FUSION OR CO-OPERATION.

Some Newspaper Views on the Alliance of Two Political Parties.

Charlotte Observer. "The People's party was desirous of co-operation with the Democrats in this campaign to secure a victory for the white man and the white metal, and made them a proposition to this effect which was turned down by the Clevelandites and McKinley Democrats who controlled the recent Democratic State convention and captured the organization of the party."

And this made the traders of the People's party so mad that they straightaway went off and got up a "co-operation" with the Republicans in order to beat the white man and the white metal and secure a victory for the gold-bugs and the negroes.

The reason nine out of every ten Populists give for fusing with the Democrats this year, is that Democrats rejected the offer to fuse with them. In making the offer to fuse with the Democrats they admitted that the Democratic national platform were very nearly agreed, and they admitted that it was wrong to continue the negro in authority over the whites in the eastern counties.

The attitude of the Democratic party well known to the Populists. Now, as in the past, it stands ready to advocate all reforms that are wise and feasible, to correct whatever abuses appear, to avert whatever dangers threaten.

The time has come when Populists and those between their leaders and their principles.

Whatever the decision of Populists may be the Democratic party will keep up the fight against usurpation of the rights of the citizen by centralized power an aggregate vote on the issue before the American people.

Had Typhoid Fever. "My system was very much run down by typhoid fever, I began taking Hood's Sarsaparilla and the effect was most invigorating. It gave me a new lease of life, and I have enjoyed good health ever since taking it, and have been able to follow my usual business."

Hood's Pills cure nausea, sick headache, biliousness, indigestion. Price 25 cents.

Expansion. From Senator Teller's speech to the Colorado Silver Republican Convention held at Hillsboro Saturday the following significant resolutions were passed:

"Resolved, first, That we most respectfully request the powers that arranged co-operation to allow us in this Senatorial district a Republican candidate, also a 'true' Republican candidate for the Fifth Congressional district.

"Resolved, second, That we pledge the support of the Republican party of Orange county to the Hon. Spencer B. Adams for Judge, and hereby instruct our chairman and county executive committee to place no other 'Adams ticket' in Orange.

"Resolved, third, That we denounce the powers that be for using their influence to thwart the will of the people in the Fifth Congressional district and their effort to humiliate and defeat that gallant fighter of Democracy, the true and tried Republican, Hon. Thomas Settle."

SYRUP OF FIGS. NEVER IMITATED IN QUALITY. THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only.

"CONTEMPTIBLE PIE HUNTERS." This is What Butler Called Those Who Favor Co-Operation in 1897.

ROYAL BAKING POWDER. The Royal is the highest grade baking powder known. Actual tests show it goes one-third further than any other brand.

A Word to Populists. The campaign hand book just issued by the Populist committee cuts out in a measure the work the Populist leaders propose to themselves in the coming campaign.

The plan of campaign is to abuse the Democratic party, to drag out all the silly old tales that have done service in the past, and add to them such officers as Republican allies may suggest and as circumstances may permit.

When Dr. R. V. Pierce, of Buffalo, N. Y., published the first edition of his great work, The People's Common Sense Medical Adviser, he announced that after 480,000 copies had been sold at the regular price, \$1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would give the next 480,000 copies away free.

A Great Book Free! William D. Bynum, of Indiana, has resigned as chairman of the Democratic gold standard committee. Referring to his reasons for resigning, he said: "I resigned the position of chairman of the National Democratic Committee for the reason that I felt that the organization had served its purpose and could not accomplish a reunion of the two wings of the Democratic party."

Adams Makes no Denial. Milton Herald. We have waited patiently, hoping to see a denial of the charges against Judge Adams at Columbus, we have eagerly waited—but in vain.

He's Seen It. Mr. John P. Kerr, editor of the Asheville Citizen, writing to his paper from Wilmington says: "If our western people could see what I have seen during the past week, and hear their white brethren talk as I have heard them talk of the actual destruction of their social and business affairs, not a white man would vote the Republican ticket in November, unless he thought it more desirable to hold a party political office than that his State should be prosperous and happy by being ruled by the people who have her happiness and prosperity at heart."

Is She Your Daughter? Have you a young daughter just at the age when young girls must need a mother's loving care? If she suffers from any weakness of the delicate organism which most intimately concerns her womanhood?

No living physician has a wider practical experience or a higher reputation in the treatment of diseases peculiar to women than Dr. Pierce's Favorite Prescription. It is the only proprietary remedy ever designed by an educated anatomical physician specifically to cure women's diseases.

A stitch in time saves nine, but nine can be taken in no time on a sewing machine. The man who tells you that all men are equal really believes that he is a little more so.

Discovered by a Woman. Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent.

A Serious Question. The issue involves the supremacy of the White Race—To Refuse to Postpone. Winston Sentinel. Capt. Bob Glenn is doing yeoman service in behalf of the cause of good government by his forceful speeches in the eastern part of the State. His observations in that section will enable him, upon his return, to bear testimony to the deplorable condition that exists in the East because of fusion misgovernment.

The people of this section have heard of the humiliating state of affairs in the eastern counties, but there may be a suspicion that these things have been exaggerated for campaign purposes. Men have been sent there to find the truth and their testimony will be similar to this, and it will be his privilege to present the sad condition, with burning words of eloquence, to the people of his own section and plead with them to remove the pall which hangs over the East and will be extended to the West, unless the voters shall arise in their might and hurl from power the party that is responsible for its existence and which is willing to continue and intensify the disgrace and humiliation in order that its leaders may fare sumptuously at the pie counter.

What Marion Butler said in his paper, the Caucasian, in February, 1897: "THE CO-OPERATION OF THE POPULISTS AND REPUBLICANS IN THE STATE HAS BEEN A DISMAL AND DISASTROUS FAILURE. ONLY THE CONTEMPTIBLE PIE HUNTERS SEE ANY GOOD IN IT."

What Marion Butler said in the Caucasian in what would be every decent man in North Carolina believes now.

Judge Adams in Reidsville. Reidsville, Sept. 17.—Judge Adams, the Republican nominee for Congress in this district, arrived in the city today and at once had a conference with the Republican bosses.

Judge Adams is also taking a hand in fixing up a fusion deal between the Republicans and Populists. The Populists hold their county convention on the 29th inst., and Judge Adams is bending all his energies to get them to endorse him.

A farmer in the Talley community has a flock of hens which are round about a sawmill, and consequently eat a large amount of sawdust during the day. One of the hens recently stole a nest beneath a pile of lumber on a nearby pile of sawdust and soon there was a deposit of a baker's dozen of fine yellow eggs. They looked a little peculiar, so the man determined to watch them.

We have waited patiently, hoping to see a denial of the charges against Judge Adams at Columbus, we have eagerly waited—but in vain. Only two attempts have been made in his behalf, and they were virtually no denial; the only one of importance we published two weeks ago, and that was no denial; a friend writing in behalf of a friend. But on the other hand, there have been many confirmations of the statement made by the Columbus News.

With the report sustained and no denial having been made, there is but one conclusion to be reached, and that is, that the report must be true. And, being true, we will let our readers form their own conclusion. We will only ask that our people lay aside all party lines and make a comparison between the two Congressional candidates. On one side you have a man against whom no charge can be brought, even by his enemies; a man whose past is clear as his future is bright; while on the other hand you have a man whose record is—but we feel that a comparison is useless; we know that our people will show by their votes that they want a man to represent them whose past is confidence in and whom they would trust as a friend.
