

Emma Goldman Arrested. Chicago, Special .-- Emma Goldman, the anarchist queen, under whose red banner Leon Czolgosz claims he stands, and whose words he claims fired his heart and his brain to attomat the assaughation of the Presilent, was arrested here shortly before upon Tuesday. She disclaimed all but the slightest acquaintance with the President's assaliant; she denise with absolutely that she or anarchists she knew were implicated in any plot to kill the President. She said she be lieved Czolgosz acted entirely on his own responsibility and that he never claimed to have been inspired by her. as he is quoted as affirming. The President, she averred with a yawn, was an insignificant being to her, a mere human atom whose life or death were matters of supreme indifference to her or to any anarchisi. Czolgosz's act was foolish, yet she declared it probably had its inspiration in the misery which the Pole had seen about him. Violence, she said, was not a tenet in the faith of the anarchist and she had not advocated it in Cleveland, where Catlgoar has said he heard her, nor elsewhere.
