# **Memorial Hospital To Build Addition**

## Three Story Wing To Give 30 Beds

GASTONIA, Oct. 11.—Officials of Gaston Memorial Hospital aniounced plans Tuesday for a 30-bed addition costing approximate-

y \$230,000. Fred Hubbard, administra-tor, said plans are being drawn by Architect Frank Griffin and

by Architect Frank Griffin and construction contracts will be in December.

The expansion should be finished in nine months, he added, giving the hospital a capacity of 180 beds. It now has 150 beds. FEDERAL FUNDS

The 30-bed addition was approved yesterday by the State Medical Care Commission in Raleigh. Dr. John A. Ferrell, executive secretary of the commission, said the \$23,000 will come from three sources: \$115,000 from local funds, and \$3,910 from state funds.

"We already have our mon-

local funds, and \$3,910 from state funds.

"We already have our money," said Hubarrd, "so there shouldn't be any trouble getting it financed."

In addition, the hospital will get help from the Duke Endowment but the exact amount hasn't been determined.

The plans still have to be approved by the U. S. Department of Health, Education and Welfare. When Griffin's final drawings are ready, the blueprints will be submitted to Washington for this approval.

Every room in the hospital is air-conditioned. This was done last summer at a cost of \$50,000.

Gaston Memorial Hospital consists of two sections. The old building—which used to be the City Hospital—has 50 beds. The new section—opened in October 1951—has a hundred beds.

WAR MEMORIAL
