AT THE LESTER—THURSDAY-FRIDAY

A crucial situation in "Song of Bernadette" finds stars Constance Cummings, Clifford Evans and Tommy Trinder ready to battle it out with the Nazis.

LESTER SATURDAY—You will Howl with Laughter—**"FOLLOW THE BAND"**—Leon Errol and Hilo Hattie.

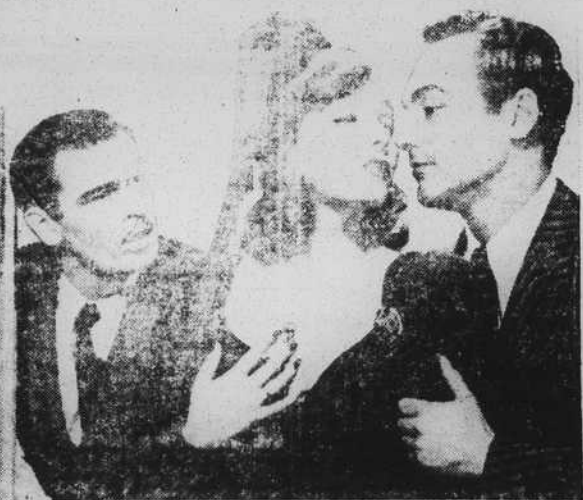

Leon Errol and Hilo Hattie are seen from the picture "Follow the Band" at the Lester Saturday.

AT THE LESTER—STARTS LATE SHOW SUN. NITE, Nov. 28, 29, 30—**"TONIGHT WE RAID CALAIS"** with Annabella and John Sutton.

COMING TO THE LESTER ONE DAY, DECEMBER 1ST.

It seems there's a crowd in this scene from "Redhead from Manhattan," a song and dance fiesta with Lupe Velez and Michael Duane.

## Tax Payers To File December Fifteenth

GREENSBORO, Nov. 19.—Commissioner of Internal Revenue Robert E. Hannegan today urged all taxpayers to determine if they are required to file either original or amended "Declarations of Estimated Income and Victory Tax on or before December 15.

Explaining that only a limited of taxpayers need make any filing at this time, Mr. Hannegan suggested that everyone ascertain for himself whether he is affected. By far the largest percentage of taxpayers have no further filings to make until the annual income and Victory tax return is due not later than March 15, 1944. However, some taxpayers who filed declarations in September have an installment to pay December 15, for which they will be sent bills by their local Collectors of Internal Revenue.

In general, the filing of a declaration on or before Dec. 15th will be required of the following:

1. Farmers who have sufficient income to require a filing and have postponed filing under the special provisions of law which permit farmers to wait as late as December 15.

2. Persons who did file in September but underestimated their tax by more than 20 per cent and who should, therefore, file "amended declarations" to avoid penalties.

3. Persons who did not file in September because their estimated income at that time was insufficient to require filing, but now come within any one of the following classes:

a. Anyone who expects to have during the calendar year 1943 more than \$100 gross income from a source outside of wages which are subject to withholding and who also expects sufficient gross income to require filing an income tax return (\$500 for a single person, \$1,200 for a married couple, or \$624 for an individual married person).

b. Any single person expecting wages of more than 2,700 during the year.

c. Any married person or any married couple expecting individually or together more than \$3,500 from wages during the year.

d. Any person who was required to file an income tax return for 1942 and who expects his wages in 1943 to be less than in 1942.

There may be some taxpayers who filed declarations in September and paid one-half of the remaining tax estimated to be due but who now believe that the amount for which the Collector will bill them in December is more than they should pay. These taxpayers may also file amended declarations correcting their previous estimate and recompute the amounts of their installments to be paid in December. In such cases the amended declaration should be accompanied by the bill received from the Collector, together with the remittance for any revised amount due on December 15.

"The December 15 filing," Mr. Hannegan said, "is in reality a follow-up to the September 15 filing. Both filings were steps in the transition to the pay-as-you-go system of tax collection in accordance with the Current Tax Payment Act of 1943.

"The purposes of the two filings are similar, the forms to be used are identical and to some extent even the same taxpayers are affected. To understand the purpose of this type of filing, it is necessary to recall that the income and Victory tax which is withheld from the wages of millions of taxpayers is not sufficient in many cases to pay the whole tax bill of the individual. This is true in cases in which the taxpayers receive income of rents, dividends, business profits and other sources where no tax is withheld. Tax is withheld only from wages. The withholding is insufficient also when a person's income is high enough to be affected by the graduated surtax rates beyond the first tax bracket. In other words, the withholding system keeps the average taxpayer paid up only to the extent of an approximate minimum tax.

"For these reasons, Congress enacted provisions by which taxpayers who are not kept paid up to date by the withholding system would be brought closer to the ideal of "pay-as-you-go". In September all taxpayers in this class—except farmers—were required to estimate their tax for the year and, after making credit for taxes already paid, withheld and to be withheld, to pay at least one-half of the balance. Those who must file in December will make their estimates on the same basis and pay the entire balance. The filing will be new to farmers who waited until now to file and also to those taxpayers who failed to file in September because their expected income was below the filing requirements but who now anticipate larger incomes sufficient to require the filing of a declaration.

"I want to say a special word," Mr. Hannegan emphasized, "to those who filed in September, estimated tax is not substantially different and who believes that his. Any taxpayer who filed in September and underestimated need not file any new or amended declaration this year. The correct tax will, of course be determined on the annual tax return which will be filed, as usual, on or before March 15, 1944.

"However, I would like to emphasize to the persons who filed declarations in September, that they should clearly understand

## Employment Stabilization Work Greatly Increased In N. Car.

Operation of the Employment Stabilization program since May 15 has greatly increased the work and shifted the emphasis in the 45 local offices of the U. S. Employment Service, of the War Manpower Commission in North Carolina, it is revealed by Earle W. Brockman, manager of the Gastonia local office, which serves this area.

Manager Brockman reports that during the month of October the local office issued 1029 Statements of Availability, denied applicants for 118, otherwise disposed of 134 applications and that 22 were pending at the end of the month. Also, in cases of appeals from decisions on Statements of Availability by the Review units in the local office, the office has to prepare the cases for hearing before the Local Appeals Panel, and prepare appeals taken from that panel to the State Management Labor Committee.

In October the Gastonia office placed 245 workers in essential employment and a total of 261 workers in all types of employment, including non-agricultural jobs. In clearance placements these made by transfer of the workers from one office area to another, the Gastonia office, at the office holding the order for workers locally, made 28 placements and filled 37 orders for workers originating in other local office areas.

The Gastonia office in October received 4338 personal calls dealing with employment, stabilization and numerous other activities. In addition, the Gastonia office handles all the initial and continued claims for unemployment benefits in this area, recruits trainees for training classes for war work and essential civilian activities, cooperates with the Governor's "work or fight" board and other local agencies.

Manager Brock reports that the 48 local USES offices in the State, on the basis of figures released by Dr. J. S. Dorton, State Director of the War Manpower Commission, had 3,670 new applications for jobs and 2,474 renewals in October. They placed 25,418 workers in essential employment and a total of 29,714 workers in all kinds of employment, of which 11,048 were in agricultural work. On a State-wide basis, 166,229 personal calls were made in local offices, much more than 10 per cent of the entire labor force in the state.

the law imposes a penalty against any taxpayer whose estimated tax is lower than the amount of tax actually due. Under an amended declaration is filed on or before December 15, which brings the estimated within the permissible margin of error, in other words, if a taxpayer has reason to believe that he underestimated his tax payments in September by a wide enough margin to cause a penalty, he should file an amended declaration which will be a more accurate estimate so that he will not be liable for a penalty. I have no desire to levy unnecessary penalties, and therefore I want taxpayers to understand clearly how to prevent them.

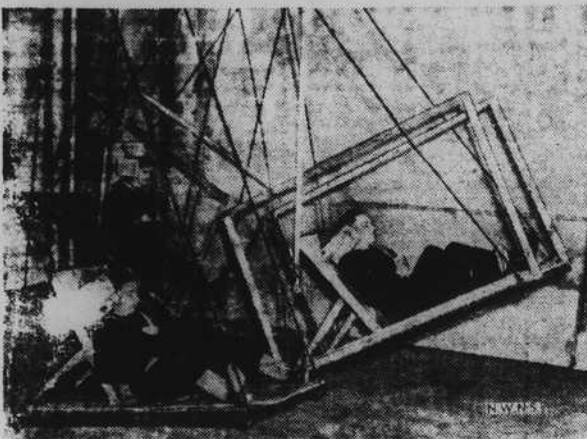

"Amended declarations," Mr. Hannegan explained, "are made on the same type of form as original declarations, and are distinguished only by writing the word 'amended' at the top of the front page. Therefore, anyone who must file an amended declaration will find the procedure exactly the same as it was in September.

Persons having forms left over from September may use the forms they already have. Persons needing new copies will be supplied promptly upon application to any Collector of Internal Revenue. The declaration form itself, numbered 1040ES, is the only form to be actually filed with the Collector. In addition, the taxpayer has the choice of two worksheets, from which he can calculate the figures to be copied on the declaration form. One worksheet is a simplified version that may be used by anyone who wishes to approximate the tax on any income up to \$10,000. The other worksheet is longer and may be used by anyone who desires to make a more precise estimate of his tax. Persons using this "long form" should deduct all of the "post-war credit" for Victory tax, in accordance with a recent act of Congress, putting the credit on a current rather than a post-war basis. On the simplified form, no change is necessary because the form already assumed the taxpayer eligible for current credit.

Mr. Hannegan also promised that the office of the Collector of Internal Revenue throughout the country will again provide taxpayers with as much assistance as possible in filing the declarations.

With respect to this matter address all communications to Collector of Internal Revenue, Greensboro, N. C.

## Rocked in the Cradle of Sea Sickness

A little pink capsule enables United Nations troops to land on hostile shores fresh and full of fight, with none of the fighters suffering the miseries of sea sickness. These heroes being rocked in gadgets which imitate the tossing of waves are partly responsible for the development of this capsule. They are men of the Royal Canadian navy who courted mal de mer to aid science and their shipmates.

## Marine Farmers in Action in N. Ireland

Two United States Leathernecks are pictured at work in N. Ireland as they help harvest the oat crop. Pfc. Herbert Pickers colinton, S. C., drives the tractor while Pfc. Lawrence E. Pozz' Philadelphia, Ohio, watches the harvesting machine.

## Six-Inch Sermon

† REV. ROBERT H. HARPER †

Truthfulness at All Times.

Lesson for November 28: Exodus 20:16, 23:1, 7; Matthew 5:33-37; John 8:42-45.

'Golden Text: Ephesians 4:25.

Last week's lesson is really continued in today's lesson, for honesty in all things includes honesty in speech and truthfulness at all times.

The command against false witness refers to perjury in court. By such witness an innocent man can be robbed of liberty or life. Irreparable injury can also be done by taking up and repeating a "false report" of a man. Suffering caused by gossipers and slanderers, men and women of "itching ears" and cruel tongues, cannot be measured. The only rule to follow, not to be party to the ruin of a reputation before the court of public opinion, is to "keep thee far from the false matter."

In the Master's time men were accustomed to call upon almost everything to witness their avowed truthfulness, so Jesus bade them affirm with a simple yea or nay. This could hardly be construed as against taking the required oath in court. In ordinary contacts a truthful man does not need to call upon heaven to witness. If a man would deceive, he would not balk at taking an oath.

Jesus teaches us of the origin of falsehood. It is born with the devil, the instigator of all sin, and if for no other reason, men should hesitate to lie and deceive because they yield to and ally themselves with the "father of all lies." And greater than the injury they do unto others will be the harm done their own characters.

**MILK**  
Carotene, which gives the yellow color to butter, accounts for the creamy appearance of milk, and naturally it contains more carotene when the cows are on pasture, say dairy specialists.

Sudden changes in temperature will cause metal to warp, so do not pour cold water into a hot pan, or set an empty pan on a hot stove, say home economists with the Extension Service.

E. S. Elliott, Pastor

Sunday, November 26, 1943.  
Sunday School—10:00 A. M.

Last Sunday we had our largest attendance in Sunday School, 309. Why not have 350 this coming Sunday? The greatest steps that fathers and mothers can make on Sunday are steps toward the Lord's house—"If we wish our children to be christians, we must really take the trouble to be christians ourselves."

Preaching service—11:00 A. M.  
Cottage Prayer Meetings—7:30 P. M.  
Baptist Training Union—7:00 P. M.

Preaching Service—8:00 P. M.

Special Week of Prayer for all W. M. U. Organizations

November 29—December 3rd

Prayer Service—8:00 P. M.

Wednesday

Choir practice—7:00 P. M.

Friday

"Lovelite Day"—Sunday, December 5th.

"Give thanks unto the Lord: Call upon his name; make known his deeds among the people." Ps. 105:1.

**St. Mark's Lutheran Church**

REV. L. S. MILLER, Pastor

10:00 A. M.—Sunday School.

11:00 A. M.—The Service.

Congregational meeting. Every member canvas.

BETHEL

2:00 P. M.—Sunday School.

3:00 P. M.—The Service and Sermon.

**GAS RATIONING SIMPLIFIED**

All B and C gasoline coupons issued after December 1 will be worth five gallons each, compared with the present value of two gallons in the eastern shortage area and three gallons elsewhere. Coupons issued before December 1st, however, will continue to have present values.

The result of this change, an OPA announcement said will be to save thousands of hours of time in local rationing boards and to give motorists a coupon whose value is the same as the usual 5-gallon purchase.

In the future B and C books will contain fewer coupons but each coupon will be good for more gas. No increase in the amount of gasoline allowed is involved, however.
