# NO CASES OF POLIO HERE

The Eagle contacted the offices of Loctors Forrest M. Houser and J. W. Payne yesterday and both reported that no cases of Infantile Paralysis in Cherryville had been brought to their attention. Cherryville is very fortunate in not having a case of the dreaded disease which has reached an enidemic stage in this section of the State, with a number of cases being reported from Gaston and Catawba counties.

All physicians urges upon the

All physicians urges upon the people the necessity for a sane and sensible attitude and to keep cool heads at all times.

The following simple rules promulgated by the National foundation are the last word on the disease and should be observed, according to health authorities:

(a) Avoid overtiring and extreme fatigue from strenuous exercise.

(b) Avoid sudden chilling such as would come from a plunge in-to extremely cold water on a very

to extremely con-hot day.

(c. Pay careful attention to per-sonal cleanliness, such as thorough hand washing before eating. Hy-genic habits should always be ob-served.

(d) If possible avoid tonsil and

(d) If possible avoid tonsil and adenoid operations during epidem-ics. Careful study has shown that such operations, when done dur-ing an epidemic tend to increase the danger of contracting infan-tile paralysis in its most serious

form.

(e) Use the purest milk and water you can. Keep flies away from food. While the exact means of spread of the disease is not known, contaminated water and milk are always dangerous and flies have repeatedly been shown to carry the infantile paralysis to carry the minus virus.

(f) Do not swim in polluted

water.

(g) Maintain community sanitation at a high level at all times.

(h) Avoid all unnecessary contact with persons with any illness
