SOIL CONSERVATION NEWS

Marvin Quinn, Route 1 Clover, located in the Crowders Creek community, did a fine job of pulling the stumps from a five-acre field which had been cleared several years ago. Mr. Quinn did the job of stump pulling with his tractor during his spare time, also hauling the rock off the field, when other farm jobs were not pushing. The field is now sown in wheat and will be in good shape to use any kind of farm machinery without damage to his equipment. It is important to conserve equipment as well as the soil resources of the farm.
