#### **How to Cure** Chronic Colds and Bronchitis

Ricevale, Ont., May 4, 1910.
"I was sick for two years with a tronic cold and bronchitis and a insequent run-down condition. I ceived no benefit from doctors, and had to give up work. VINOL as recommended and from the secwas recommended and from the second bottle I commenced to improve — I gained in weight and strength, any cold-and bronchial trouble disappeared, and I am at work again. I want to recommend VINOL to anyone who is in need of such a medicine."—Parostas Harons.

At is the combined action of the curative elements of the code' livers aided by the blood making and strength creating properties of tonic iros contained in VINOL which makes it so successful in curing

aroa contained in VINOL which makes it so successful in curing stubborn colds and bronchitis.

VINOL is a constitutional remedy for chronic coughs, colds, bronchitis and pulmonary troubles, not a palliative like cough syrups.

Try a bottle of VINOL. If you don't think it helped you, we will

IN BOOKS AND BOOK-BUYERS.

"I say we have despised literature; what do we, as a nation care about books? How much do you think boolen? How much do you think ye spend together on our libraries, public or private, as compared with what we spend on our horses? We talk of food for the mind as of food for the body; now, a good book contains such food inexhaustibly. It is provision for life and for the best part of us; yet how long most peo-ple would look at the best book be-fore they would give the price of a large turbot for it! Though there have been men who have pinched their stomachs and bared their backs their stomachs and bared their backs to buy a book, whose libraries were cheaper to them. I think, in the end than most men's dinners are. We are few of us put to such a trial, and more the pity; for, indeed, a precious thing is all the more prec-ious to us if it has been won by work or economy; and if public libraries were half as costly as public din-ners, or books cost the tenth part of what bracelets do, even foolish men and women might sometimes suswhat bracelets do, even rooms men and women might sometimes sus-pect there was good in reading as well as in munching and sparkling; whereas the very cheapness of litera-

tire is 'making even wiser people forget that if a book is worth read-it is worth buying."—From "Sesame and Lillies."

The Mooresville Public Library is open from 3 to 4 p. m. on Weddays and Saturdays.

UNGLE HIRAM TO HIS NEPHEW.

n to Listen, Good Advice for O

"That little piece of advice that I would give you this morning, Stephen." said Uncle Hiram to his hopeful young nephew, 'is this: Learn

'We all think that our own periences are the most interesting that ever were, that the things that have befallen us are the most wonderful; but don't monopolize the onversation, Stephen.

"As a rule what happened to you

doesn't interest the other man at all what happened to him is what interests him most, and if you are wise you will let him tell you about it; and beware of trying to match his experience with something greater.

It will only make him think less of you, for naturally it belittles him and that is something that you want always to avoid.

'So let the other man do the talking, Stephen, while you listen. Your interest in what he says will commend you to him as a person of intelligence and appreciation. As he talks on he will have higher and

man has prospered in this world by letting some other man do the talk-

ing.
"That will be all, Stephen this morning."—New York Sun.

#### Didn't Enjoy Christian Science

The mother of the new pupil in a New York school informed the teacher that Freddie was a Christian Scientist. "Is he?" said the teach-"Well for goodness sake tell him not to let the rest of the chil-dren find it out. They will pummel the life out of him if they do. One of the hardest things a teacher to do at recess is to protect an acknowledged Christian Scientist from his playmates. This isn't a religious war. The children don't mean to be fiendish, but they are. Some-how they get into their heads that nothing can hurt a Scientist and fairs returns, however, when the stomach is forced to resume its and be made to howl."
