These are Minister Conger's Brave Words

RUSSIAN MINISTER TO LEAVE PEKIN

His Government Orders Him to Accept Chinese Escort—Viceroy's Beg United States Not to Land Troops at Shanghai.

Washington, Aug. 11.—Admiral Remy cables from Taku under date of August 7th: General Chaffee telegraphs from Front August 6th, that Yang Tsung is occupied. The casualties were about sixty in his command, two marines were wounded. There were many prostrated from heat and fatigue.

The general commanding the English at Front telegraphs: We marched from Peitsang nine miles toward Yang Tsung where we formed for attack. It is the Americans on the right and the Russians on the left, and after a rapid advance of three miles under a hot rifle and shell fire our troops carried the first line of the Chinese defence. The casualties were about fifty killed or died from sunstroke.

CHINESE PETITION.

Washington, Aug. 11.—The Chinese minister called at the State Department this morning and presented Acting Secretary Aree with a communication from the viceroy of the Southern Province of China asking the United States government to use its good influence to prevent the landing of troops at Shanghai. The paper declared that reports that troops would be landed there had already affected the natives, many of who are leaving the city; also that business was becoming demoralized and if the troops were landed this action would probably be followed by an uprising of the Chinese.

RUSSIAN MINISTER TO LEAVE.

St. Petersburg, Aug. 11.—An official messenger announces that De Giers, Russian minister to China, has been ordered by the czar to quit Pekin with his staff under guarantee of safety by the Chinese government.

WU ONLY THINKS.

Washington, Aug. 11.—Minister Wu, while he has no advice of an official source, thinks it more than likely that an imperial edict to act as mediator with the powers to establish peace. He said that he had no news this morning.

CAN HOLD ON.

Washington, Aug. 11.—The following despatch communicating an additional message from United States Minister Conger which was sent through Consul McWade at Canton and made public today by the State Department. The message is dated Tainan and says: "Anglo answering my message says the legations are surrounded and sieged by imperial soldiers. The situation is desperate and the losses to the legations are sixty killed and about a hundred wounded. There is some sickness, nevertheless the general health and conditions are good." The message concludes: "Whatever may be the outcome, we will hold on indefinitely."

SIX NEW INSTRUCTORS

Pres. Winston Talks of A. and M. Prospects

THE ELECTRICAL ENGINEERING BUILDING

Prof. Wilson Here—Instructors Hall, Hubbard, Carter and Abbott Arrive Next Week—More Room Needed.

President Winston of the A. and M. College is enthusiastic over the prospects for the next session. The fall term begins September 5th. The instructors will be at their posts by August 15th, however, in order for backward students to make up their deficiencies that they can go on with their classes. "No student can go into a higher class until he has completed the work of the lower class satisfactorily," said President Winston to-day.

"We are receiving letters of inquiry at the rate of 50 a day, and form eight to ten applications for admittance each day," said the president, "and we will have more students than we can accommodate. There is provision in the college grounds for 191 and 50 can be arranged for in the neighborhood, where as we need rooms for 300. The total enrollment last year was 302, but that number was never on the roll at one time. In fact 82 students left, voluntarily and involuntarily, between September and April."

"Sixty students have been admitted for the coming session through examinations held at the various county seats and 29 have been rejected," he continued.

Dr. Winston spoke with enthusiasm of the many improvements made this summer. There are six new instructors in the college.

Mr. Henry M. Wilson, who will have charge of the textile department arrived Thursday. He is a native of Baltimore, educated at Johns Hopkins University and a graduate of the Philadelphia Textile School. This textile department has been fully equipped and three car loads of machinery, donated by New England companies have been received.

The building for electrical engineering is finished and all the machinery needed moved in.

This department will be largely for experimental work.

In the mechanical engineering department there are two new instructors, both Virginians. Mr. V. W. Hall of the Miller Manual Training School, but now inspector of engines for the Province Steam Engine Company, will have charge of the drawing. The assistant instructor in mechanical engineering is Mr. A. H. Hubard, of the Virginia Polytechnical School at Blacksburg.

Mr. Earle Carter, of High Point, has charge of the wood work. The equipment in this line has been greatly improved.

Mr. Lewis H. Abbott, of Lehigh University, is instructor in civil engineering. Capt. F. E. Phelps, of Ohio, the military instructor, has arrived with his family and they are living on the corner of Blount and Person.

All the instructors will be here next week.

DUGHI'S CREAM A FEATURE.

Thursday The Times-Visitor mentioned the fact that Dughi shipped 50 gallons of cream to a lawn party in Greensboro. From a clipping and a letter which Mr. Dughi received this morning it shows that Dughi's cream was made a star feature. The Greensboro Telegram said:

"The lawn party on Eckel's lawn Thursday night promises to be a great success. The cream will be furnished by Dughi of Raleigh, whose reputation is too well known to require comment here."

The letter reads as follows: "Mr. A. Dughi, Raleigh, N. C."

"Dear Sir: The cream came to hand all O. K. and proved entirely satisfactory. We thank you for the kind attention and promptness in serving us and I trust that we will have the pleasure of buying from you again."

"We especially advertised your cream and had the largest crowd possibly that has ever attended a lawn party here. We run short of cream early and could have had 25 or 50 gallons more if I had had it. Thanking you again, I am Yours truly,

M. J. SHERWOOD."

Maj. Hiram L. Grant expressed himself to a newspaper correspondent at Goldsboro as being desirous that anti-Boer war conventions be held throughout this congressional district, to be composed of white men only, and delegates elected to a district convention which shall nominate an anti-Boer war candidate for Congress. Recognizing the results of the recent election as eliminating the negro from politics, he suggests the canvass be made upon the high plane of national issues alone; accepting the issues as made paramount in Bryan's speech of acceptance and discussing the issues before the people, regulating local minor issues to the rear, and intelligently discussing the platform of the two parties upon their merits. These sentiments put forward here in advance of published similar ideas expressed by party leaders elsewhere would indicate a concert of action in an effort to mould public opinion.

Parties desiring beef and lamb for Sunday will do well to call on C. O. Ball. He is having some for Sunday especially.

RUHLIN IN A SAD PLIGHT

Suffers From the Effect of Fitz's Blows

HEMORAGES FROM NOSE AND EARS FOLLOWS

The Akron Giant is Better Today Now—ever and He is Now Resting at the Home of a Friend in Brooklyn.

New York, Aug. 11.—Ruhlin nearly died from the effects of the pummeling of Fitz last night. After the fight he was taken to Edwards baths in a state of total collapse. He had violent hemorrhages from the nose and blood flowed from his ears. At six o'clock this morning he was well enough to be moved to Billy Modden's house in Brooklyn. He is still weak from loss of blood, but Dr. Lumbard said that with rest he would come round all right.

Bob Fitzsimmons, the iron-handed pugilist from Australia, again proved his right to be regarded as one of the foremost
