the Republicans. He is an orator of rare genius and national fame and will be one of the star "spellbinders" if brought at all into the campaign.

"Since two suchable as at % (| '11/21/21 "Since two such able talkers have ex-changed paths it might be interesting to arrange a joint debate between them on the issues of the present contest. There would be a bubbling over of oratory, silver tongued in one instance and gold in the other, but altogether a melody of words worth the price of admission."

Glasgow, which is famous already for its experiments in municipal ownership of public utilities, is to inaugurate a municipal telephone exchange for 5,000 subscribers. The plant is to be of the most modern kind. It is expected to pay for itself and its running expenses at an annual charge to each subscriber of about \$27.25. The charge by the private corporation now doing the business is \$50. But, as a cynical writer suggests, in Glasgow they do not mix politics and municipal business.

The American lawyers in Manila have formed a Bar Association.

FREEZING WEATHER IN JULY Would cause great discomfort and loss, but fortunately it is seldom known. A vast amount of misery is caused at this season, however, by impoverished blood, poor appeptite and general debility. These conditions may be remedled by enriching the blood and toning the stomach with Hood's Sarsaparilla. This medicine seems to put new life into the whole physical system, simply because of its wonderful power to purify, enrich and vitalize the blood, create an appeptite and invigorate the digestive functions. We advise you to get a bottle and try it if you are not feeling just right. It will do you more good than a six weeks vacation. It is the best medicine money can buy.

Illustrations of the adage that there nothing new under the sun are never far to seek, and a singular instance is sup-piled in "The Art of Warre," by Niccoli Machiavelli, dated 1850, and translated by Peter Whitehorne. At the end of the book the translator has added some original matter. In telling "How to write and cause the same that is written to be 'read afar off without sending any message,' he says: "A captain besieged in any town or fortress unable to communicate without by letter may, by night so far as light can be seen, and by day as far as burnished glass casting the sur on a hut, or suchlike, may be describedhe having arranged with his friends the order of signal—one or two lights being flashed, hidden or displayed again." This is the principle of the modern heliograph

"The Least Hair Casts a Shadow."

A single drop of poison blood will, unless checked in time, make the whole impure. Hood's Sarsaparilla is the great leader in blood purifiers. It casts no shadow, but brings sunshine and health into every household.

Dyspepsia-"For six months my system was out of order with dyspepsia and impure blood. Spent lots of money in vain, but Hood's Sarsaparilla cured me thoroughly." Jos. S. Zauba, Genoa, Neb.

Eruptions — "I had annoying erup-tions caused by impure blood, and physicians' treatment failed to benefit. Hood's Sarsaparilla removed them and I am no longer annoyed." W. R. Hudson, Natrona, Pa.
