Soil samples were taken at Jonas M. Robinson, R-3, Gastonia, recently to determine the fertilizer requirements and analysis for every field and for the crops he grows in rotation of cotton, corn, wheat, oats and barley. This is a good practice, so as to enable these crops to get the elements in the right quantities needed to produce maximum yields. Soil samples are taken and analyzed without charge to the farmer.

which might assist in establishing identification. Many hours of hard work were spent in reconstruction, maintenance and beautification of the cemeteries which now give a scene of quiet and peaceful beauty in contrast to that disordered appearance of a year ago. In carrying out these improvements, it is evident that this quartermaster Graves Registration Company, little outside service assistance, has fulfilled its obligation to mothers, fathers and wives of those fallen heroes.

Pfc. Alexander entered military service on February 6, 1942, and has been overseas for 1 1/2 months in North Africa and Italy. He was formerly employed with Carpenter Bros. Furniture Co., Cherryville. He wears the Good Conduct Ribbon and the Mediterranean Theater Ribbon with one service star.

Mrs. W. A. Hastings Pres. Teachers Ass'n.

NEW YORK, August 29.—Mrs. William A. Hastings, President of the National Congress of Parents and Teachers, today appealed to Americans to help save the desperately hungry children of Liberated Europe. As a means to this end, she asked for utmost cooperation in the Community Canning Program for War Relief on behalf of UNRRA.

Calling upon parent-teacher leaders and members throughout America, Mrs. Hastings said: "The saddest sight in all the world is a hungry child, suffering the ills of malnutrition and semi-starvation. No efforts are spared when we find such a child in our own community. Today, hungry children are a world problem—all the endless thousands of them who may not survive the coming winter unless we help them. If we bear in mind that these are the children who will be adults when our children are grown, adults with whom our children will be cooperating to build a better world, we realize that it is a matter of self-interest as well as of altruism to give them all possible aid."

"What can we do to help? The Community Canning Program for War Relief provides the answer. Those of us whose gardens and orchards have yielded more vegetables and fruits than we ourselves can use are urged to donate them to our community canning programs. Every community in this country is being asked to increase its canning output ten per cent

above local needs, so that this surplus may be contributed to the children of other lands.

"May I call upon all parent-teacher members to co-operate with local committees organized for this purpose? The National Congress has urged the new United Nations Organization to give special heed to the needs of children. Here is our opportunity to show our good faith by making a personal contribution to the cause of world peace and international good will."

Dan A. West, Executive Director of the Community Canning Program for War Relief, explained that the removal of rationing controls in America from many varieties of canned goods does not reduce the need for the canning program for war relief. Mr. West, who is also director of the Division for Contributed Supplies of UNRRA, said: "Lifting of controls on canned foods in this country does not make any more canned food available for shipment overseas to relieve those who are in dire need."

How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

- 1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.
2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes. Try Cardui. If it helps, you'll be glad you did.
