HOME

"It takes a lot of living to make a home"—
No matter where you live or where you roam;
Say your prayers, go to church and Sunday School—
You'll rise higher as a rule.
Listen to your Mother good And Father which is understood.
Go to school and work hard great To honor parents in your State.
(One can look at the home And see what has been done for daughter and son;
By the way they take their places.
With occupations and all human races.
So do the best you can at home Your training, speech, language and manners
Go with you where ever you roam.
Yes, it take a lot of living to Make a real good home.
"Honor thy Father and Mother; That thy days may be long Upon the land which the Lord thy God giveth thee."
Exodus 20:22
Pearl Harrelson

runs from the last week in May until as late as mid-July — but that late you have to do some climbing in catch up with disappearing spring. White rhododendron bloom from two weeks to a month behind the purples and the flame azalea, closely related in its habits to the rhododendron, will flower along with them. Along with mountain laurel, no section of these highlands are free to them but there are especially good displays on the Roan, Mitchell, Andrews, Bald, Craggy, Grandfather and Pisgah.

Flame azalea will be at its showiest in the Craggy area from June 8 thru June 15. Visitors to the Craggies and Mt. Mitchell may then see the greatest summer foliage of both rhododendron and flame azalea.

The beautiful but less spectacular white rhododendron begins its show a little later than the purple variety. Peak blooming is expected a week later in the Mt. Mitchell area.

Peaks and quality of blossoms vary from year to year, according to weather and not always to plant variety. Generally speaking, however, the maximum display in the three showiest flowers of Western North Carolina — purple rhododendron, flame azalea and mountain laurel — can be seen between June 10 thru June 20.
