We will tell you anything that you wish to know about good Clothes, if you write us.

**RANKIN, CHISHOLM, STROUD and REES,**  
FINE CLOTHING AND FURNISHING.

300 South Elm St., Greensboro, N. C.

### IT CAN TRUTHFULLY BE SAID.

That a nursery is known by its fruits. I introduced the Connet's Southern Early Peach, 15 years ago, and after getting reports from them over a large extent of country, I feel proud of the fact that I introduced them. There are quite a number of new peaches introduced every year. After the first announcement the majority of them are never heard of, as they were probably introduced for the purpose of selling a new variety at an advanced price, and were either some old variety with a new name, or else not adapted to general cultivation. I would be pleased for my friends and patrons to look out for the Greensboro and Connet this year and let me know how they succeed in their section.

JOHN A. YOUNG,

Prop. Greensboro Nurseries,  
GREENSBORO, N. C.

## How to Determine

The kind of Mantels you will purchase, first send for our large catalogue "F" which you will need to aid you in selecting designs, and determining about the finish. This large catalogue is a very expensive one and we can't afford to send it broadcast to persons who may order it through idle curiosity or simply to get a lot of very handsome pictures free. But if you are interested it will only be a pleasure to send you this catalogue for the asking. Will also answer any questions you may ask.

Yours for Business,

# McCLAMROCH BROS.,

THE EXCLUSIVE MANTEL PEOPLE.

Shropshire and Dorset Sheep out of Imported Ewes by Imported Bucks. Best Bred Black Essex and Red Jersey Pigs. Best Strain Registered Jersey Cattle. Royal Bred Coits and Fillies, Fine as Split Silk.

EVERYTHING GUARANTEED AS REPRESENTED.

YOU GET PEDIGREED STOCK IF YOU BUY OF US. Address OCCONEECHEE FARM, Durham, N. C.  
Families Supplied on Very Round Contract with "OCCONEECHEE Gilt-Edge" Butte.

# Skin Diseases

When the excretory organs fail to carry off the waste material from the system, there is an abnormal accumulation of effete matter which poisons and clogs the blood, and it becomes **acid**. This poison is carried through the general circulation to all parts of the body, and upon reaching the skin surface there is a redness and eruption, and by certain peculiarities we recognize Eczema, Tetter, Acne, Salt Rheum, Psoriasis, Erysipelas and many other skin troubles, more or less severe. While the skin is the seat of irritation, the real disease is in the blood. Medicated lotions and powders may allay the itching and burning, but never cure, no matter how long and faithfully continued, and the condition is often aggravated and skin permanently injured by their use.

## The disease is more than skin deep; the entire circulation is poisoned.

The many preparations of arsenic, mercury, potash, etc., not only do not cure skin diseases, but soon ruin the digestion and break down the constitution.

S. S. S., nature's own remedy, made of roots, herbs and barks, of great purifying and tonical properties, quickly and effectually cures blood and skin troubles, because it goes direct to the root of the disease and restores normal, healthy action to the different organs, cleanses and enriches the blood, and thus relieves the system of all poisonous secretions. S. S. S. cures permanently because it leaves none of the original poison to reform in the blood and cause a fresh attack.

Healthy blood is necessary to preserve that clear, smooth skin and beautiful complexion so much desired by all. S. S. S. can be relied upon with certainty to keep the blood in perfect order. It has been curing blood and skin diseases for half a century; no other medicine can show such a record.

S. S. S. contains no poisonous minerals—it is purely vegetable and harmless.

Our medical department is in charge of physicians of large experience in treating blood and skin diseases, who will take pleasure in aiding by their advice and direction all who desire it. Write fully and freely about your case; your letters are held in strictest confidence. We make no charge whatever for this service. Our book on Blood and

Skin Diseases will be sent free upon application.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

## SOUTHERN COTTON MILLING.

### Newsy Notes Concerning the Manufacturing Industry.

#### Another Big Mill for Cleveland.

A deal involving many thousand dollars which has been pending for several months has been consummated, and Cleveland count will soon boast the addition of another big cotton mill to her already large list of industrial enterprises. Messrs. John F. Schenk, of Lewandale, and Capt. Joseph G. Morrison, of Lincoln county, have purchased from Dr. and Mrs. R. H. Morrison the magnificent shoals and water-power known as Steve's shoals, and situated on Broad river, about seven miles south of Shelby. The location is an admirable one for a cotton mill, being within about three miles of the South Carolina and Georgia Railroad, with splendid building sites, well drained. The purchase price for the shoals, together with 300 acres of land was \$9,100. Messrs. Schenk and Morrison propose to organize a stock company with a capital of \$100,000 and hope to be able to begin work by January 1st, at least.

#### Will Build in Georgia.

The appeal in the case of E. J. Pelzer et al., against the Pacolet Manufacturing Company, has been with drawn by Messrs. Mordcaid & Galsden, and the Pacolet Manufacturing Company will now take steps towards building a branch cotton mill at Gainesville, Ga. Some time ago it will be remembered, the Pacolet Manufacturing Company decided to invest its surplus earnings in a cotton mill near Gainesville, Ga., but Mr. Pelzer and several other stockholders protested and commenced proceedings against the company from carrying out its plan, claiming that a company chartered under the laws of this State did not have a right to engage in business in another State. The question was argued before Judge Aldrich at Greenwood some time ago, and he decided in favor of the Pacolet company. The plaintiffs gave notice of appeal, but a few days ago decided not to fight the case and withdrew the appeal.

#### Conference Agreement.

A special to the Charlotte Observer from Philadelphia, dated October 4, says: The conference between the Southern Cotton Spinners' Association and the cotton yarn dealers in this city was concluded with the adoption of a new schedule of prices. The meeting was devoid of any contention, and the schedule is said to equally satisfy both spinners and dealers. The new prices are about 10 per cent. increase all around over last year's figures, and they were based on the present condition of the cotton market, which seems prosperous enough at this time to permit an increase from 6 to 7 cents per pound for manufactured warp over current prices of raw material. The schedule is so arranged as to meet further increase or decrease in prices in the cotton market. The Southern delegates left for their homes immediately after the schedule was adopted.

#### Textile Mill Matters.

The Liberty Cotton Mills, reported during past week as incorporated, will put in 6000 spindles and 200 looms; building is now being erected; J. P. Smith, president.

Work on the new Barker Cotton Mills, of Montic, Ala., is going ahead at a very satisfactory rate. The roof is being placed over the main building and will be finished in a few days. Part of the machinery has already been erected and additional shipments are coming in every day. It is expected that the mill will be making cloth about the first of November.

Work on the construction of the new Woodruff Cotton Mills of Woodruff, S. C., was begun on Wednesday by the contractor, J. W. Cagle. The site for the mill has been completed. The construction of the mill at present is under the supervision of O. R. Cagle.

The new Edgemont Cotton Factory, near Durham, N. C., is now nearing completion and the officers of the company expect to be installing machinery at an early date.

The John P. King Mfg. Co., of Augusta, Ga., will resume operations on Monday next. This mill has been shut down several weeks in order to make necessary repairs to the plant.

## ENGLAND FOLLOWS.

### Issues Instructions to Sir Mc-

Donald.

### SIMILAR TO CONGER'S ORDERS.

### Punishment of Chinese Ringleaders a Flatter That is Apt to be Rigorously Looked After.

Washington, D. C., Special.—The British government has followed in the footsteps of the United States in the Chinese negotiations. It has authorized Sir Claude MacDonald, the British minister at Peking, to enter into relations with the Chinese officials, just as our government did in the case of Mr. Conger. It has left to its ministers discretionary power to pass upon the sufficiency of the credentials of Li Hung Chang, Prince Ching and the other Chinese envoys. Although the formal response to the last German proposition has not been returned by Lord Salisbury, the United States government has been intimated that, though such answer may not be made at all, being unnecessary in the light of the recent developments, yet Sir Claude MacDonald will be instructed to make the same inquiries relative to the punishment of the Chinese ringleaders, that have been committed to Mr. Conger.

### American Bankers.

Richmond, Va., Special.—At the closing session of the American Bankers' Association the "Financial Future of the United States," "The Internal Revenue Law," "Public Opinion and Bankers," and "The Education of a Banker" were discussed. The leaders in the discussion of the several topics being respectively: Charles A. Conant, New York; a member of Congress; Alfred C. Barnes, President Astor Place Bank, New York; J. A. S. Pollard, Cashier, Fort Madison Savings Bank, Fort Madison, Iowa; and George Hague, General Manager Merchants' Bank of Canada, and delegate Canadian Bankers' Association.

The association confirmed the officers chosen by the committee as follows: President, Alvah Troybridge, President of the North American Trust Company, of New York, the present vice-president of the association.

Vice-President, Myron T. Herrick, President of the Society of Savings, of Cleveland, Ohio, the present chairman of the executive committee.

Chairman of the Executive Committee, Caldwell Haray, President of the Norfolk National Bank, of Norfolk, Va.

Vice-Presidents were elected from all the States and Territories. Two of them were placed in nomination for the next session of the association. They were Buffalo and Milwaukee, the former city being represented by Colonel W. C. Cornwell, and the latter by Mr. F. G. Bigelow. The question was referred to the executive council, which will decide at the meeting to be held next spring.

The executive council was empowered to appropriate \$5000 to the Galveston Relief Fund.

A resolution declaring in favor of putting the coinage law in effect after 1911, was adopted after long discussion.

Through a misunderstanding the executive council for that the association intended the proposition for a Federal department of commerce and industries. The council was in fact not to send out a circular on that point to the President, members of the cabinet and members of Congress.

After the adoption of appropriate resolutions of thanks, Mr. W. R. Teleg, who has been elected vice-president for Virginia, spoke, urging that the convention be held here next year. After his remarks the convention adjourned sine die.

Immediately following the adjournment the executive council convened and elected Col. James R. Branch for secretary of Richmond, secretary, and Mr. George M. Reynolds, of the Continental Bank of Chicago, treasurer, both resigning themselves.

These matters being disposed of the council went into the consideration of unfinished business.

### England Denounced.

Cape Town, By Cable.—The Presbytery of the Dutch Reformed Church, by a vote of 23 against 4, adopted a resolution strongly condemning Great Britain's policy in South Africa. The chairman, Rev. Mr. Stutterin, in the course of a vigorous speech, declared that he was only bound under compulsion, and did not care who knew it.

### Cotton Goods Advance.

Philadelphia, Special.—The conference between committees representing the Southern Cotton Spinners' Association and the Yarn Merchants' Association with reference to a revision of prices for yarn Thursday, completed their work. An increase of 6 and 7 cents a pound was decided on. Following is the new schedule of prices for the various grades: Ply yarn numbers—4-8, 15-24; 9, 10, 16-14; 12, 16, 1-2; 14, 17-12; 16, 18, 18-12; 20, 20, 22, 20-1-2; 24, 21, 25, 21-1-2; 28-21-2; 30, 25-1-2; 36, 28, 40, 30. Slack yarn numbers—8-10, 17-1-2; 12, 17-3-4; 16, 18-1-2; 16-1-2; 18, 18-1-2; 20, 20-1-2; 22, 21; 25, 22; 30; 23-1-2; 26, 27; 40, 30.

## ARE TOO INDEFINITE

### Terms Offered Striking Miners Not

At All Satisfactory.

### TOO MUCH ROOM FOR EVASION.

### Offer of 10 Per Cent. Increase Means Practically Nothing to the Miners in Its Present Shape.

Hazleton, Pa., Special.—As was generally expected, the concessions offered to the striking miners by the individual coal operators, A. Pardo and Co., have been without the slightest effect in inducing those of their men who are on strike to return to work.

The concessions are identical with those offered by the Lehigh Valley and the other big coal companies and are entirely too vague and unsatisfactory from the miners' point of view. While a net increase of 10 per cent. is offered, it is not stated for what length of time or whether on a permanent or a sliding scale. The same complaint of vagueness is made against the promised reduction in the price of powder. No fixed price is promised, and the offer that powder will be sold to miners for \$1.00 a keg and that the difference between this rate and the old rate of \$2.75 shall be taken into account in figuring the net advance of 10 per cent., the miners say, admits of too many different interpretations and juggling to be at all satisfactory. What they want and probably will get is a plain, straightforward proposition on the part of the operators and companies which cannot be misinterpreted, and which in every way definitely fixes terms and dates.

President Mitchell reiterated, in so many words, that an offer emanating from only a single firm cannot be considered and no action would or would be taken by him or his colleagues until all the operators and companies had offered terms of settlement. Still, although no definite declaration to this effect has been made a settlement of the strike is likely to be made very shortly. A number of local firms have already chosen delegates to the convention which is to be held soon, and this is a most significant step, despite the fact that union officials say that it was entirely premature. Otherwise there was no notable change in the strike situation here.

Only one demonstration of violence took place and that occurred at an early hour in the morning at the Lattimer colliery of A. Pardo and Co. This colliery has been working almost full handed. The subjugation of the men working at this plant was determined on several times and riots were made, but were prevented by L. A. leaders. However, the place was carried by a large display of force and strategy combined, which was not without its amazing features.

The colliery office is situated at the extremity of a long and narrow lane, flanked by the houses occupied by the miners of the company.

Down the street and directly toward the steps and office, one man marched straight toward with a band of twelve men headed by "Mother" Jones. A large number of the crowd, Mother Jones began addressing the crowd, and he attracted the attention and police officers who left the colliery and stopping, examined the faces of the men, almost immediately.

While this was going on a crowd of at least 200 men, perhaps 1000, had quietly proceeded to a position back of the workings. Suddenly while the attention of the police and deputies was attracted by the occurrences at the office, the second crowd swooped down upon the workings and proceeded upon the men to go out. They scattered like a flock of sheep and did not return to work, so the plant had to close down for the day at least. Whether it will be to resume or not is not known.

### May be Sent to the Bene.

Washington, D. C., Special.—The battleship Texas is about to be passed upon by a board of survey at Norfolk, to determine whether it is worth while to spend any more money on this obsolete type of ship. If the commanding can be brought into reasonable limits, it is probable that it will be authorized, but if the sum required is large the vessel practically will retire from service.

### In the Hoosier State.

Indianapolis, Ind., Special.—William J. Bryan began his day's campaign in Nobleville, Ind. He arrived at 8 o'clock and spoke from a stand near the depot for fifteen minutes. His audience numbered 800 people, who were liberal with their applause. Mr. Bryan rapidly traced the Democratic position on all the issues of the campaign. He said that the duty of the nation is determined by the people, and that if each man will do his full duty conscientiously next November, the country's duty in the present emergency will be properly indicated.

## Why Wait Until Everything Else Fails Before Trying Mrs. JOE PERSON'S REMEDY?

When my little girl was three months old, there appeared a little red spot on her face, something similar to ringworm, which afterwards spread over her cheek, then it began to come out in different places, all over her body. When the child was nearly a year old, she began to scratch herself, and we could do nothing to relieve her suffering. She scratched, bled and cried nearly all night long. We tried all the remedies friends would suggest. We had the best physicians to prescribe, but to no avail. The child only grew worse, and for several months it seemed that we must give up our darling child. Her suffering was so intense that it took nearly all of my time, especially at night, to wait upon her. The sheets would be covered with blood and scabs every morning, and it was a pitiful sight to look at the poor, suffering little girl. My life was darkened beyond description, and I was unfit for business. Finally, one of the ablest physicians in North Carolina who had been attending the child, told me to use Mrs. Joe Person's Remedy, as a last resort. I used one bottle, and the child grew much better, but again she got worse and then I became discouraged and stopped it. Mrs. Joe Person visited us and insisted on our using the Remedy longer. The doses were so small for a young child, that one bottle lasted long enough to try my patience, and I did not agree to return to the Remedy, but began it again. After using five bottles of the Remedy and several packages of the Wash, our child was entirely cured, without a single scar. I must say just here, that the Wash was a little painful at first, but after using it a few times, the child seemed to enjoy it. The child was 2 1/2 years old when cured. We are now happy and can truthfully say, we have a healthy and pretty a child as can be found in North Carolina. All praise to God and Mrs. Joe Person.

Elou College, N. C., Feb. 14, 1900.  
The name of above writer will be given, if requested, by The Reidsville Review, or Mrs. Joe Person, Kittrell, N. C.

## Always Special!

Special sales seem to be the order of the day, but if you have ever stopped to think of our sales are always special so far as quality of goods and price is concerned. The fact is you can buy at special prices all the year round. Economy in such immense quantities that we can sell very cheap and still preserve a good bank account. But what do you care about our bank account if you get more goods for less money than you can buy elsewhere.

## Do You Wear Shoes?

We Can Fit You.

Our grocery department is filled with the choicest edibles and we will be pleased to serve you with the best to be had in the land. You want to visit us whether you buy or not.

## WOOTTON BROS.

## Guilford Nurseries,
