**Leap's Prolific Wheat.**  
The Most Prolific and Best of Milling Wheats  
Yields reported from our customers from twenty-five to fifty-two bushels per acre. When grown side by side with other kinds this splendid seedling wheat yielded from five to eighteen bushels more per acre on same land and under same conditions as other standard wheats. Wherever grown it is superseding all other kinds and it should be sown universally by wheat growers everywhere.

**T. W. WOOD & SONS,**  
Seedsmen, - Richmond, Va.  
We are headquarters for Farm Seeds, Grass and Clover Seeds, Winter Vetches, Dwarf Essex Rape, Seed Wheat, Oats, Rye, Barley, etc. Descriptive Fall Catalog mailed free.

**ROLEY'S URINOLAXATIVE**  
For Urinary Troubles and Constipation

## GEN. ARMFIELD BURIED.

Statesville, October 14.—The funeral of Adjutant General Joseph F. Armfield was conducted today at 4 o'clock, the procession started from the home of Dr. W. J. Hill, on East Broad street. In the procession were nine companies of the National Guard soldiers, a squad of Confederate Veterans, a number of small girls; children of the Confederacy, carrying flowers; former members of the Iredell Blues and many citizens.

The procession was led by the First Regiment band from Asheville. In the procession was Gen. Armfield's horse led by his colored attendants, George Dulin and Dan Polk. It was the largest procession ever seen here. The funeral services were conducted at the First Presbyterian church by Revs. C. E. Raynall, J. H. Pressly and Charles E. Maddry. The floral tributes were wonderful. The procession then marched in regular order to Oakwood cemetery, where the remains were laid to rest, a salute of three volleys were fired at the grave and taps was sounded by four bugles. By far the largest number of people ever seen at a funeral here was present. Besides soldiers there were many prominent men from all over the State present. Governor Kitchen and staff attended. The pall-bearers were the Iredell Blues. The troops were commanded by General Royster with Col. J. N. Craig commanding the regiment. Major Flanigan in charge of the first battalion, Major Young the second battalion, Major Rodman the third battalion. The commanding officers present were: Brig. Gen. B. S. Royster, Oxford; Brig. Gen. F. A. Macon, Henderson; Col. S. W. Battle, Asheville; Col. T. R. Robertson, Raleigh; Col. Alfred Williams, Raleigh; Col. Wyatt L. McGhee, Franklin; Lieut-Col. F. H. Shipp, Newbern, Naval Brigade; Col. H. Montague, Winston; Col. J. M. Campbell, Asheville; Col. J. N. Craig, Reidsville; Lieut-Colonels Roy L. Lomster, Raleigh; W. G. Smith, Asheville; Charles S. Jordan, Asheville; J. C. Besant, Winston; Majors E. B. Glenn, Asheville; Max L. Barker, Salisbury; L. W. Young, Asheville; W. C. Rodman, Washington; R. L. Flanigan, Statesville; L. Skinner, Raleigh; Robert M. Coburn, Raleigh; Captains E. D. Kuykendall, Greensboro; J. C. Freeman, Burlington; Don. E. Scott, Graham; F. L. Black, Charlotte; John B. Malloy, Lumber Bridge; J. E. Deitz, Statesville; Lieutenants A. W. Freeman, Waynesville; R. H. Morrison, Stanly; P. W. Eshelman, High Point; Sergeant-Majors, Taylor, Asheville; Saunders, Statesville; Waddington, U. S. A., Raleigh.

Following the hearse in the procession was the General's horse, saddled and bearing the boots of the officer reversed according to military custom. Following this came the Children of the Confederacy as flower bearers, then came the Governor and his Staff, Senator Simmons and other prominent officers of the State, followed by the long line of citizens of Statesville and visitors who came to pay the last tribute to the dead soldier.

A movement was started by officers of the National Guard this afternoon that, it is thought, will result in the formation of an Armfield Memorial Association which will be composed of officers and members of the National Guard whose ultimate purpose will be the erection of a monument at the grave of the beloved general.

General Armfield's record as a soldier and as a man is a most enviable one. He was born at Yadkinville, January 23, 1862, the second son of Judge R. R. Armfield, and early in life he enlisted in the North Carolina State Guard as a private in the Statesville company, then known as the Iredell Blues. He advanced through the various offices and became captain of the company. In 1892 he was elected colonel of the First North Carolina Regiment. In 1898 he was commissioned as colonel of the First Regiment, North Carolina Volunteers in the Spanish-American War, serving under Major General Fitzhugh Lee, and making a high reputation as an officer, his regiment one of the best. In the Cuban campaign General Lee had chosen Colonel Armfield and his regiment to lead the attack on Havana. when

the war ended, the attack not having been made.

It was the North Carolina Regiment that took down the Spanish flag from Morro Castle and raised the Stars and stripes. In that campaign General Armfield, receiving word from the Spanish commander of Havana not to enter its streets with his regiment under arms, replied that he had been ordered by his government to occupy a certain camp and that if the nearest way lay through the streets of Havana he was going that way. He went and his regiment was under arms. The regiment was in Cuba until March 18, 1899, and was mustered out in Savannah, Ga., on April 22, 1899.

After the war when the North Carolina National Guard was reorganized General Armfield was appointed Brigadier General by Governor Aycock, and he made a splendid record in this position. He was appointed Adjutant-General by Governor W. W. Kitchen at the beginning of his administration and under his guidance the North Carolina National Guard has made a marked advancement.

## DOCTORS TALK TO TEACHERS.

The principal feature of the meeting of the Iredell County Teachers' Association at Statesville last Thursday, was the discussion on the hookworm disease by Dr. John A. Ferrell and Dr. Page, the hookworm specialists who have charge of the movement inaugurated in the State to eradicate the disease. This discussion was heard by over 100 teachers of the county and a goodly number of citizens who are interested in the fight on the disease. The specialists made very interesting and instructive talks on the prevalence of the disease, its symptoms, the most effective treatments, etc., giving much information which will be of much value to the teachers and the superintendent of schools, who will begin a fight on the disease and do all they can to see that every child in the county who is affected is given the proper treatment. The teachers were told how they might recognize cases of the disease among the pupils of their school. It is estimated that a third of the school children of the county are affected with the disease, which is prevalent to an alarming extent throughout the State. The doctors explained the mode of infection and how the disease may be prevented from making headway. The treatment is very simple and it was stated that if the proper effort is made the disease can be stamped out of the State in two years.

Doctors M. R. Adams and J. E. McLaughlin, of Statesville, were present at the meeting and made brief talks on the hookworm situation in this community, telling of the marvelous results in the cases treated by them. Dr. McLaughlin emphasized the fact that the people are too modest in discussing the disease and taking treatment when they find they are affected. He said that several of his patients who have been treated were so modest that they pledged him to secrecy before they would take the treatment.

**How'd This?**  
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm. W. A. LINDSEY, KINAN & MARVIN, Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c, per bottle. Sold by all druggists. Take Hall's Family Pills for constipation.

## Newton Must Get Busy.

The Catawba News of the 14th says: Newton would doubtless find that it would pay to have a committee go over the proposed highway between Newton and the river and carefully note the advantage of routing the Salisbury to Asheville road via this town. When the Newton delegates go to Hickory and ask that the highway come this way, the folks interested in the best route are going to want to know what is to be gained by it, and if we have the facts, we can "show them." Some of the numerous motorists of the city might easily make the trip as far as Mooresville and beyond, and make a report, in a day. It would seem that there should be a sketch of the highway as suggested from Salisbury via Mooresville and Newton, and a thorough knowledge gained of the advantages the route would have over a route from Salisbury via Statesville to Hickory—leaving this town clean off.

**Hoarseness in a child subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once or even after the croupy cough has appeared, it will prevent the attack. Contains no poison. Sold by Geo. G. Goodman & Co.**

**Capt. Bogardus Hits the Bull's Eye**  
This world famous rifle shot who holds the championship record of 10 consecutive shots in living at Lincoln, Ill. Recently interviewed, he says: "I suffered a long time with kidney and bladder trouble and used several well known kidney medicines, all of which gave me no relief until I started taking Foley's Kidney Pills. Before I used Foley's Kidney Pills I had severe backaches and pains in my kidneys with suppurations and a cloudy voiding. On arising in the morning I would get dull headaches. Now I have taken three bottles of Foley's Kidney Pills and feel 100 per cent better. I am never bothered with my kidneys or bladder and again feel like my own self." Miller-White Co.

**Are You Like This?**  
Tired all the time, not much good for anything, hardly able to drag around, just all run down. If you are, we guarantee our VINOL will help you. It has helped many people around here who were in this condition. Now look here, just try one bottle of VINOL, and if you are not satisfied that it did you good, come back and get your money. It will be returned without question. That is a fair proposition and shows our faith in VINOL, and that we do not want your money unless you receive benefit. We know what we are talking about because we have sold VINOL for years, and have seen how much good it has done among our customers. VINOL is not a patent, secret nostrum, but an honest, tried and true body builder and strength creator of world-wide fame, delicious and easy to take. Come in today and start your cure at once. You take no risk.

## FARMS AND FARM LABOR.

A summary of the chapter of the report of the Department of Labor and Printing devoted to farms and farm labor is just issued by Commissioner of Labor and Printing M. L. Shipman and contains many features of special interest, the report procured by the department from every locality in the state. The commissioner says the reports show a whole some advance in farming in all sections of the State, with special progress in the practice of seed selection, preparation of soil, in drainage of swamp lands, measure to prevent erosion, with assurances that progress along these lines will continue.

The commissioner commends the work he finds that the North Carolina geological survey in doing along the line of drainage undertaking and declares that with constantly increasing values it behooves the farmers to see to it that there are no gullies and washouts in their properties.

The reports indicate slight difference in wages or in cost of producing the various crop in different sections of the State. It is ascertained that sixty seven counties produce cotton at the cost of \$33.37 per bale, that eighty one counties produce wheat at a cost of 72 cents per bushel; ninety seven grow corn at 52 per bushel; ninety five grow oats at 36 cents per bushel; fifty three grow tobacco at an average cost of \$7.40 per hundred pounds.

Increase in farm wages is reported in thirty-three counties, a decrease in one county and no change in the others. The highest average wages paid men for farm work is \$25.11 and lowest \$15.28, this being an increase of \$1.00 per month and 49 cents per month respectively. The highest average for women is found to be \$15.53 and lowest average \$10.11, an increase of 62 cents per month over the averages for last year's reports. Children are reported to have average wages of \$8.76, an increase of 32 cents per month over last year.

As to the financial condition of the working people the reports from seventeen counties show them to be good, fifty-three fair, twenty-one poor and one bad, with no report another. Ninety-two counties report improvement in this respect.

The reports from ninety-three counties show change towards greater diversity of crops and ninety-eight report improvement in methods of cultivation. Every county reports increase in the cost of living. Increase in the value of lands is reported from ninety-three counties and the fertility of lands maintained in ninety-three, with general tendency towards smaller farms. Labor is reported scarce in ninety-five counties and negro labor unreliable in ninety five counties and reliable in two.

**It's the World's Best.**  
No one has ever made a salve, ointment or balm to compare with Bucklen's Arnica Salve. It's the one perfect healer of cuts, corns, burns, sores, bruises, scalds, boils, ulcers, eczema, chapped hands or sprains, its supreme. Indefatigable for piles. Only 25c at Miller-White Co., and Geo. G. Goodman & Co.

## A Horrible Deed.

An unknown man in New York Tuesday night, to protect himself from a bullet fired by Harry Greenwald, a pugilist, grasped Charles Fisher, a lad of 12 years, and held him up as a shield. The boy got the bullet in his brains and the man escaped. Not so the one who fired the bullet. He was pursued by a mob and the police, and finding escape impossible, he shot himself.

## FARMERS MAY LOSE HOMES.

Lillington, N. C., October 15.—Perhaps the most important suit ever brought in Harnett county will come to a hearing at the November term of the Superior court for the trial of civil cases. The title of the action is Buckhorn Land & Timber Company vs. T. A. Harrington and others. "Others" in this case represents about forty or fifty families in Harnett and Lee counties. The suit is brought by the company to recover possession of about 10,000 acres of land, which is occupied by the defendants, many of whom have lived all their lives on the land, raised families and settled their children on individual tracts.

The real beginning of this case, as appears from records, was November 26, 1868, when J. M. Heck and G. W. Swepson, representatives of the Deep River Manufacturing Co., bought 10,000 acres of land, at 65 cents per acre, from John W. McKay, and others, and conveyed it to the Deep River Manufacturing Co., December 8th, 1868. The Deep River Manufacturing Co., then deeded the property to one D. S. Pruyn, a carpet-bagger lobbyist, who in 1869, while the carpet-bag Legislature was in session, sold the land to the State at \$10.00 per acre, or \$100,000 for the tract, which was paid in North Carolina bonds issued at that time.

There was a scheme on foot to build the State Penitentiary on this land. The owner was unable to make this deal with the State, therefore, they conveyed to the manufacturing company which in turn conveyed to Pruyn and he, a very influential carpet-bagger lobbyist, effected the much coveted deal.

In 1872, when the Democratic Legislature assembled, a committee was appointed to investigate the fraud. On report of the Commission the Legislature repudiated both the land deal and the bonds. A summons was then issued for Pruyn, but he never showed. At this time Jno. G. Williams president of the State Bank of Raleigh, held a majority of these bonds which had been transferred to him by Pruyn without recourse; and he took a deed from the Carpet Bag Government and then redeemed it to the Deep River Manufacturing Co., Heck, Swepson and Williams together and formed what is known as the American Iron and Steel Co., and took deed purporting to be a deed from the Deep River Manufacturing Co., which had already deeded the property to Pruyn. After this Heck went to the Loblodell Car Wheel Company, of Wilmington, Del., and induced the Loblodell Company to take stock in his company and also secured from them a loan of \$300,000, with which to equip the large plant he represented with smelters, shafting and other fixtures necessary in operating this enormous plant. With a part of the money Heck and Swepson erected a smelting plant which they operated for awhile in 1876.

From 1876 to 1906 there was no right of possession exercised upon the 10,000-acre tract of land in question. During this lapse of time the records of Harnett county were destroyed by fire, and the only trace of the deeds that can be found are the deeds referred to in the Fraud Commission's report.

After the carpet-baggers were exterminated and the scalawags suppressed, a number of citizens entered lands upon this tract and obtained grants from the State, some went into entry and surveys with-out grants, while others just simply took up their abode there. At present a large number of good citizens of Harnett and Lee counties, who live on these lands have built splendid homes, cleared, cultivated and improved farms and settled some of their children thereon, thinking, of course, they had a good title.

In 1906 the Buckhorn Land & Timber Company was organized and made purchase of lands from Fanny Heck, trustee of J. M. Heck, mortgagor, and William Loblodell, trustee of Loblodell Car Wheel Company, mortgagor, and brought suit against all the people who occupy the lands claimed by the company.

The colony of people who live on this land have organized, listed their property and taxed themselves each according to the value of his property to raise money with which to defend their homes.

This suit was begun in 1906, but has not yet come to a hearing—being continued from court to court, as the land has never been located by the McKay deed. At the September term of court last, when the case came up Judge Cooke ordered the land surveyed and the case placed at the head of the docket for the next term of court, which convenes November 14th. He also appointed John W. Wells, an expert surveyor of Rocky Mount, to make the survey. Mr. Wells began the work a few days ago, and attorneys of both sides are on the ground to watch the progress of the survey,

## STATE NEWS.

As soon as the preliminaries can be arranged, and they will be arranged promptly, the State will send a squad of fifty convicts to Statesville to begin work on the Statesville Air Line Railroad, which is to be built from Statesville via. Yadkinville to Mt. Airy.

Mr. O. A. Robbins of Charlotte, and a number of New England capitalists will soon erect a manufacturing plant to contain 20,000 spindles and other machinery. It will manufacture a very fine grade of cloth. Work will be begun as soon as the location can be decided.

The Greensboro Record is tired of the Roosevelt brand of prosperity, and says: "Greensboro needs more manufacturing enterprises, but what she needs worse just now is something that will cause the mills we already have to run on full time. Two thirds of a week for two years is getting stale and the mill men do not want any of this kind of Roosevelt prosperity."

The Rowan County Farmers' Union has chosen the following delegates to represent it at the State meeting in Greensboro in December: George H. Glover, F. D. Patterson, Theo. D. Brown and G. W. Parks. In view of the fact that there is a possibility of the next legislature establishing a number of agricultural schools throughout the State, a committee has been named by the Rowan union to endeavor to have one of them located in Rowan. This committee is to be known as an "educational committee."

## How To Have A Beautiful Hand.

What constitutes a beautiful hand, you ask? The palms should be soft and plump, the skin firm, white and smooth. The movements of the hand should be graceful and the touch light and firm. Knuckles should not be allowed to become unduly prominent. The finger tips must be slightly round. The fingers should be long and tapering. Nails must be of shell pink with the half moon showing. The truth is, a woman's hand is only really beautiful when cared for. With the hands, as the rest of the body, cleanliness is imperative. Mme Recamier was right when she said "Three things contribute most to beauty of the hands: the first is cleanliness, the second is cleanliness, and the third is cleanliness."

The best time for a thorough scouring is at bedtime. Don't be afraid to use a nail brush vigorously, as the flesh dearly loves friction. In fact the more you scrub, scour, bleach and scrape the lovelier they become.

If possible, bathe the hands in rain water; lacking this, use water softened with borax. A teaspoonful in a basin of water is sufficient. If you have bony hands and want them to be plump and white and delicately dimpled it will take but fifteen minutes every day to bring the gratifying fattening results.

Fill a bowl with medium hot water and soak your hands in it for five minutes. While the soaking progress is going on you must have a bowlful of olive oil heating. By the time the hands are through with the hot bath the oil is quite warm. —New Idea Woman's Magazine for November.

## "It Beats All"

This is quoted from a letter of M. Stackwell, Hannibal, Mo. "I recently used Foley's Honey and Tar for the first time. To say I am pleased does not half express my feeling. It beats all the remedies I ever used. I contracted. I contracted a bad cold and was threatened with pneumonia. The first doses gave great relief and one bottle completely cured me." Contains no opiates. Miller-White Co.

## Interesting Teachers Meeting.

Dr. Jno. A. Ferrell, of Raleigh, assistant secretary for hook worm disease in North Carolina, lectured at Statesville before the Iredell County Teachers' Association today at 10:30 a. m., on the subject of Hook Worm Disease.

In the afternoon the teachers completed the discussions on Hamilton's Recitation, after which an examination was held on this book. The special school tax election in District No. 3, Chambersburg township, known as the Lingle school, was held at the school house Saturday, the 8th, and out of a total of 15 votes cast 14 were cast for the tax. The rate voted is 15 cents on \$100 valuation and 45 cents on the poll.

To know thyself is wisdom; to know how not to impart that knowledge to others—that's cleverness.

which some say will take six months to complete. The attorneys for the plaintiff are Messrs. D. E. McIver, A. A. F. Seawell and E. F. Young; for the defendants, D. H. McLan & Son, Baggett & Baggett and H. E. Norris. Much anxiety is felt among the people of this ill fated colony as the time for adjustment draws near.

## This contractor got results.

Some years ago a contractor building a railroad in a warm climate was troubled a great deal by sickness among the laborers.

He turned his attention at once to their food and found that they were getting full rations of meat and were drinking water from a stream near by.

He issued orders to cut down the amount of meat and to increase greatly the quantity of Quaker Oats fed to the men.

He also boiled Quaker Oats and mixed the thin oatmeal water with their drinking water. Almost instantly all signs of stomach disorders passed and his men showed a decided improvement in strength and spirits. This contractor had experience that taught him the great value of good oatmeal.

Packed in regular size packages, and in hermetically sealed tins for hot climates.

## Yellowstone Park.

You may munch it and punch it, As you will, The smell of Havana Clings to it still; And when your "auto" Will not spark, You can still be happy With a Yellowstone Park.

## SPECIAL ANNOUNCEMENT.

Rubber Tire Repairs.

We are pleased to tell you that you may have any class of rubber tire repair work done in the most modern manner at our shop. We reset old, or put on new channels and also have a press for tightening all patent hubs—if your spokes are loose or wheels have too much dish, see us. We are thoroughly equipped for all kinds of buggy and wagon repairs and painting and for horse shoeing.

Truly yours,

J. E. Brown & Company, Mooresville, N. C.

## HOW TO CURE RHEUMATISM

It is an Internal Disease and Requires an Internal Remedy.

The cause of Rheumatism and kindred diseases is an excess of uric acid in the blood. To cure this terrible disease this acid must be expelled and the system so regulated that no more acid will be formed in excessive quantities. Rheumatism is an internal disease and requires an internal remedy. Rubbing with Oil and Liniment will not cure Rheumatism only temporary relief at best, causes you to delay the proper treatment, allows the disease to get a firmer hold on you. Limb joints may ease the pain, but they will not cure Rheumatism that point will change the cure to permanent wood.

Science has at last discovered a perfect and complete cure, which is called "Rheumoidin." Tested in hundreds of cases, it has effected the most marvelous cures; we believe it will cure you. Rheumoidin gets at the joints from the inside, sweeps the poisons out of the system, tones up the stomach, regulates the liver and kidneys, and makes you well all over. Rheumoidin strikes the root of the disease and removes its cause. This splendid remedy is sold by druggists and dealers generally at 50c and \$1 a bottle. In a bottle from 25c and 50c a package. Get a bottle today. Booklet free. Write to the Bohart Chemical Co., Baltimore, Md. Trial bottle 25c, by mail. Write to Miller-White Co., and Geo. G. Goodman & Co., and by druggists generally.

## BEST FOR THE BOWELS
