

VOL. X, NO 23

RAISING THE ANTE on Wines, Beers and Ales in the war tax will not affect our patrons in the prices that we are selling at. We have a large stock of Fine Old Wines, Ales, Whiskies, Gins, Brandy, Cordials and Spring Waters, of the best foreign and domestic production, that we are still selling at peace prices.

E G Newcomb Adj. Nat. Bank Greensboro, N. C.

MANY BODIES SEEN AFLOAT.

Victims of the Bourgogne Disaster in Waters Around Sable Island. New York, Aug. 2.—The steamship Westernland arrived in this port today and those on board report that when 60 miles off Sable island and within 1 mile of the spot where La Bourgogne went down on July 4, the bodies of 26 men and two women were seen floating in the water. It was a significant fact that almost all of the men whose bodies were floating with lifebelts on were sailors. Passengers seemed to have no lifebelts and therefore sunk.

PARK TROOPS ANXIOUS

All Desirous of Going on New Expedition to Porto Rico.

NO MESSAGES FROM WADE

Impression Prevails at Camp Thomas That the General Will Take With Him the Regiments Best Drilled and Equipped For Active Service.

CHICKAMAUGA, Ga., Aug. 2.—The two main subjects of interest at Camp Thomas at present are the expected arrival of the paymasters tomorrow and the expedition which it is reported is being arranged in Washington for Major General Wade. The paymasters are expected to get in at an early hour tomorrow morning and to begin their work before noon. The payrolls of all the regiments are now complete and there will be little delay in making the payments. The total to be paid will be near \$1,500,000.

PEACE INSTITUTE, Raleigh, N. C.

A famous school for girls. Very thorough and of high grade. Judge Geo. D. Gray, Culpeper, Va., says: "I sincerely believe it is the very finest school of which I have any knowledge." Illustrated catalogue free to all who apply.

BAD WRECK NEAR ATLANTA.

Two Men Killed and Others Seriously Hurt on the Central Road. ATLANTA, Aug. 2.—Engineer Gus Wallace and Fireman Daney Vaughn were killed and Engineer J. J. Green and Fireman W. H. Chambers badly injured in a freight wreck which occurred on the Central road at Fort McPherson.

A train of cars was standing on the sidetrack loading soldiers about to start for camp at Little Springs. The siding was insufficient to hold the entire train, and so the engine with two baggage cars, containing equipment and rations, had pulled to the main track. The block signal at West End should have been turned to protect them, but it is claimed that for some reason the signal was turned to show the track clear for the outgoing train.

When freight train No. 42, bound for Macon, reached the West End station the engineer got the signal that the track was clear, and went ahead at full speed. When near Fort McPherson he discovered that a train was on his track ahead. He tried to stop, but the engine and with a terrific force his engine crashed into the other.

NEW ORLEANS, Aug. 2.—Charles Smith, a private in the immune regiment of Colonel Riche, who was shot by Private Mingle last night while trying to sneak into camp, is dead. Smith had spent the night in frolicking and had overstayed his leave. He raised to halt when entering the camp, but on the contrary started to run. Missy fired and the bullet passed through Smith's lower arm and into his arm. Smith was 25 years of age and a native of this city.

MAON, Aug. 2.—Colonel P. H. Ray, commanding the Third regiment United States volunteers, which has been organized here, has received orders to be prepared to move on a day's notice for Santiago de Cuba. There was great rejoicing among the troops. It cannot be foretold just what day the regiment will leave camp, but according to orders the movement will not be very long delayed.

THE NEW WARSHIP KATSUJI, built at Philadelphia, for Japan, beats her contract time so much that the Japanese are struck on her, and think they will want some more of the same kind.

Two Alabama chairs are reaching out for Gen. Joe Wheeler's seat in Congress. This is taking an unusually bold advantage of a gentleman who is absent attending to important business.

PEACE TERMS OFFERED SPAIN

Official Statement Given Out as to Negotiations For Ending the War.

BAY OF MANILA DEMANDED

Madrid Government Required to Cede All Her West Indian Possessions to This Country Save Cuba and That Island to Be Free.

WASHINGTON, Aug. 2.—The following is an official report given out by authority of the president today as to the terms of peace offered by the United States: In order to remove any misapprehension in regard to the negotiations as to peace between the United States and Spain it is deemed proper to say that the terms offered by the United States to Spain in the note handed to the French ambassador on Saturday are in substance as follows: The president does not now put forward any claim for pecuniary indemnity, but requires the relinquishment of all claim of sovereignty or title to the island of Cuba, as well as the immediate evacuation by Spain of the island; the cession to the United States and immediate evacuation of Porto Rico and other islands under Spanish sovereignty in the West Indies, and the like cession of an island in the Ladrone.

The United States will occupy and hold the city, bay and harbor of Manila pending the conclusion of a treaty of peace which shall determine the control, disposition and government of the Philippines. If these terms are accepted by Spain in their entirety it is stated that commissioners will be named by the United States to negotiate with the Spanish government for the purpose of concluding a treaty of peace on the basis above indicated.

The cabinet met in regular session today and remained behind locked doors over an hour. It was positively stated that no word in any form had come from Spain. For some time past any significance from the front. There was no important action taken so far as the peace negotiations are concerned.

JONES ON FOREIGN POLICY.

Chairman of the National Democratic Committee Heard From. ST. LOUIS, Aug. 2.—Senator James K. Jones, Arkansas, chairman of the national Democratic committee, who was in the city conferring with prominent members of his party, has this to say concerning our foreign policy before he left for New York:

"The United States is pledged to the world that an independent and stable government shall be established in Cuba.

"When I voted for that resolution nothing was said about imperialism. The country cannot afford to go back on its pledge. These are my private views, which I believe are those of the Democratic party. What conditions may arise respecting Cuba, but I have never known a Spanish-American community capable of self government, and it is impossible for us to give Cuba, from Spanish domination we may be compelled to pursue a course which will eventually be in the control of the island.

General Wade Sees Alger. WASHINGTON, Aug. 2.—Major General Wade had a long consultation with Secretary Alger today perfecting the details of the expedition he will lead to Porto Rico to reinforce General Miles. The expedition that will make up this expedition have been practically selected already, though General Wade may suggest some amendment.

War Officials Take Action. WASHINGTON, Aug. 2.—An effort will be made by the war department to ascertain the official at Shafter's headquarters who is responsible for dispatching to the United States transports loaded with soldiers and which are alleged to be unfit for the work to which they are put.

Reed Nominated Once More. PORTLAND, Me., Aug. 2.—The Republicans of the First congressional district held their convention here today. After preliminary business the name of Thomas B. Reed was presented to the convention and he was nominated by acclamation and much enthusiasm.

Some of the papers are asking whether the fusion or not will be Republican Populist fusion. There will be fusion by the Populist officeholders. After an observant man talks five minutes with them he is sure of that. As to the extent of that fusion, it all depends upon the influence, or perhaps power, of a better word, which the officeholders have upon the rank and file of the Populists who will not be again led to fuse, but how may Oxford Ledger.

Skates are now made of glass, the makers having some process by which the glass can be made as hard as steel.

ROYAL BAKING POWDER

ROYAL BAKING POWDER Absolutely Pure

MR. KITCHIN ACCEPTS. Appreciates the Great Honor and Responsibility Conferred Upon Him.

ROXBORO, N. C., July 27, '98. Messrs. J. Crawford Biggs, Jno. N. Wilson, A. L. Brooks, and A. E. Walters, Committee, &c., Greensboro, N. C.:

Gentlemen: Yours of late date informing me that the Democratic convention assembled at Greensboro on 21st inst. by acclamation nominated me to represent this district in the 56th Congress has been received. I appreciate the great honor and also the great responsibility conferred upon me. Being in full accord with our National and State platforms, and believing that a large majority of the people of the district entertain the principles in them declared, and relying upon the earnest and active support of the Democracy, such as was given me two years ago, I confidently believe would favor my reelection by a largely increased majority. Since the last election no thing has occurred to strengthen the Republican party or to weaken ours. On the contrary, the injustice and favoritism of Republican principles have become more and more evident, while the integrity and fidelity of our party to the interests of the great masses of the people have increased its strength.

The Republican National administration has disappointed many of its early supporters, has fortified the single gold standard, has increased the burdens of taxation, and has failed to restore those prosperous conditions to our State which Republican orators assure, and desire.

The prices of the great agricultural products, cotton and wheat, were 25 per cent. higher when President McKinley was inaugurated than they are today.

The Republican National administration has given us examples of incompetence and scandal which would greatly damage a party dependent upon virtue and intelligence for its existence. Under it public offices have been apportioned for political purposes, and the principle of equal opportunity does not sustain, true patriotism does not inspire, and the best interests of the people do not demand.

Appreciating the support which Populists in a spirit of patriotism have given me, and desiring to hold up our hands in the coming contest, we predict victory over the candidate whom the single gold standard party shall name and whom trusts shall support.

With great respect, Yours truly, W. W. KITCHIN.

THE BEST REMEDY FOR FLUX.

Mr. John Mathias, a well known stock dealer of Pulaski, Ky., says: "After suffering for over a week with flux, and in physical distress, I was advised by Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have the pleasure of stating that the half of one bottle cured me." For sale by Sapp, the druggist.

The News Observer says a gentleman writing a private letter from Robeson county says that he has reliable information that Populists are returning to the Democratic fold in great numbers. The putting of so many negroes to the jury, and especially the cases of the previous courts, disgusted many of the most extreme Populists.

SYRUP OF FIGS

NEVER IMITATED QUALITY. THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes its name the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not grip or purge. In order to get its beneficial effects, please remember the name of the Company— CALIFORNIA FIG SYRUP Co. SAN FRANCISCO, CALIF. LOUISVILLE, KY. NEW YORK, N. Y.

PEACE DOVE IN EVIDENCE

Negotiations Looking to Stoppage of the War Under Way.

Probable Terms Discussed. Washington officials stated Wednesday that no formal reply would be made to Spain's peace message until after the regular cabinet meeting Friday. The day was given over to a discussion of the probable terms. Among the many programs advanced, this seemed the most likely of adoption: A demand by the United States that Cuba be freed, the cession of Porto Rico as a war indemnity, cooling stations in the Ladrone and Caroline Islands.

The disposition of the Philippines appeared to be the stumbling block. Some favored holding the islands permanently, while others thought the interests of America would be best served by the retention of nothing more than a coaling depot there.

Cuban Army Ordered Home. Secretary Alger gave orders Thursday for the removal from Santiago de Cuba of all of General Shafter's army as soon as the men, in the discretion of the commanding officer, might be safely brought back to camp on Montanal Point, L. I.

General Miles Takes Pounce. General Miles reported to the war department Friday that the port of Ponce, island of Porto Rico, had surrendered to Commander Davis of the auxiliary gunboat Dixie on Wednesday. There was no resistance and the Americans were welcomed with enthusiasm. The capitulation of the town of Ponce took place Thursday afternoon.

The Spanish ambushed eight companies of the Sixth Massachusetts and Sixth Illinois regiments, but the enemy was repulsed and driven back a mile to a ridge, where the Spanish cavalry charged and were routed by our infantry.

The enemy retreated to Yauco, leaving four dead on the field and several wounded. None of our men were killed and only three slightly wounded.

Cabinet Names Peace Terms. The cabinet Friday discussed the president's answer to Spain's peace proposal and reached the following decisions: The absolute surrender of Porto Rico to the United States and the recognition of the independence of Cuba.

Cession of one of the Ladrone islands to the United States as a cooling station and the cession to the United States of at least a coaling station in the Philippines.

Our Answer Sent to Spain. M. Cambon, the French ambassador in Washington, called at the White House Saturday clothed with full authority to act directly for Spain in the peace negotiations, and was handed the answer of this government to Madrid.

While the text of the reply could not be obtained for publication, the general conditions were: The United States to hold the city of Manila, its bay and harbor, pending the determination of the United States government of the whole Philippine island group.

The absolute cession to the United States of Porto Rico and all islands in the West Indies, save Cuba.

Relinquishment by Spain of sovereignty in Cuba, the United States to exercise control there until a stable government could be established.

Acquisition of a coaling station in the Ladrone islands and perhaps the Carolines.

No assumption of Spain's Cuban or Porto Rican debts by the United States. No war indemnity from Spain. No Cession in the War.

American and foreign diplomats expressed the opinion Sunday that an answer from Spain to the peace terms outlined by this government Saturday and by the French ambassador called upon Madrid could hardly be expected before about Tuesday.

Meanwhile it was stated by Washington officials that there would be no suspension of hostilities except upon the advice of full acceptance of our conditions and as an earnest of this determination orders were issued for an entire army division under General Wade to reinforce Miles in Porto Rico, who, at last accounts, was resting at Ponce.

Merritt Arrives at Cavite. Major General Wesley Merritt, U. S. A., notified the department Saturday of his safe arrival at Cavite, Philippine islands, of the transports and troops under his command.

A dispatch from Admiral Dewey announced that Aguinaldo had assumed a bold attitude of defiance and that it would take a large force from this country to subdue the insurgents.

Merritt About to Strike. General Merritt again called the war department Monday relative to the situation at Manila, which he found very unsatisfactory and dangerous, owing to the attitude of the insurgents.

The general gave notice that he was about to combine with Admiral Dewey in a joint demand for the surrender of the city to the United States forces.

Trinity College Endorsed.

One of the strongest endorsements of Trinity College and its president, Dr. Kilgo, is the following adopted by the Shelby District Conference, of which Rev. W. R. Ware, former pastor here, is Presiding Elder.

Resolved, 1st, That, rejoicing at the large measure of success that has come to our district schools and church colleges, we heartily recommend them to our people as worthy of their fullest confidence, and within the limits of their respective courses; that we heartily endorse the board of trustees of Trinity College, and its president, in their efficient management of our institutions, and we thank Mr. W. W. Washington, Duke and Mr. E. N. Duke for their munificent gifts that are aiding so materially in its development.

2nd, That the origination and circulation of recent slanders upon our college and its president emphasize the necessity that men of known sympathy with such a body be appointed upon its board of trustees, as editors of The North Carolina Christian Advocate, and upon the Conference the rigid requirement of this standard in the men that it shall select for these important positions, believing, as we do, that no institution can live in the hands of its enemies.

Work Gives Up. "I had boils all over my body and I became so weak I could hardly walk. I became reduced in flesh and was obliged to give up work. I began taking Hood's Sarsaparilla and it made me sound and well so that I have been able to resume my work. I now weigh 200 pounds."

CHARLES W. POKE, Brunetown, Va. Hood's Pills are the only pills to take with Hood's Sarsaparilla. Be sure to get Hood's.

Not on Top Yet! The negro isn't on top in North Carolina, but if Congressman White (black), of the First District, can carry out his game as he announces it, the negro will be on top. He invites the race issue, and declared in the party, of which they constitute about three-fourths, White and other colored agitators feel increased their demands until they get as much as they think they are entitled to.

They don't make any bones about drawing the color line and drawing in tight. North Carolina is not the only State where this assertive, aggressive disposition is shown, and this is significant in view of the fact that North Carolina now has in office more negroes than all the other States in the Union combined. If they succeed in defeating the Democratic party at the coming election there will, as White threatens, "be more of them."

Butler Wants a Straight Fight. The Caucasian has received a large number of letters from every quarter of the State asking what is the best course for the People's party to pursue in this campaign since the goldbugs and railroad attorneys captured the Democratic State convention and refused our fair proposition for a co-operation against gold and monopoly as advised by Bryan. To all of these questions the Caucasian unhesitatingly answers the best course for the People's party (which is the only party in the State that is honestly for silver and against monopoly domination of the Legislatures) is to make a straight fight against both of the old monopoly ridden parties, which have proven that they are no better than they were in 1892.—The Caucasian.

It is a painful sight to see an old man limping along on a crutch from rheumatism. Rheumatism is a disease that will never attack a man who keeps his blood pure and rich. It is just one way to this. That is, to keep the digestion and assimilation perfect and the liver and bowels active.

It does not make soft orders of the digestion, corrects all weakness of the stomach. It makes the assimilation perfect, the liver active, the blood pure and rich with the life-giving elements of the food, the nerves strong and steady, and it drives all impurities and abnormal matter from the blood. It kills inflammation and dispels pain. It is the great blood-maker and flesh-builder. It does not make soft orders of the digestion, corrects all weakness of the stomach. It makes the assimilation perfect, the liver active, the blood pure and rich with the life-giving elements of the food, the nerves strong and steady, and it drives all impurities and abnormal matter from the blood. It kills inflammation and dispels pain. It is the great blood-maker and flesh-builder. It does not make soft orders of the digestion, corrects all weakness of the stomach. It makes the assimilation perfect, the liver active, the blood pure and rich with the life-giving elements of the food, the nerves strong and steady, and it drives all impurities and abnormal matter from the blood. It kills inflammation and dispels pain. It is the great blood-maker and flesh-builder. It does not make soft orders of the digestion, corrects all weakness of the stomach. It makes the assimilation perfect, the liver active, the blood pure and rich with the life-giving elements of the food, the nerves strong and steady, and it drives all impurities and abnormal matter from the blood. It kills inflammation and dispels pain. It is the great blood-maker and flesh-builder. It does not make soft orders of the digestion, corrects all weakness of the stomach. It makes the assimilation perfect, the liver active, the blood pure and rich with the life-giving elements of the food, the nerves strong and steady, and it drives all impurities and abnormal matter from the blood. It kills inflammation and dispels pain. It is the great blood-maker and flesh-builder. It does not make soft orders of the digestion, corrects all weakness of the stomach. It makes the assimilation perfect, the liver active, the blood pure and rich with the life-giving elements of the food, the nerves strong and steady, and it drives all impurities and abnormal matter from the blood. It kills inflammation and dispels pain. It is the great blood-maker and flesh-builder. It does not make soft orders of the digestion, corrects all weakness of the stomach.
