For the third time this country has been shocked by assaults upon the life of its chief executive, two of which accomplished their devilish purpose.

The President's condition is all that could be expected and the attending physicians claim for him a speedy and complete recovery which however cannot be attributed altogether to the skill of the surgeons, but to an omnipotent power to whom all intercession has been made since the sad catastrophe was first announced.

Since the would be assassin has come to public notice, it has been difficult to pronounce his name properly. From the official interpreter of Polish and Bohemian languages in the United States immigration office at Baltimore, we are told that "Czolgosz" is pronounced "Chalozos".

The soothing and healing properties of this remedy, its pleasant taste and prompt and permanent cures have made it a great favorite with people everywhere. It is especially prized by mothers of small children for colds, croup and whooping cough, as it always affords quick relief, and as it contains no opium or other harmful drug, it may be given as confidently to a baby as to an adult.

Cured of Chronic Diarrhoea After Thirty Years of Suffering.

"I suffered for thirty years with diarrhoea and thought I was past being cured," says John S. Hallaway, of French Camp, Miss. "I had spent so much time and money and suffered so much that I had given up all hopes of recovery. I was so feeble from the effects of the diarrhoea that I could do no kind of labor, could not even travel, but by accident I was permitted to find a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and after taking several bottles I am entirely cured of that trouble. I am so pleased with the result that I am anxious that it be in reach of all who suffer as I have." For sale by Geo. C. Goodman & Co.

more universally beloved than William McKinley. And as he lies on the bed of pain and peril a whole nation sends up its prayers to God that he may be spared to continue this blessed work, that he may be restored to the country which has long held him so close to its heart and feels such a lofty pride in his virtues.

T. B. Parker, State business agent of the Farmer's Alliance, is alive to the interests of the farmers and urges that they come together on the 21st for the purpose of taking some steps for protection against the trusts for the disposition of the cotton seed this year. A press dispatch dated New Orleans, September 5, has stirred the farmers throughout the South and the planters are preparing to meet the man who "fixed" the price for cotton seed with a counter proposition. The dispatch follows:

New Orleans, Sept. 5.—The leading cotton seed men of Louisiana and Mississippi met here last night to fix the price they would pay the farmers for their cotton seed this season. The meeting was strictly private but it is known that most of the leading members of the National Oil Co., which controls the price of cotton seed and cotton seed products, were present. The price agreed upon was 13 cents free on board river with the usual rebate of one cent per sack equal to a rate of 12 cents free on board rail. This is a much lower figure than the farmers received for their seed last year.

The election held Tuesday for the issue of bonds for improvements was killed for something to come. There are 258 registered voters in the town of Mooresville. Of this number only 148 votes were cast, 96 against and 52 for bonds. The defeat of the issue is anything but a step forward, but we sincerely trust the bad effects will soon be overcome. The movement was killed, and while the obsequy follows the manner of burial should be carried on with as much reverence as any live issue that comes to death all of a sudden. The Enterprise is very well satisfied with the result.

Skin Diseases. For the speedy and permanent cure of tetter, salt rheum and eczema, Chamberlain's Eye and Skin Ointment is without an equal. It relieves the itching and smarting almost instantly and its continued use effects a permanent cure. It also cures itch, barber's itch, scald head, sore nipples, itching piles, chapped hands, chronic sore eyes and granulated lids.

Kodol Dyspepsia Cure Digests what you eat. Artificially digests the food and aids Nature in strengthening and reconstructing the exhausted digestive organs. It is the latest discovered digestant and tonic. No other preparation can approach it in efficiency. It instantly relieves and permanently cures Dyspepsia, Indigestion, Heartburn, Flatulence, Sour Stomach, Nausea, Sick Headache, Gas, Colic, Cramps, and all other results of imperfect digestion. Prepared by E. C. DeWitt & Co., Chicago.

WHITES. and irregular menstrual periods are wearing on a woman. If you are a sufferer from these troubles, G. F. P. GERSTLE'S FEMALE PANACEA will cure you quickly. In the privacy of your home, away from prying eyes, it cures chronic bills. Our new book, HEALTHY WOMEN MAKE HAPPY HOMES, tells all about it, and will be sent free to any address.

GERSTLE'S FEMALE PANACEA. CURED OF WHITES. For several months my wife had whites and womb trouble. After several remedies had failed, our physician advised G. F. P. She has taken two bottles of this splendid remedy and is now entirely cured. GEO. W. McDONALD, Walk, Ala.

Charlotte News: "Rev. Dr. Len G. Broughton, Atlanta's sensational preacher, who has just gotten back from 'doing' continental Europe, says he has located hell in France. We will give him credit for knowing what he is talking about, and steer clear of France in the future."

From the fact that Emma Goldman has been arrested charged with conspiracy in the attempt to kill President McKinley, reminds us of the old stereotyped saying that "there is a woman at the bottom of it all."

A Night of Terror. "A awful anxiety was felt for the widow of the brave General Burnham, of Maches, Me., when the doctors said she would die from pneumonia before morning" writes Mrs. S. H. Lincoln, who attended her that fearful night, but she begged for Dr. King's New Discovery, which had more than saved her life, and cured her of consumption. After talking, she slept all night. Further use entirely cured her. This marvelous medicine is guaranteed to cure all Throat, Chest and Lung Diseases. Only 50c and \$1.00. Trial bottles free at Geo. C. Goodman & Co.'s drug store.

Our Albemarle correspondent this morning furnishes a very pleasing piece of news in the statement that the Wisconsin Mills of its town have just finished an elegant \$2,000 school building for the children of its operatives and that the Efford Mills are erecting a similar building for the children of its operatives. These mills are to provide the most up-to-date school facilities for the children of their working people, the schools are to be conducted on the graded principle. Here is another proof that the mill people of North Carolina have sincerely at heart the best interests of those who labor for them.—Charlotte Observer.

News from Randall. Misses Allie and Ursula Litaker, who have been visiting their sister, Mrs. C. E. Yoils, returned home Saturday. Mr. Winslow Jamison came in from Alabama last week to visit his brother, Mrs. A. E. Jamison. Miss Sallie Jamison visited her mother, Mrs. A. E. Jamison Sunday and returned home Monday evening. Everybody seems to be hauling wood. They say the roads are in fine fix—better than they have been this season. Cotton will be ready to pick next week. Oh, for the cotton patch! Randall, Sept. 11. MAYFLOWER.

Oil for the Children. Give them oil—cod-liver oil. It's curious to see the result. Give it to the peevish, fretful child, and he laughs. Give it to the pale, anemic child, and his face becomes rosy and full of health. Take a flat-chested child, or a child that has stopped growing, give him the oil, and he will grow big and strong like the rest. This is not a new scheme. It has been done for years. Of course you must use the right oil, Scott's Emulsion is the one. Scott's Emulsion neither looks nor tastes like oil because we are so careful in making it pleasant to take. Send for free sample. SCOTT & BOWNE, Chemists, 108 Pearl St., N. Y.

New Cotton Coming In. W. M. Brown, of the Linwood neighborhood, was the first man to put a bale of new cotton on this market, which occurred Wednesday September 11. He had 1228 pounds of seed cotton, making 431 pounds of lint, which brought 8.55. It was ginned by Templeton, Williams & Co., and was bought by the Mooresville Cotton Mill. Mr. J. J. McNeely, of this place, was a close second to Mr. Brown, his cotton coming in just a few minutes after the first bale.

Stout Brave Of. E. B. Munday, a lawyer of Henrietta, Texas, once fooled a grave digger. He said "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued their use until he was wholly cured. I am sure Electric Bitters, saved his life. This remedy expels malaria, kills disease germs and purifies the blood, aids digestion, regulates liver, kidneys and bowels, cures constipation, dyspepsia, nervous diseases, kidney troubles, female complaints; gives perfect health. Only 50c at G. C. Goodman & Co.'s drug store.

Free Gold in Davidson. Mr. R. A. Ramsey, who lives on the W. M. May place in Davidson township, has been prospecting on his place for gold. As a result of his search he has discovered a vein of ore that contains a considerable amount of gold and other minerals. The quartz is a sort of flint with an iron rust about it. Mr. Ramsey has left a specimen of ore at THE ENTERPRISE office, and anyone interested in our mineral products can look over the ore by calling at this sanctum. Mr. Ramsey says he often finds free gold along the branch, and is of the opinion that there is a rich mine on his place.

McDaniel in Mecklenburg. Deputy Sheriff James M. Deaton returned Monday morning after a search in Iredell, Cabarrus and Mecklenburg counties for Pleasant McDaniel, the man who assaulted Maggie Spizer, the 9-year-old daughter of George Spizer, two weeks ago. Deaton left last Thursday morning for the home of McDaniel's father-in-law in Cabarrus, and missed the man. From there he went to the home of Geo. Clayton, father-in-law of McDaniel. McDaniel and his wife, with a six weeks old baby, spent Thursday night at Mr. Clayton's and left Friday afternoon, stating that they were going to South Carolina. At Ferrisburg Mr. Deaton was joined by a large posse of citizens who assisted him in hunting the man all during Saturday and Sunday. McDaniel and his wife succeeded in eluding the officers and it is presumed that they are yet in Mecklenburg county, in the vicinity of Mathews. Mr. Deaton says that Mr. Clayton, the father-in-law of McDaniel, is doing all in his power to apprehend the wretch. Mr. Deaton slept only one night out of four. He made a thorough search for the criminal, but missed him by 24 hours at several places. Mr. Deaton was accompanied by Will Murray, of Davidson, an uncle of the unfortunate child assaulted. A reward of \$50 stands for the arrest of McDaniel.

Mr. Clark began to investigate and found "the long white something" to be a genuine snake. It measured a little more than four feet in length and was perfectly white from head to tail. It was a great curiosity. Mr. Clark killed it with a hoe, but did not preserve it.

An Essay on the Editor. A little boy was requested to write an essay the other day, and "The Newspaper" was his subject. Here is the result: "I don't know how newspapers come to be in the world. I don't think God does either. He hasn't got nothing to say about them, and they ain't in the Bible. I think the editor is one of the missing links you hear about, and stayed into the bush until after the flood, then stepped out and wrote it up, and has been here ever since. I don't think he ever dies. I never saw a dead one, and never heard of one gettin' licked. Our paper is a mighty poor 'un. The editor goes without underclothes all winter, don't wear no sox, and paw hain't paid his subscription in five years."

Midnight Lunch. To the managers of the Proximity Manufacturing Company, Greensboro, N. C., is due the credit of the inauguration of a midnight lunch for the benefit of several hundred operatives who are employed in the mill at night. Formerly each operative carried a lunch basket to work, but now promptly at midnight all hands knock off and partake of a bountiful and substantial repast, prepared and served at the expense of the company. Chicken, ham, roast beef, etc., make up the bill of fare, which is varied from night to night. Coffee is served every night. It is announced that the management is so well pleased with the experiment that it has been made a fixture, while the employees have made acknowledgement of their appreciation of the thoughtful kindness of the mill managers. —Baltimore Sun.
