Miss Morrison Becomes The Bride Of Luke W. Hoyle

A wedding which will be of much interest to their friends was solemnized Saturday evening at 8 o'clock at Mount Zion Baptist Church when Miss Margaret Ruth Morrison became the bride of Luke W. Hoyle GM 2-C. Rev. W. Luther Hawkins, a former pastor officiated. The wedding music was presented by Mrs. Julia Hall, organist.

The vows were exchanged before a background of fern. In the center stood an arch twined with ivy and set with lighted cathedral tapers. On each side were tall floor baskets massed with white gladioli and small baskets of white carnations.

The bride's wedding costume was a becoming dress of blue velvet with matching accessories. She wore a corsage of white carnations.

The bride is a daughter of Mr. and Mrs. L. E. Morrison and is a graduate of the Cherryville High Schools. Since her graduation she has made her home in Valdese where she is employed by the Waldensian Full Fashioned Hosiery Mill.

The groom is a son of Mr. and Mrs. C. J. Hoyle and has recently returned from the South Pacific for a thirty-day furlough with his parents.

Immediately after the ceremony the bride and groom left for a short wedding trip.

S/Sgt. Charles Stroup Call Mother Overseas

S-Sgt. Charles Stroup who is overseas somewhere in the Pacific called his mother, Mrs. C. C. Stroup, over long distance Wednesday night at midnight. Mrs. Stroup was thrilled over the voice of her son, she stated it was as plain as if he had been in a nearby town.

Mrs. Stroup had a call from the operator in San Francisco Tuesday making an appointment with her for the call which would be put through at midnight Wednesday. However, we understand these calls are made by reservation and also are limited. The operator also advised her not to ask any questions and of course Sgt. Stroup could not tell his mother where he was.

number card is not intended to serve as identification for check-cashing purposes, and should not be accepted as such.

"A social security card is issued to any person who applies for it. It is issued for one purpose and only one. That is to identify a social security account on which the wage record of the possessor may be posted as credit toward old-age and survivors insurance benefits. The account number is used with the person's name to identify because many people have the same number but no two have the same number. The Social Security Board, in paying benefits, requires that the beneficiary identify himself fully."

Prisoners of War Return Profit To Gov.

ATLANTA, Ga. Feb 21.—Prisoners of war at camps in the southeastern states working on private and public contracts or at military establishments have returned a "profit" of more than \$1,000,000 to the government in the four-month period ending December 31, 1944, according to figures here today by Major General Frederick E. Uhl, Commanding General, Fourth Service Command. General Uhl, under whose direction the prisoners of war camps are operated, pointed out that the profit represents the difference between the 80 cents per day each working prisoner receives in cash coupons and the per day cash wages that would have been paid civilian workers for similar tasks.

The War Department follows the policy of requiring private contractors, in areas of manpower shortages, to pay the Treasury department the same wage rate for work completed by prisoners that would have been paid free civilian labor for the same amount of work and prisoners are used only where civilian labor is unavailable, General Uhl explained.

The report shows that prisoners from all camps in the Fourth Service Command who were employed on paid labor during the four-month period, worked 3,319,999 man days and returned a profit of \$1,067,050.05. Laboring on army installations where they work in shops, laundries or in maintenance of the grounds, they worked 2,337,400 man days and saved \$6,000,081.16 in wages that would have been paid civilian laborers for the same work accomplished. The value of services actually is greater because the lack of civilian labor would have been more serious in its effect on the military installations.

Under private contract when they worked on farms, gathering crops, pulpwood work or other activities the prisoners worked 1,254,377 man days with a profit to the government of \$1,124,919.19 engaged in public contract work—labor for state, municipal or governmental agencies other than the Army—the prisoners worked 47,112 man days, showing a profit to the government of \$41,329.57.

Among sideights on the prisoners' activities in 1944 the report shows they doubled results in harvesting peanuts over their work in 1943. They gathered peanuts in 9 of the 7 southeastern states, Alabama, Florida, Georgia, North Carolina, and South Carolina and, because of the manpower shortage in many cases, saved the crop in gathering peanuts in the five states in 1943, they worked 164,338 man days, harvested 59,974 acres of peanuts valued at \$3,542,517. While there was less than 10 per cent increase in the number of prisoners working in 1944 over 1943, the results obtained were more than doubled. For the 1944 season they worked 178,378 man days, harvested 197,254 acres of peanuts valued at \$6,864,258, or a crop value of \$3,321,680 more than the results of their previous year.

The prisoners worked in the pulpwood industry in Alabama, Florida, Georgia, Mississippi, N. C.

Town Calls Election For Tuesday, May 1

W. G. Houser Appointed Registrar; Pete Blackwelder And N. B. Boyles Selected Judges

The Town of Cherryville will hold an election on Tuesday, May 1, for the purpose of electing a Mayor, City Clerk, Recorder, and four Commissioners, one from each ward. The primary election has been called to be held on Tuesday, April 24, 1945.

Mr. W. G. Houser was appointed Registrar with N. B. Boyles and Pete Blackwelder as judges.

Carolina, S. Carolina, Tennessee, A report covering their work from June 16, 1944 to December 31, 1944 shows that they worked 243,376 man days during which time they put up 229,000 cords of centered cypress in the Mississippi pulpwood.

The prisoners' cotton picking quota while they worked 229,118 man days and picked 11,931,483 pounds of cotton or more than 26,000 bales.

In Florida the prisoners worked chiefly in canneries processing snap beans and canning citrus juices. Eighty per cent of the canned fruit juices were purchased by the Quartermaster Corps for the Armed forces. A majority of the beans and citrus fruits were picked by Jamaican labor.

Prisoners accomplished considerable farm work in North Carolina harvesting potatoes, apples, snap beans, ensilage work and in general farm activities. A report from John S. Holliman, county agent of Henderson County, shows that the prisoners harvested a large per centage of the beans, working 5,984 man days and picking 27,795 bushel hampers of beans there. They were employed by 155 farmers.

Willie and Lester T. Kendrick Route 3, Gastonia, in Robinson community, recently shipped several carloads of veneer blocks, cut from mature poplar trees during the winter days when other farming activities were comparatively at a standstill. This operation provided an additional income to the farm as well as providing profitable employment for the labor and teams on the farm and an excellent use for high grade, marketable trees.

W. M. Carpenter, R-1, Bessemer City, in the Mt. Beulah section

Alfalfa has an excellent stand of alfalfa seeded last fall according to feeding recommendations. He also has material on hand now to top dress an old stand just as soon as he can get over it. He plans to topdress 400 lbs. of acid, 50 lbs. potash and 25 pounds borax per acre this spring. Alfalfa is a heavy feeder of potash and of acid phosphate and requires annual application to be successful and profitable. Mr. Carpenter is well pleased with his hay and says it's the best there is.

A number of farmers are taking advantage of seeds being made available by the State Department of Conservation and development, Game Division, in establishing field borders of combination of sericea and ocolor lepedeza seed. These borders are sown next to the woods for the control of erosion and for the use of food and cover strips for the increase of game bird population on the farm. These border stripes adjoining the woods usually produce nothing for an acre of 16-25 feet, due to the competition of adjoining timber.

The following farmers are establishing borders for this purpose and will receive seed through the Soil Conservation District program —Bill Harris, Dallas; M. H. Rhyne, McAdenville; Dick Mason Gastonia; W. L. Stroupe, R-1, Bessemer City; W. K. Friday, R-1 Dallas; and F. F. Allen, R-1, Bessemer City.

Tom Royster, R-1, Bessemer City, near Concord Church, is topdressing his pasture this spring with 400-500 lbs of basic slag per acre. Tom has a splendid pasture that was seeded about a year ago and has a complete sod established.
