### LIVE LEAKSVILLE LOCALITIES.

The Small-Pox Scare Not Interfering With Her Progressive Citizens.

A number of gentlemen this week discussed the matter of broad-gauge connection from the Norfolk and Western over the old Danville and East Tennessee survey down to the Norfolk and Western at Spray and Reidsville. This would be a very cheap line, and with the progressive improvements now in contemplation, which will utilize all the great water power on Smith river, would be profitable in freight transportation. With the re-organization of Reidsville, Leaksville and Spray, and a large subscription in stock by a land company, which it is understood can be formed at the intersection with the Norfolk and Western, it is thought that that road will aid the enterprise, should the right steps be taken and the matter be presented in its proper light.

Two negroes, Henry and Bob Miller, escaped quarantined guards at Elton College and reached Mary Miller's home about two miles from here, on last Sunday. They came direct from a family who were exposed to small-pox. Monday Mayor Rainey had them arrested and sent to Reidsville. There is absolutely no danger of the disease breaking out as the place they have been in is under strict quarantine regulations.

The spirit of improvement has struck our town—new sidewalks are being laid down; new dwellings are in contemplation, while the winter breaks up, while at Spray near us, the ground has been staked off for the new cotton mill on the opposite side of the railroad from the Spray cotton mills, and will be of equal size and capacity.

The latest from Leaksville is the organizing of a Young Ladies' Emancipatory Club, which has not been mentioned in this paper. Miss Lottie King is at its head.

Tobacco is now selling much better on this market and the farmers are happy, but the impression prevails that it is being rapidly all sold.

A very enjoyable oyster supper was given Friday night by the Methodist Missionary Society.

E. C. Morrison, the hypnotist, is expected in a few days.

\$100.00 In Gold Given Away.

The youth's Advocate, Nashville, Tenn., a sixteen page illustrated journal—a paper that is read with interest and profit by people of all ages—offers the hundred dollars in gold to the person who will form the greatest number of words from the letters in the name DRAUGHEON. It also offers, free, a bicycle, gold watch, scholarship in almost any business college or literary school, and other premiums. Every person who enters the contest will get a premium of some kind. Send at once for sample copy of the paper, which will explain all. Contest closes April 20, 1898.

### Spray Sprouts.

Mr. Williamson, an ardent sportsman, of West Pittston, Pa., has settled down in Spray for two weeks of good shooting. This can be found in any direction, as is testified by the many hunters who visit this section.

The Spray public school will close its present session today, Friday, by giving an evening of musical and literary pleasure to the public. Mrs. Combs has the school in charge. Miss Lella Harris, of your town, is her assistant.

Bill Bateman, the lucky fisherman and trapper, of Spray, caught a fifty pound beaver last week. This was quite a rare and valuable capture.

L. C. Brown, an insurance man of Florida, is stopping at the Spray Inn.

### The Situation.

The present administration in Spain has all to gain and nothing to lose by a war. If Spain surrenders without a fight, supposing the United States lays down the gauntlet, the present government would fall and the Carlists would come to the front. If Spain fights and gets whipped the Carlists would succeed to what is left. If Spain fights and wins, then the present government would be solid.

Therefore, while there are two chances against us, if the United States forces the issue, Spain can't help from fighting. If the investigation now on shows that the destruction of the Maine was not an accident, the United States must necessarily force the issue. That means a fight—short, sharp and decisive it may be, but a fight nevertheless.

### The Surprise of All.

Mr. James Jones, of the drug firm of Hodges & Sons, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half dozen dollar bottles on her count and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this good work. Try it. Free trial bottles at Sapp's and Allen's drug stores.

### They Have Our Surprise.

Mr. Alty News: "The last issue of the News was printed in a room without a roof and no fire. This issue was gotten out under still worse circumstances. The entire plant has been under water for about thirty-six hours. If it were possible we would not complain, we would not say a word. For fear of losing our temper we shall dismiss the subject right here and only add, 'May God have mercy!'"

### HANCOCK RESERVING HIS FIRE.

Leading His Gun For Governor Russell—Will Ask Impeachment.

The Hancock-Russell row is by no means at an end. In fact the most sensational part of it is to come yet. As intimated last week in the News and Observer's exclusive dispatches from Newbern, the deposed president of the Atlantic and North Carolina Railroad will take the matter before the next Legislature. He will there reiterate the charges preferred in his open letter to the Governor, and ask that body to prepare thereon articles of impeachment.

This Hancock gives as his reason for not having already made public the contents of his statement that the Governor offered to keep him in office if he would assuile Josephus Daniels, editor of the News and Observer. As some third persons are involved, he does not, he says, wish to give out his evidence until he comes into court.

He is now preparing his case for the Legislature and intimates that he will at least make it interesting for His Excellency. This is the news that comes here from Newbern.

A gentleman to whom Hancock's evidence has been submitted tells me that there can be no sort of doubt that Gov. Russell did make the bold, cold-blooded proposition to Robert Hancock, that if he would whip Josephus Daniels he would be retained as president of the Atlantic and North Carolina Railroad, and that if he did not he would be turned out.

This evidence, my informant adds, is such as will convince any fair-minded man of the world of the truth of Hancock's charges. In fact, from the best information that can be obtained touching the matter, Hancock's case is a much stronger one than he makes out in his letter to the Governor.

### Dr. Pierce's

Good temper is largely a matter of good health.

Expert bicyclists have already succeeded in riding a single wheel, a bicycle, for short distances. In fact, as a common mode of locomotion, the bicycle only a few years ago was regarded as a novelty. It is not in the least likely that the world is making rapid progress. To-day a large proportion of people recognize that the consumption of an incurable disease. ### ROYAL BAKING POWDER

Royal makes the food pure, wholesome and delicious.

ROYAL BAKING POWDER CO., NEW YORK.

Not Getting to be Engaged in Any Trading.

The State Democratic convention to meet on the 26th of May will attend to the question of fusion. We do not recall more than one Democrat who has fallen with us in a year who favored a fusion of any kind. We suppose all level-headed Democrats are willing to welcome any co-operation that Populists, Republicans and negroes may be willing to make in behalf of the State's redemption from the worst of rule and ruin. But to invite co-operation and to secure it are quite different. You can do the one with self respect, consistency of principle and regard for the traditions and good name of the grand old party of the people and constitutional government. But if you do the other, if you trade, if you swap, if you once bring your principles and fair name under suspicion, it matters not who does this, the result is the same. Why, then, do you damn with offensive epithets and linguistic explosions the Radicals and Populists who swap and barter and mingle and stand together, and then profess willingness to go into the trading business for political gain or official rap? The Democrats are not going to engage in that business in 1898, and we hope that they may never do so. There are tens of thousands of Democrats who see nothing but degradation and error and evil in fusing and promising and trading. Make a square, hard fight. Throw to the breeze that blow over North Carolina the dupes folds of the old Democratic banner—a pledge and prophecy of honest and economical government—and invite the patriots and freemen of all parties and classes to rally under it and to do battle for it in 1898. In hoc signo.—Wilmington Messenger.

The Coming of Baby.

When a baby comes to the house real happiness comes. The care and anxiety count for nothing against the cheering tones of the little hands and the sound of the little voice. The highest function given to human beings is bringing healthy, happy children into the world. Over thirty years ago the needs of women appealed to Dr. Pierce, now chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. The result of his study improved by thirty years of practice is embodied in Dr. Pierce's Favorite Prescription. It strengthens, purifies and makes healthy the organs distinctively feminine. It gives weak women the strength and health necessary for the production of healthy children and it makes the bearing of those children easy. It is sure to cure any weakness, derangement peculiar to women; stops pain, soothes inflammation, strengthens, purifies, invigorates.

Swart on Butler.

In referring to Senator Butler, Judge Ewart, whose nomination to be judge of the Western District Court the Senator is holding up, says to the Hendersonville Hustler: "Butler has about had his day, in my opinion. His own party is disgusted with his course and will oppose his return to the Senate. Small as it is, the Populist party seems now to be hopelessly divided on various questions, and it calls itself the 'straight out' and the other 'middle of the road' Populists, and there seems little hope for them to again co-operate. This division means Butler's downfall." There can be only two great parties in this country.

Look for Settle.

It has been asserted around Greensboro and in this Congressional District that Hon. Thomas Settle would not be a candidate for the nomination this year, but a gentleman recently from Washington says he thinks it is an error.

According to his information Mr. Settle is laying some new plans to capture the nomination, one of them being the candidacy of Dr. Sheppard, of Durham, and holding a position in one of the departments at Washington.

Some weeks ago it was noted that he would be a candidate. He is a gentleman of color and is reported to have said that his race was entitled to the candidate this year.

But, according to the gentleman above referred to, this is one of Mr. Settle's schemes to secure the nomination for himself, the plan being to let Sheppard go on with his candidacy until the proper time and then deliver to Mr. Settle his following, that is, if he has any and can deliver the goods.

The ex-Congressman can be depended on to get away with his enemies if there is any showing. They made a dead set against him at about this stage of the game two years ago, but he beat them. It is claimed, however, that he could have been defeated for the nomination, but that it was the idea of some of the better plan was to let him be nominated and then defeat him, which was done. It was contended that if not nominated he would bob up as one who had never been beaten and give the party trouble this year.

Whether he will give them any trouble remains to be seen, but it is already evident that he is going to bob up, seriously or otherwise.

A Shattered Nervous System. FINALLY HEART TROUBLE. Restored to Health by Dr. Miles' Nerve.

Mr. EDWARD HARDY, the jolly manager of Sheppard Co's. great store at Braceville, Ill., writes: "I had never been sick a day in my life until I was 30 years old with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I was reduced to a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nerve. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nervous free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.
