ELEMENTARY 1 SCHOOL NEWS

MRS. SELLEY'S 6th Grade
Our study of the Low Countries has been so interesting that we are almost sorry to leave them.
Each of us made a book about these countries in which we put stories, pictures, songs, facts and news clippings. We are proud of our colorful books!
Julia Papot brought us some real Dutch gingerbread that was actually made in Holland. We like it, although it is much more spicy than our gingerbread.
Last Friday the fourth grades came to our room to see our work. On our exhibit table we had dolls dressed in native costumes, a pipe from Marken, Holland, a vase made in Delft, gingerbread from Holland and some butter and cheese. Several members of our class gave interesting reports on the life custom and work of the people of the Low Countries.
We like to study geography this way and wish we had time to study all the countries by this method.

MISS WHITE'S 6th Grade
Last Friday Betty McNeely had her tonsils removed. We are very glad that Betty is recovering from the operation and we hope that she will soon be in school again.
New captains were elected last week for our teams in spelling. They are: Dortha Dease and Jackie Guffie, Linda Quickee and Harold Goins were the winning members of the team.

Our Unwelcomed Visitors
Last week we had unwelcomed visitors, the termites. They entered our room through a hole under the bookcase. We sent for chemicals to kill the insects.
Here are some of the things we have learned about termites since they visited us. They are insects that live in colonies. The members of the colony are divided into four casts or classes. The king and queen make up the first cast. The soldiers guard the colony. The workers gather the food. The soldiers and workers are blind. In case the king and queen die, the nymphs take over the job of reproducing. Their chief food is wood. Wood also serves for their homes. The termites that visited us were the adult with wings. They lose their wings in a day.

MISS WORKMAN'S 6th Grade
We enjoyed studying about black books and the first printing presses, in our history to day. At art period we cut block prints for painting.
Tomorrow we start our garden project. Each of us is planting a cup of seeds. It will be interesting to watch our chart and see who has the first plant.
We were glad to have a number of our parents come to our chapel program. All of us certainly enjoyed Mrs. Crocker's program last week. We thought it was very good.
The grade is happy to have some of our members who have been sick, back in school. Roger Warren, and Jerry Hastings were the last to return.
Mary Leslie Seals is out today. We hope she will soon be back. Ronnie Cook, Bobby Sneed, Roy Drum, Glenda Sipe, Michael Beam, Ronnie Dalton, and Danny Blackwelder have not missed a day during the seven months.

MRS. CARTER'S 5th Grade
In our study of the lives of the Presidents of the United States we have learned some interesting things about them. We like to ask each other the following questions about them: Did you know that:
1. George Washington took the oath as president in New York City, the first Capitol of the new government?
2. John Adams was the first vice president of the United States and later became second president?
3. Thomas Jefferson and John Adams were the only two presidents who signed the Declaration of Independence, and both of them died on the same day, July 4, 1826, the 50th anniversary of the independence of the United States?
4. James Madison is known as the "Father of the Constitution"?
5. James Monroe was the author of the Monroe Doctrine?
6. John Quincy Adams was the only son of a president to become president of the United States?
7. Andrew Jackson was one of the three presidents, who was born in North Carolina. His wife never had the privilege of living in the White House because she died just before she was supposed to move there.
8. Martin Van Buren established an independent treasury system, which with changes is still in use?
9. William Henry Harrison died with pneumonia one month after he was inaugurated?
10. John Tyler was the first vice-president to become president after the death of the chief executive?
11. James K. Polk was one of the three presidents, who was born in North Carolina?
12. Zachary Taylor was the first man to be elected President of the United States without any political training and was the third to be chosen because of his military exploits?
13. Millard Fillmore was the second man to become "accidental president," who as vice president succeeded Zachary Taylor, who died in the midst of a debate?
14. Franklin Pierce was the youngest man up to that time who had taken oath of office as President of the United States at the

MRS. RALPH BEAM'S 4th Grade
We have another new pupil in our room. He is Joe Moore and he came to our school from Greenville, S. C. Welcome to our fourth grade. Joe, and may you enjoy being in our room. Now, we have 17 boys and 12 girls. Everyone enjoyed Miss Atkinson's fifth grade program last week. It was very interesting and each child did their part well. We are looking forward in seeing an Easter program to be given by Mrs. Porter's fifth grade.

We are going to give our chapel program on Wednesday, April 14 at 10:15 A. M., and 1:15 P. M., and we invite our parents and friends to come. We have a variety program partly humorous and partly serious, consisting of songs, readings, dialogues, a playlet, piano numbers and an Easter Pageant. Come and see Harry Stroppe as Ebenezer, the Easter Egg; Dougie Camp and Benny Rudisill as "black face" comedians and Margaret Sharpe as a new Easter bonnet!
