

Private Builders Urged To Make Applications

New housing programs providing for the constitution of private housing in eight North Carolina counties...

Of the 75 units programmed for Wilson, 25 are for occupancy by Negroes. Ten of these units may be produced for sale or owner occupancy...

Of the units programmed for Fuqua Springs, 5 are for occupancy by Negroes...

Fuqua Springs, 5 are for occupancy by Negroes. These units may be produced for rent, sale or owner-occupancy...

Of the 75 units programmed for Gastonia, 18 are for occupancy by Negroes. Ten of these units may be produced for sale or owner-occupancy...

Of the 15 units programmed for Cherryville, 5 are to be held for rent under a rental ceiling of \$30 per month...

Of the 30 units programmed for Rockingham, 10 are for occupancy by Negroes. These units may be produced for rent, sale or owner-occupancy...

Of the 30 units programmed for Rockingham, 10 are for occupancy by Negroes...

While 5 of these units must be held for rent during the emergency, 15 may be produced for sale or owner-occupancy. Of the 35 units programmed for Lenoir, 5 are for occupancy by Negroes...

Of the 25 units programmed for Dunn, 5 are for occupancy by Negroes. These units may be produced for sale or owner-occupancy or rent under a rental ceiling of \$30 per month...

Of the 15 units programmed for Stanley, 5 are for occupancy by Negroes. These units may be produced for rent, sale or owner-occupancy under a sales ceiling of \$3,500...

Creighton pointed out, however, that at least 30 percent of the priorities granted during any quarterly period are to be issued to individuals for homes for their own use. "This new housing was authorized," Creighton said, "after a study of the housing shortage in these areas and the hardships now resulting from lack of adequate accommodations..."

This new housing is authorized under H-2 Programs and so occupancy restrictions will be imposed; however, builders will be asked to give preference to returning veterans and families of service personnel. Creighton pointed out that in addition to providing much needed housing for these areas, these programs are also expected to facilitate the transaction of the home building industry from a period of inactivity to one when all government controls on construction can be removed...

Private builders, investors and other persons interested in the production of new dwelling units under these new programs should make application for priority assistance and authority to begin construction to the Federal Housing Administration, Guilford Building, Greensboro, North Carolina. Mr. Jack H. Brown is the State Director of the Federal Housing

REGULAR ARMY OPENS RANKS

One of the oldest outfits in the India-Burma theatre, the 3074th has provided millions of pounds of ice for the troops, and has handled thousands of tons of American fresh meat consisting of ham, pork and choice steak.

The outfit is now operating ice plants and cold storage ware houses in a wide area, including such cities as Calcutta, Kharagpur, Parbatipur, Gaya, and Kara-chi. The company is a member of ration Battalion, which has charge of theatre-wide ice manufacturing and cold storage for U. S. Troops.

MORE ABOUT MacArthur Tough

George Stahmer, German ambassador held mainly responsible for bringing Japan into the Rome-Berlin axis and his Gestapo henchman, Col. Josef Alfred Meisinger, the latter has been in custody for several days.

As the occupation rolled ahead smoothly, the Japanese announced that more than 1,000,000 officers and men of the Imperial Navy had been discharged or disarmed, two-thirds of the total strength.

It was estimated that \$3,000 Allied prisoners in Japan had been freed or were in the process of being liberated.

Some of those who had liberated themselves and virtually taken over Japan's second city of Osaka west of Tokyo. The giant industrial city, one-half of which is a wilderness of bombed ruins, is not scheduled to be occupied until early in October.

The schedule of occupation also was stepped up, with American troops expected to land on the northernmost island of Hokkaido before the end of the month. They had not been due until October.

Advance forces were in the steel city of Sendai, some 90 miles north of Tokyo, and others were preparing to land September 23 at the northern Honshu port of Aomori.

COTTON-TEXTILE INDUSTRY TO DEVELOP IN CALIFORNIA

NEW YORK, Sept. 12.—Development of a California cotton-textile industry is seen by TEXTILE WORLD, McGraw-Hill publication, in an engineering report which recommends the building of a \$2,500,000 weaving and spinning plant somewhere in the San Joaquin Valley.

"Operation of a cotton spinning and weaving plant in California now seems to be economically sound," the article points out. "Although the proposed mill would use annually only 8,000 bales—5 percent of the California cotton crop—its successful

operation would tend to increase demand throughout the country for California cotton and would attract additional mills if the West Coast textile trend of the last four years continues. This trend is based on the recent rapid development of a garment industry on the West Coast and on increased cost of manufacturing textiles in the East, principally due to higher wages.

From where I sit... by Joe Marsh

Herb's Got a Great Little Wife

Everybody's talking about what a grand job Herb Helm is doing at the war plant. Not just one shift, but two a day—to help build the war materials our men need.

Good for Herb! But I'd like to say a word for Mary, Herb's wife. She runs the house, cooks the meals, takes care of the children, and works on salvage drives and bundles for the Red Cross. Believe me, that's tiring work for any woman!

Yet when Herb comes home—too tired to talk or watch where

he drops his ashes, maybe—she makes allowances, keeps smiling, brings him a restful glass of beer, and makes enough conversation for them both. Next morning, Herb goes to work refreshed and cheerful.

From where I sit, women like Mary Helm are doing a great war job themselves... being tolerant and kind to husbands who are working under a heavy wartime strain. Bully for them!

Joe Marsh

FARM ITEMS

The boll weevil situation as of August 1 was the most critical of any recent year, says the Bureau of Entomology and Plant Quarantine of the USDA.

Secretary of Agriculture Clinton P. Anderson recently announced the indefinite suspension of the Government set-aside on beef, veal and hams.

A new modified cotton fabric that will not mildew or rot has been developed by scientists of the USDA.

Civilians will receive more fluid milk, light cream, butter-milk, and chocolate dairy drinks, it has been announced by Secretary of Agriculture Clinton P. Anderson.

Profits of sheep raisers and lamb feeders have been declining because of increased operating expenses.

The Commodity Credit Corporation will make payments to any person who sells sheep and lambs to legally authorized slaughterers for slaughter, according to the USDA.

North Carolina cotton farmers probably will not have more than 40 per cent as much of their crop classes this year as they did in 1944, according to State College Extension Service specialists.

Peanut growers in Eastern Carolina should make at least one application of copper-sulphur dust on their peanuts for the control of leaf spot diseases.

A second cooperation shipment of lambs brought 100 Allegheny County farmers \$11,019.44. London, England, a representative of the Associated Country Women of the World, will speak the annual meeting of the State Home Demonstration Council at State College in September.

Only about 4.5 per cent of all upon mechanical power alone. Swine Brucellosis is on the increase in this country and is causing serious damage to farmers.

Interest continues to increase in curb market sales in North Carolina, according to State College Extension Service specialists.

Advertisement for Salsbury's Pigeon Pox Vaccine featuring a woman's portrait and text: 'I vaccinate my laying flock against pox without throwing them off lay. When pox threatens, I vaccinate all healthy birds with Dr. Salsbury's PIGEON POX VACCINE. It's milder than the regular fowl pox vaccine I use for pullets and yet gives about three months' immunity. Hard to do? Why there's nothing to it!'
