MRS. CHARLES P. BEAM

Mrs. J. M. Crocker Party Hostess Feting Mother

Mrs. J. M. Crocker was hostess at her home on N. Pink Street, Thursday at a party, from 4 to 6 o'clock in honor of her mother, Mrs. C. P. Beam who celebrated her 79th birthday.

Assisting in hospitalities were Mesdames J. M. Beam, who greeted the guests, W. D. Brown at the Register, John Wyant, who directed the lively games, Julia R. Hall at the piano, Albert Hallman and little Miss Jerry Spangler.

The home was attractively arranged with bowls of Queen Anne's lace interspersed with pastel cut flowers. The dining table was covered with a lace cloth and centered with a birthday cake.

A delightful social hour intermingled with contests and games were enjoyed by all present.

A delicious fruit salad course and punch was served by the hostess assisted by Mesdames Beam, Brown, Hallman, and Jerry Spangler.

Following the refreshments the honoree was presented a miscellaneous shower of both lovely and useful gifts. Mrs. W. J. Stran presented the honoree with a beautiful shoulder corsage of white carnations. All joined in singing "Happy Birthday."

Guests invited: Mesdames Frank Wright, C. C. McNeely, John Wyant, Hulda Mauney, W. D. Brown, Ben Black, J. M. Beam, Julia Carpenter, N. B. Kendrick, Calvin Carpenter, Paul H. Moore, J. J. Beach, Lizzie Gates, Melvin Leobhardt, Henry M. Smith, Salina Kirkpatrick, B. B. Brackett, A. H. Huss, W. H. Houser, D. F. McClure, J. P. Dellinger, Julia R. Hall, W. A. Farris, Robert Lavis, Will Stroupe, L. P. Barriett, Janice Lineberger, Pearl Beam, Lester Dellinger, Mace Boyles, W. J. Allman, P. C. Beam, L. A. T. McGinnis, John Houser, G. Lee Beam, Eli Beam, D. A. Rudisill, J. D. Thornburg, Elijah Whitesides, James L. Beam, J. W. Fourshee and Palmer Dellinger.

and often contribute to the formation of pimples. A good shampoo really begins the night before, or at least several hours prior to wetting the hair. After a thorough brushing to remove dust rub a little petroleum jelly or warm vegetable oil into the scalp to soften the cuticle and loosen the dirt. Then, just before the shampoo, brush again so there'll be no snarls to pull and tangle.

Whatever you use as a cleansing agent must be rinsed out entirely, for you don't want the equivalent of a ring around the bathtub left in the hair. That time honored test of running the hand over the wet hair to see if it squeaks, and if it does assuming that the rinsing is complete, applies only to the hair itself. The scalp can still be insufficiently rinsed, with resulting darkness. Running the fingers of one hand through the hair and holding it away from the head while you bring the spray close to the scalp is the best way to see that the head itself is freed of soap.

MALARIA

CHECKED IN 7 DAYS WITH LIQUID for MALARIA SYMPTOMS

666 Take only as directed

For the first year of a baby's life it seems natural to treat the scalp as a part of the face, using the same mild soap and washing it daily. Use baby oil for scalp lubrication and gentle brushing with a soft brush for making hair look its prettiest. Brush up to encourage curling and as soon as the locks are long enough brush them over your finger several times a day. Many a weak curl has been saved from discouragement by just such coaxing.

After the hair growth becomes luxuriant and babyhood gives way to that little girl look, shampoos become weekly dates, though some specialists still hold out for less frequent washings. The main requirement is to keep the scalp free of dirt and body impurities which find their way to the face.

refer. However, by mixing it in the proper proportions with plain gelatine, you can make a delicious fruit-flavored dessert.

Another suggestion for a product like (Par-Aid) is to mix it in slightly more than a half gallon the proportion of one container to of water, and then pour the mixture into your refrigerator ice-cube tray. The results—fruit-flavored ice cubes, will make a big hit with the kiddies. Don't ask me how to serve them. The children will tell you. You'll probably find they'll either eat ice cubes, or crack them to make those popular ice balls children love.

SUCCESSFUL PARENTHOOD

CHILD'S HAIR CARE IMPORTANT

We've made remarkable progress in treatment of children's hair. We were reminded of this when we attended a high school commencement recently, and every one of the 250 girl graduates had lovely hair. Yet think back to your own school days. Two or three girls in a room of 20 or more would have wondrous locks which were the envy of all. Most of the others had neat and clean, but not exactly pretty hair. Then there were always a few with mussy, unkempt heads. Today you rarely see even a small child with unattractive hair. This is because mothers seek out the best and the safest methods of caring for their children's hair from the very beginning. Nor should we fail to mention the nutrition conscious mothers who provide a diet sufficiently rich in vitamins and minerals to keep hair nourished from the blood stream, its only source of food.

For the first year of a baby's life it seems natural to treat the scalp as a part of the face, using the same mild soap and washing it daily. JENKINS-QUEEN VOWS SPOKEN WEDNESDAY In a ceremony of beauty and simplicity, Miss Jacqueline Jenkins became the bride of Pfc. Floyd Queen at 4 o'clock Wednesday afternoon at St. Matthew's Lutheran church. White gladioli in floor baskets arranged against a background of ferns and white cathedral tapers in the altar candelabra, formed the setting for the impressive service.

Rev. W. H. Stender pastor of the church, officiated using the ring ceremony.

Ushers were Moyle Lee Whitesides, June Mitchem and Gene Meelin.

Candlers were lighted by Misses Charlotte Jenkins and Jo Anne Blalock, who wore white street length dresses.

Music was furnished by Mrs. W. A. Ridenhour, organist, who played Venetian Love Song, by Nevin, and Schubert's Serenade. The Wedding March from Lohengrin was played for the processional and Mendelssohn's March for the recessional. During the exchange of vows the organist played O Perfect Love.

There were no attendants and the couple approached the altar together.

The bride was lovely in her wedding gown of net over satin foundation. The bodice and sleeves were of lace, the sleeves made with tight fitting cuffs from the elbow extending to a point over the hand. Her veil of bridal illusion was worn fingertip length and caught with a comet of orange blossoms. She carried a white prayer book, on which were posed gold-throated white orchids.

The bride is a daughter of Mr. and Mrs. Joseph Dewitt Jenkins who reside near Cherryville. She is a graduate of Tryon high school and a young woman of charm and loveliness of character.

Pfc. Queen is a son of Mrs. Marie Queen Ramsey and the late Mr. Queen. He is a graduate of Kings Mountain high school. After induction in the United States Army and completion of his training in the States he was sent to the European area where he served until he was taken prisoner by the Germans. He arrived from overseas recently.

The young couple left soon after the wedding for a trip to the mountains of Western North Carolina.

The bride donned for traveling a modish suit of aqua linen with which she wore a white hat and other accessories in white. At her shoulder she wore her white orchids.

MOVIE TONE NEWS

This Week in WASHINGTON

WASHINGTON, D. C. (NWNS)

A reorganization of the whole rationing setup, so far as food is concerned is expected shortly in view of President Truman's recent statement pleading that the meat situation would be improved and there would be a single control over food. Many members of congress have argued that the food situation was largely a matter of too many cooks spoiling the broth.

If the single control idea goes through the man who will probably have the control will be Chinton Anderson, the new Secretary of Agriculture. This was suggested in a proposal made by former President Herbert, which will help to get Republican backing for the plan. And if President Truman and Mr. Hoover agree on approximately the same plan it would not face much difficulty in getting congressional approval.

If food control is put entirely in the hands of the department of Agriculture, the work of the Office of Price Administration would be considerably cut down. This would be all right with many members of congress who during the hearings on the bill to extend the work of the OPA favored limiting the work of the OPA to the job of handling the mechanical details of rationing.

Lawyers in congress are enjoying informal discussions of the suggestion which President Truman threw into their laps that the rules be changed regarding the succession of officers of the government to the Presidency. At the present time Secretary of State Stettinius would become President if anything happened to Mr. Truman. But the President pointed out that members of the cabinet are appointed by him and not elected by the people and that it would be more democratic to have over. He suggested that the order of succession be changed so that,

if he should die, the speaker of the house or the president of the senate be next in line.

The President's plan raised immediate objections such as these: the speaker of the house might be a Republican when the people had voted for the Democratic party; the speaker was duly elected by the people of one state and might not be the choice of the citizens of the other 47 states no change could be made by congress but would have to be made by a constitutional amendment.

Although the subject is one which, it is agreed, deserves immediate consideration, since President almost four years with no vice-president to succeed him, suggestions are so numerous that it may be some time before any action is taken. One suggestion which has many adherents is: if a President who has no vice-president dies, the electoral college shall be reconvened to elect a new President.

A sweeping revision of the Wagner Labor Relations act, aimed at avoiding a major postwar fight between labor and management, is now being considered by the senate. The legislation calls for substituting compulsory arbitration of disputes for strikes and virtually makes strikes illegal. It also bans unfair labor practices by labor itself instead of just by management, eliminates the closed shop unless it is approved by 75 per cent of workers and restricts government control over labor to businesses operating directly in interstate commerce.

Although the measure already has been attacked by labor leaders as being one that "turns back the clock," it has met with considerable popularity in Congress. There is no chance that it will be reshaped through, but it will tend to bring labor legislation to the forefront for many months to come.
