COAL MINERS STRIKE

The Great Struggle of the Mine Workers Has Begun.

BOTH SIDES EXPECT TO WIN

President Mitchell Says That in the Anthracite District 112,000 Miners are Idle—The Strikers are Quiet.

Hazleton, Pa., Special.—The great struggle between the anthracite coal miners of Pennsylvania and their employers was begun Monday. Each side is confident of winning and neither of the contending forces shows any disposition to yield. With the exception of a trivial incident at No. 3 colliery, of the Lehigh Coal Company, where a gang of boys compelled a mule driver to seek cover by throwing rocks at him, the contest thus far has been entirely devoid of violence of any kind. The exact number of men who struck cannot at this time be told, as only estimates of the number of men who did start work were made. Reports received by the United Mine Workers officials from the entire anthracite region were considered by them most satisfactory. In this territory, known as District No. 7, there are 16,000 men employed in and about the mines. Of this number it is conservatively estimated that about 50 per cent, or 8,000 miners obeyed the order of President Mitchell to quit work.

Hazleton presented an animated appearance. Strikers from all the surrounding mining towns came here early in the day and gathered in groups on the street corners and discussed the situation. It was a most orderly crowd. Around strike headquarters at the Valley Hotel, there was more or less of a crowd of men all day. President Mitchell, who arrived from the West was kept busy all the morning and evening receiving reports from every section of the mining district. Messengers bringing information to him from nearby points kept coming regularly.

President Mitchell gave out the following statement: "Information received up to this time indicates that 112,000 mine workers are on strike in the anthracite region. Of this number 72,000 are in District No. 1; 50,000 in District No. 9, and 10,000 in District No. 7.

Official Report.
Austin, Tex., Special.—Governor Sayers has received the following official report from Mayor Jones, of Galveston, as to conditions there: "Galveston, Texas,

"Hon. Jos. D. Sayers, Governor: "After the fullest possible investigation here we feel justified in saying to you and through you to the American people that no similar disaster has overtaken any community or section in the history of our country. The loss of life is appalling and can never be accurately determined. It is estimated at 5,000 to 8,000 people. "There is not a home in Galveston that has not been injured, while thousands have been destroyed. The property loss represents the accumulations of 60 years and more millions than can be safely stated. Under these conditions with 10,000 people homeless and destitute, with the entire population under

HON. F. M. SIMMONS

Issues a Card Announcing His Candidacy For The Senate.

HIS POSITION ON PUBLIC QUESTIONS

His Time Will Be Mostly Occupied By His Duties as State Chairman—His Candidacy in the Hands of His Friends.

To the Democratic Voters of North Carolina:

More than a year ago, in reply to a letter written to me by the editor of the Asheville Citizen, inquiring whether I would be a candidate for the United States Senate to succeed Marion Butler, I stated that I was a candidate and would be profoundly grateful to the voters of my party if

announcement of my candidacy, but letters of inquiry upon this subject recently received would seem to make it proper for me to again make the announcement of my candidacy before the primaries to be held on the 6th day of November.

As chairman of the Democratic Executive committee, my first duty will be to the party, and from now until the election in November I shall devote my time almost exclusively to the work of aiding the election of Bryan and Stevenson and the Democratic nominees for Congress. I shall, therefore, have but little time to devote to the promotion of my own interest. After the campaign is thoroughly organized, I may be able to make a few speeches, but they will be made for the party and its nominees.

Under these circumstances, I commit my cause to my friends and supporters in the different counties and precincts with entire confidence that they will not permit it to suffer from neglect, either in the canvass or at the polls. If their efforts are in vain, I shall

they should see fit to elect me to that exalted position. My reply to the Citizen was not only published in that paper, but was generally copied by the press throughout the State.

This declaration, together with the general understanding that I was a candidate, I had supposed would preclude the necessity of any further an-

be none the less appreciative. If they are rewarded with success, I cannot better attest my gratitude than by bringing to the discharge of the duties that will devolve upon me all the virtues of head and heart I may possess.

Very respectfully,
F. M. SIMMONS.

a stress and strain difficult to realize, we appeal directly in the hour of our great emergency to the sympathy and aid of mankind. "Walter Jones, Mayor; R. R. Hawley, Members of Congress, Galveston District; McKibben, Commander Department of Texas."

The information reaching here from an official source, states that reports of promiscuous shooting of vandals at Galveston has been exaggerated.

News Notes.
Andrew Carnegie has promised Greenock, Scotland, \$25,000 for a library.

Russia has asked prices for 20,000,000 feet of lumber from Washington State.

London's Aid for Galveston.

London, by Cable.—In the morning papers appears a letter signed by the Barings, Rothschild, Speyers, and Brown, Shipley — Company, in which these houses offer to receive subscriptions in aid of the Galveston sufferers, and to forward them through the New York Chamber of commerce. The Barings and Brown, Shipley & Company contribute each 100 pounds sterling, and the Rothschilds and Speyers each 525 pounds sterling.

The War Renewed.

Manila, by Cable.—There are rumors of attacks on the railroad and of trouble in Manila. Refugees are arriving panga shrdlu cmfwyp vbqkj xzhffim here from Laguna, Morong, and Pampanga provinces. The natives of Manila are restless and many are leaving the city. The hostile demonstrations are particularly marked along the railroad and along the shores of Laguna de Bay. The insurgents have attacked garrisons and outposts. In some cases they have charged towns, fleeing when pursued.

Normal Conditions Being Rapidly Restored, But Much Yet Remains to be Done.

Galveston, Texas, Special.—Normal conditions are fast being restored in Galveston. The work of clearing the streets of debris continues unabated and all relief work is now thoroughly systematized. Several human bodies were found Wednesday. No attempt was made to identify them, and they were immediately cremated. John Sealy, the chairman of the finance committee, made the following statement:

"An inquiry as to the funds is pertinent, and the public should be informed. In the first place I am not paying out any money to any one except on the order of Wm. A. McVite, chairman of the relief committee. What we are looking after now is the immediate relief of those in distress and furnishing clothes, food and the payment of the men who are working on the street, cleaning up the debris and burning the dead bodies. On the 18th instant we began paying these men \$1.50 per day and furnishing supplies for their families. Men who are not working and who cannot show tickets to the effect that they have been employed get no supplies. The question of the judicious distribution of all funds will be taken up by the central committee and a plan worked out for the best interest and benefit of all. Each member of the committee has under consideration some suggestion and a general plan will be perfected at an early date.

"A full record of every subscription has been kept, which I will publish in due time, in connection with the lists Governor Sayers has received at Austin. The Governor and I think best not to publish these lists until matters are more settled. I am ready at any time the Governor advises to publish the entire list. The mayor is turning over to me all moneys he receives. Everything is working with perfect system, harmoniously and intelligently between the officials and the different committees. The Governor has aided us greatly with his zeal and interest in our trouble."

"The report that Miss Clara Barton is ill and that she has been compelled to leave is an error. She is indisposed, though not seriously so, and remains in her room, but she is directing the work of her assistants. A system has now been inaugurated and the work is progressing smoothly in conjunction with the local relief committee. The Red Cross Society has arranged to use the warehouse at Twenty-fifth and Strand as a supply depot and office. Herbert Talmadge, of Miss Barton's staff, will supervise the shipment of supplies.

Dr. Donaldson, chief surgeon of a New York newspaper corps, says it will not be necessary for visitingsurgeons to remain here for more than two or three days. He has written an article for a medical journal commenting upon comparatively small number of seriously wounded persons by saying that most of those so wounded were drowned, but says it is surprising that more people, especially women and children, did not become ill from such trying experiences.

Efforts are being made to open the public schools on October 1st, the date set before the storm for their opening. Three of the school buildings can be made habitable at slight cost. The losses to the life insurance companies are estimated at \$500,000. Most of those who carried old-line life policies escaped. The fraternal orders will lose quite heavily.
