Used Mexican Mustang Liniment

FOR 30 YEARS

on Trotting and Stage Horses. DANVILLE, Va., Dec. 4, 1894.

Lyon Mfg. Co., Brooklyn, N. Y. Gentlemen:-I have used your Mexican Mustang Liniment for over 30 years on my trotting and stage horses for all kind of sprains and bruises that horses are liable to, and consider it the best Liniment in use.

I recommend it to all farmers and persons using horses.

T. PAXSON. Formerly of Buffalo Lithia Springs, Va. [Transporter of U. S. mails for 12 years but veen Buffalo Lithia Springs and Scottsburg, Va. Owner of the celebrated trotting horse "Twister." Now proprietor of Hotel Normandie, Danville, Va.)

The Best Preparatory School for Our Boy. and Girls.

As the tine approaches for the taking up of school work again after the summer vacation, the people of Reidsville should bear in mind the fact that the bes preparatory school for our boys and girls is at home The course of study in our Graded Schools has recently been revised with the view of making a direct connection between these schools and the higher institutions of learning, and an arrangement has been effected with the leading colleges of our State by which our graduates will be admitted into the freshman or sophomore classes of said colleges without the usual entrance examinations. Among the institutio's accepting this arrangement are the University, Davidson College, Trinity College, Guilford College, Greensboro State Normal School, Greensboro Female President Shearer of Davidson Colege writes: "I am instructed by our faculty to say that we will admit to try in the world today that does not we the freshman class the graduates of silver money along with gold. your High School in Reidsville with out examination on your certificate of fitness," President Peacock of Greensboro Female College says: 'We are willing in common with the University, Davidson, Salem, etc., to allow your students to enter the class for which they are prepared, on your certificates, without examination. I am glad to do this, and feel confident that all who come from you will be well prepared." So say others.

As the Superintendent stated in his annual report, "No preparatory schools have ever re-eived a stronger endorsement from the institutions above them. The opportunity is now prought to our doors that pupils hitherto bave had to seek abroad. By availing themselves of the thorough preparatory training pro vided in our Graded Schools, the college course of students may be shortened at least one or two years at a saving of from \$250 to \$500." In selecting a first-class preparatory school for your son or daughter, don't ose sight of the Reidsville Graded Schools. None are better.

Horticultural Triumph.

In 1893 a seedling peach tree bore its first crop of peaches in the garden of Mr. W. G. Balsley, of Greensboro ripening up several bushels of the finest peaches ever seen in Greens boro (which is a nursery centre) by June 20th, Nurservman Young's at tention was called to the tree and he at once recognized it as being a seed ing of Counet's Southern Early, which he nad introduced some eight of real money is just about what it is in years ago, and seeing it had all of its | Mexico, nearly all the money of ultimate thirty days ahead of it and with the of the treasury and national banks. very earliest, he at once paid Mr. Balsley \$50 for the buds with the exclusive right to cultivate it, and for two years has sold it exclusively to his retail trade through his agents. Recently J Van Lindley (Nursery man) purchased for \$200 a one half rest in the buds with the privi ege of propagating the same, and they now for the first time propose to offer the buds to other Nurserymen, and expect a tremendous trade, as no energetic Nurseryman will wish to be without such a fine peach

Highest of all in Leavening Power.-Latest U.S. Gov't Report

CARLISLE'S AXIOMS SPOILED.

Republican Newspaper Sees the Secre tary and Goes Him One Better. Mr. Carlisle in one of his speeches de-

livered himself of five so called axioms, which the gold press in the east is circulating as something profound and unanswerable. They are as follows:

1. There is not a free coinage country College, Salem Female Academy, etc. In the world today that is not on a silver basis 2. There is not a gold standard coun-

> 3. There is not a silver standard country in the world today that uses any gold along with silver 4. There is not a silver standard country in the world today that has more than one-third of the circulation

5. There is not a silver standard country in the world today where the laboring man receives fair pay for his day's work.

per capita that the United States has.

We will offset those five with six oth-1. There is not one free coinage country in the world today that is not enjoying unexampled prosperity, the only drawback being a breign debt contract-

ed on the gold basis. 2. There is not a gold standard country in the world today the property of which has not shrunken from 35 to 60 per cent during the last 21 years; not one in which there are not unexampled depression, distress and sorrow. 3. There is not a silver standard

country in the world today that has any

need of gold money except to settle for-

eign balances, and there is not a gold standard country in all the world today that the bulk of all the gold is not locked up in the treasury or in the banks and the people are suffering from "sound money" asphyxia. 4. There is not a silver standard country in the world today where there are any idle deposits lying in the banks, all the money being in active circulation and drawing large interest, and the circulation per capita in the United States

parent's good qualities and ripening redemption being hid away in the vaults 5. There is not a silver standard country in the world today where the laboring man is not receiving full pay and more regular work than he ever received before. There is not a gold country in the world today where a vast proportion of the people are not idle and where wages are above the rates of 1849, except where they have been maintained hy the stubborn persistence of the later

unions 6. There is not a silver standard country in the world today where the people are not doing better than ever before. There is not a gold standard country where the people are not in more dis tress and suffering, more loss and more apprehension than ever before. - Salt Lake Tribune.

Goldite Argument. The Harvey-Horr debate resolved itself into something of this sort toward Harvey-The unit of value is silver,

see act 1792. Horr-You are a liar! Harvey-The volume of money in citulation controls the volume of prices. Horr-You dod bummed liar, you now better!

Horr-You are a liar. Echo from Sherman-Liar Harvey-Times will never improve while we remain on the gold basis. Horr-You are a liar!

Harvey-The act of 1873 was surrep-

titionsly passed and is in fact a crime.
