E. R. FISHBLATE. WILL R. RANKIN, Manager. 120 S. Elm Street, GREENSBORO, N. C.

THE WEEKLY NEWS

REIDSVILLE, N. C., FRIDAY, DECEMBER 8, 1893. Vol. V--No. 42.

PRESIDENT'S MESSAGE.

The Hawaiian Matter Is Briefly Touched Upon—Prompt Action on the Line of Tariff Reform—About a Bond Issue and Income Tax.

WASHINGTON, Dec. 4.—The President sent in his message to the two houses promptly upon notification of their assembling. In the opening pages Mr. Cleveland treated at length and in detail upon our relations with foreign powers. He refers to the troubles in Brazil, and states that American interests are amply protected in that quarter.

He sums up the situation thus: "While our foreign relations have not at all times during the past year been entirely free from perplexity, no embarrassing situation remains that will not yield to the spirit of fairness and love of justice, which, joined with consistent firmness, characterize a truly American foreign policy."

His utterances upon the Hawaiian question will be read with interest and are given in full, as follows: The Hawaiian Trouble. It is hardly necessary for me to state that the questions arising from our relations with Hawaii have caused serious embarrassment.

Just prior to the installation of the present administration the existing government of Hawaii had been suddenly overthrown, and a treaty of annexation had been negotiated between the provisional government of the islands and the United States and submitted to the senate for ratification.

This treaty I withdrew for examination, and dispatched Hon. James H. Blount, of Georgia, to Honolulu as a special messenger to make an impartial investigation of the circumstances attending the change of government and of all the conditions bearing upon the subject of the treaty.

After a thorough and exhaustive examination, Mr. Blount submitted to me his report, showing beyond all question that the constitutional government of Hawaii had been overthrown in a forcible and unauthorized manner.

Upon the facts developed, it seemed to me that the only honorable course for our government to pursue was to undo the wrong that had been done by those representing us, and to restore, as far as practicable, the status quo existing at the time of our forcible intervention.

With a view of accomplishing this result within the constitutional limits of our executive power, and recognizing all our obligations and responsibilities growing out of any changed conditions brought about by our unjustifiable interference, my present minister at Honolulu has received appropriate instructions to that end.

Thus far, no information of the accomplishment of any definite results has been received from him. Advices are soon expected. When received they will be promptly sent to congress, together with all other information at hand, accompanied by a special executive message fully detailing all the facts necessary to a complete understanding of the case, and presenting a history of all the material events leading up to the present situation.

Our European Relations. Our relations with France continue to be intimate and cordial. I sincerely hope that the extradition treaty with that country, as recommended by the senate, will soon be in operation.

While occasional questions affecting our national citizens returning to their country of their birth have arisen in our intercourse with Germany, our relations with that country continue satisfactory.

The questions affecting our relations with Great Britain have been treated in a special message to congress, showing the progress between the two governments with a view to such concurrent action as may be deemed desirable.

Our relations with Norway have recently been exchanged and proclaimed. The extradition treaty with Russia, signed in March, 1893, and announced by congress in my annual message in February last, was duly proclaimed last June.

The dispute growing out of the discrimination imposed in the Wailand canal, upon cargoes of cereals bound to an from the lake ports of the United States, was adjusted by the substitution of a more equitable schedule of charges, and any predecessor thereupon suspended his proclamation imposing discriminating tolls upon British transit through our canal.

A request for additions to the list of extraditable offenses covered by the existing treaty between the two countries is under consideration.

Costa Rica has lately testified its friendliness by surrendering to the United States, in the absence of a convention of extradition, but I have not yet received evidence of criminality, a noted fugitive from justice. It is trusted that the negotiations of a treaty with that country to meet recurring cases of this kind will be accomplished. In my opinion, treaties for reciprocal extradition should be concluded with all those countries with which the United States has not already concluded arrangements of that character.

calls attention to the important features in each. He commends the report of the secretary of agriculture and endorses the spirit of reform manifested by that official. Regarding the fee system in the judicial department, Mr. Cleveland strongly urges its abolition. He says: "The system is through vicious which makes the compensation of court officials depend upon the volume of such business and thus creates a conflict between the proper execution of the law and private gain, which cannot fail to be dangerous to the rights and freedom of the citizens and an irresistible temptation to the unjustifiable expenditure of public money."

Regarding the report of the Secretary of the Interior Smith and his efforts to correct and prevent "wholesale and gigantic" frauds such as has formed been perpetrated upon the pension department, Mr. Cleveland says: "I am unable to understand why frauds in the pension department are not exposed and corrected with thoroughness and vigor. Every name fraudulently put upon these rolls is a wicked intrusion upon the kindly sentiment in which pensions have become a load of evil to our people."

Much progress has been made in this direction by the studies of the division of animal pathology, but work ought to be extended in co-operation with local authorities, so that the disease may be entirely eradicated, and the stock of animals raised by the country protected.

The number of animals arriving from Cuba in the last year was 1,237. No contagious diseases were found among the imported animals. The total number of cattle for export for the past year was 61,142. The exports about a falling off of about 25 per cent from the preceding year, the decrease being due to the fact that the falling off may have been largely due to an increase in the price of American export cattle.

Exports of live stock, such as pigs, sheep, and other animals, were valued at \$2,500,000, the estimate for the ending year is \$700,000.

The regulations of 1892 concerning Texas fever have been enforced during the last year, and the large stockyards of the country have been kept free from infection. Occasional local outbreaks have been largely such as could have been effectively guarded against by the owners of the affected cattle.

White contagious pneumo-pneumonia in cattle has been eradicated, animal tuberculosis, a disease widespread and more insidious than any other disease of the kind, is still prevalent. Investigation has been made during the past year as to the means of its communication and the means of its eradication.

Program for the Following Week, PART FIRST. Messrs. Toothache & Neuralgia in their very latest song entitled, their experience with Williams' Famous Toothache and Neuralgia Remedy.

Highest of all in Leavening Power.—Latest U. S. Gov't Report. Absolutely Pure. Hundreds of Witnesses. Stomach diseases, such as indigestion, dyspepsia, etc., are hard to cure with ordinary remedies, but Tyner's Digestive Remedy never fails.

"MOTHERS FRIENDS" MAKES CHILD BIRTH EASY. I have used your "MOTHERS FRIENDS" and can say that it is the best medicine for women in every respect. It is a pure and safe medicine, and I can recommend it to every woman I know.

Western Union Wants Protection. WESTERN UNION, Ky., Dec. 5.—The Western Union Telegraph company, through Cincinnati and Louisville attorneys, has brought suit in the United States district court to enjoin the auditor of the state from collecting taxes upon its franchise.

Connecticut Threatened with Water Famine. HARTFORD, Dec. 5.—This city is threatened with another water famine, and unless there is a heavy rainfall within a few days, water for domestic use will have to be pumped from the Connecticut river.

A Day Set for a Conference. LOUISVILLE, Dec. 5.—The conference between the Louisville and Nashville officials and employees will not be held until next Saturday, Dec. 9. This decision was reached at a meeting between Chief J. A. Johnson, of the switchmen; E. W. Eames, of the trainmen, and W. O. Pettibone, of the engineers, who are now in the city.

A Blasted Snow Storm. HAZLETON, Pa., Dec. 5.—During a snow storm here Saturday night, a shift of snow ran into an express train just below town. The shifting engine was demolished and the tracks were torn up and all traffic suspended for several hours. Beyond a severe shaking up the passengers escaped injury.

Mr. J. P. Blaine, an extensive real estate dealer, of Des Moines, Iowa, narrowly escaped one of the severest attacks of pneumonia while in the northern part of that State during a recent blizzard. Mr. Blaine had occasion to drive several miles during the storm and was so thoroughly chilled that he was unable to get out of his bed for several days after his return. He was treated with a severe case of pneumonia or lung fever.
