## Democratic Rally

Much earlier when he sees that that will be the inevitable end.

The matter of the plan of permanent peace as suggested by Mr. Hoey was made clear. In fact he is convinced that if the same plan or principal advocated by former President Woodrow Wilson had been adopted by the nations of the world following the other or World War I then we would not have had the present or Global War. Mr. Hoey's idea is to form a World Council or Court of the heads of the leading nations of the world with certain representatives by the smaller nations to handle all matters and disputes between nations. To the end that if a dispute should arise between any two nations then that dispute must be referred to this World Council which would hear the matter and render a decision that would be the final settlement of the dispute. That if the two said nations should not agree to abide by the decision then the one in fault would have all the nations of the world against it and that under those circumstances no large or small nation could meet the forces of the whole world. His argument is that if that plan had been in effect Germany could not have had Japan, Italy or any other nation as her ally and the present war could never have gotten under way. As an illustration of his point of view he referred to the fact that in these United States there has never been and cannot ever be a war between any two states. All matters in dispute between any two States must be referred to the United States Supreme Court and those states must abide the decision of that Court. Should either of these disputing States fail or refuse to abide the decision of the Supreme Court then such a state would have all the other 47 states against it and would be overpowered almost instantly. The plans suggested and outlined by Mr. Hoey appear to be unanswerable and the leading minds of the world have been working on such plans for sometime and it is firmly believed that such a plan will be adopted by the nations of the world following the present war.

The contribution of Mr. Hoey to the meeting was greatly appreciated by the vast audience and will be long remembered. The town and the people feel honored to have had him present when as a matter of fact he cannot meet one-fourth of the demands he has had for speaking in the present campaign.

The success of the meeting was due to the foresight and aggressive work on the part of Mr. Blaine Beam. He conceived the idea of a combination Democratic Rally and Musical Entertainment and with a little help from friends who believe in him and his ability to get a crowd together he put it across in a most successful manner.

The attendance at both the morning and evening services last Sunday was gratifying, the increase at the morning hour being due in some measure to the pledges of a number of people made in connection with Communion Sunday Oct. 1 to attend at least five consecutive Sundays after World Communion Day, and the increase in the evening being due to the participation of the newly organized Boys and Girls (Vested) Choir, who are in charge of Mrs. Hugh Sneed.

This Sunday evening the service will be given over entirely to the Young People's Groups. Boys and Girls Choir at 7 o'clock for practice. At 7:15 a program rendered by the Fellowship Group, that is the older Young People.
