

# THE REIDSVILLE REVIEW.

VOL. XIV, NO. 103.

REIDSVILLE, N. C., FEBRUARY 25, 1902.

\$1.00 PER YEAR.

## Good Fertilizer Pays

There is no longer any question as to whether or not Fertilizer pays. The only question is, which will pay best. And we have solved that question as to

## All Grain and Grass Crops

by furnishing the Banner.

No farmer need worry his mind now in the least about what kind of fertilizer he ought to use on these crops. All he need do when in need of fertilizer for corn, oats or grass is to hitch up and drive until he finds the Banner. There is not a brand on the market that will produce better results. Do not be persuaded to take any chances by using an inferior grade of fertilizer, made by some one you don't know anything

about, because you can possibly get it for five cents less in the bag than the Banner costs, or because you are told that it is as good as the Banner. The Banner has a reputation that no one can dispute. In fact it is recognized as the standard grain fertilizer, as doubtless you have often seen the expression used by people trying to sell other brands: "It's as good as the Banner." If they do not recognize the Banner as being at the top why use this expression?

Take no risk in trying to save five cents--you may lose several bushels of corn or oats.

Reidsville Fertilizer Co.

## An Article

That is a worthy representative of ours or any other store

MAGIC COUGH CURE.

We know it is good. You will say so too when you try it for coughs, colds and lung troubles. It's a reliable remedy, and worthy of YOUR confidence.

SAPP'S PHARMACY.

## TWENTY MILLION DOLLARS.

Last year the Insurance companies paid out for fires \$20,000,000. more than they received. This drove thirty companies out of business, and more will follow suit this year.

None but the strongest can stand this terrific fire waste, and you can not afford to take the risk of insuring in any but the Best Companies.

My long experience and close study enables me to know

THE BEST

and I represent no other.

FRANCIS WOMACK,

The Insurance Man.

J. S. DALTON, Jr., Solicitor.

## State News Condensed.

The State authorizes the Shelby Cotton Mill to increase its capital stock to \$150,000 and fixes \$205,000 as the limit.

The scaffold has been built in the jail yard at Lincoln for the execution of Andrew Sherman Jackson tomorrow.

Congressman Kitchin was the orator at the celebration of Washington's birthday by the Oldest Inhabitants Association in Washington Saturday.

Many prominent citizens of Guilford county have telegraphed Gov. Aycock, urging in the strongest terms the appointment of J. Allen Holt to succeed Gen. Toon.

Hon. James R. Young, State Insurance Commissioner of North Carolina, and Miss Virginia Nichols, of New Orleans, will be united in marriage the latter part of the month of April.

W. D. Hester, of Durham, has generously offered five acres of land near the city cemetery for a site for the Red Men's Orphanage, if the State Council should decide to establish such an institution.

In a neighborhood row in Greene township, Guilford county, Friday afternoon, a white man by the name of Shaffner, and a negro named Hubbard, were killed and five persons were injured.

Arthur B. Craver, of Lexington, a postal clerk on the Southern Railway, became ill a few days ago in Washington City, and was sent to the smallpox hospital when it became evident that he was suffering from a mild attack of that dreadful disease.

The celebration by Mr. and Mrs. Benjamin N. Duke, of their silver wedding took place at Durham Friday night and was a brilliant social event. The reception was at the residence, the Terrace. Invitations had been sent to friends throughout the State, and a large number were present. The home was beautifully decorated.

Senator Pritchard has received more than half the amount North Carolina was requested to contribute to the McKinley National Monument Fund. The amount asked from North Carolina was \$1,000 and Senator Pritchard has received more than \$500, while Raleigh, Charlotte and other leading cities have not been heard from.

A telephone message to the Winston Sentinel from Germantown says that a man giving his name as Col. Ashby made a report to the effect that a woman died up in the mountain section a few days ago and that her body was stolen by unknown parties. Col. Ashby stated that he and others were out trying to find a clue to the guilty parties.

A special from Greensboro conveys the gruesome information that it was discovered Friday that the dead body of a dissolute woman had lain in a house of ill fame in the eastern part of town for three days. One of the woman's companions solicited money to defray the expenses of a funeral, but applied the money to her own use and went to Salisbury. The body was buried by the city.

Mention has been made of the fact that the Raleigh & Cape Fear Railroad would be extended to Fayetteville, as plans to that effect were well under way. Mention was also made of the fact that the Carolina & Northern Railroad was going to Charleston. Arrangements are now in progress looking to the connection of the Carolina & Northern Railroad and the Raleigh & Cape Fear, thus giving a Raleigh and Charleston direct line.

It appears now practically certain that the celebration at Roanoke Island will not be held this year. One of the promoters of the plan says it has been the view for some time that the postponement was necessary owing to the fact that arrangements could not be perfected in time for a celebration this year on the large scale proposed. A meeting of persons composing the association will soon be held in Raleigh to regularly organize.

The tenth annual civic celebration of the Trinity College Historical Society was held in the Craven Memorial Hall Saturday night. At the conclusion of the exercises Dr. J. C. Kilgo, president of the college, announced that Mr. E. N. Duke had made another donation to the college within the last few days that equals a gift of \$100,000. Mr. Duke, said Dr. Kilgo, has given funds to employ four new professors. These professors will fill the chairs of political economy, German, romance language and applied mathematics.

The people of Durham have manifested much interest in the state-

ment sent out from Washington to the effect that Col. J. S. Carr intends to run for Congress to succeed Hon. W. W. Kitchin, says the Herald, which adds: "Mr. Carr has been absent from the city since the announcement was made and a statement of his position in the matter could not be secured. It is thought, however, that the statement is premature and without foundation. Several of Col. Carr's friends know his position in the Congressional matter and they say that he will not be a candidate and has never had any such idea."

Last August Misses Caro and Anna Buxton, of Winston, lost their trunk, containing much valuable wearing apparel, while it was being transported in a hack across Dan River, en route from Walnut Cove to Piedmont Springs. The river was swollen, and the vehicle was turned over, spilling this and other trunks into the stream. A vigorous search was made, but no trace of the trunk was discovered until last week, when Mr. J. C. Buxton, father of the young ladies, received a letter from a friend in Madison, in which it was stated that some of the dresses, which were in the lost trunk, were being worn by two young ladies, who appeared at church in them one day recently. From the letter it is learned that the lost trunk floated about thirty miles and lodged on a small island four miles below Madison.

Unless the Governor interferes the two Emma post office burglars will be hanged tomorrow at Ashe ville. The scaffold has been erected for their execution. The two men are to be hanged on the same scaffold. According to present plans the execution will take place inside the jail building and will be private. The two condemned men witnessed the erection of their death trap and saw the scaffold built in plain view of them. There is quite a diversity of opinion as to whether the men should hang. Some of the officers are in favor of letting the law take its course, while others oppose it. Sheriff Lee has had a number of applications from professional hangers who wish to be present and assist in the execution. The ropes for the execution are being prepared at Salisbury. The Governor commutes the death sentences of Russell Bates, white, and Harry Mills, colored, who stood guard outside the building when the crime was committed.

### The Last Heard of It.

"My little boy took the croup one night and soon grew so bad that you could hear him breathe all over the house," says F. D. Reynolds, Mausfield, O. "We feared he would die, but a few boxes of One Minute Cough Cure quickly relieved him and he went to sleep. That's the last we heard of the croup. Now isn't a cough cure like that valuable?" One Minute Cough Cure is absolutely safe and acts immediately. For coughs, colds, croup, grip, bronchitis and all other throat and lung troubles it is a certain cure. Very pleasant to take. The little ones like it.—L. L. Sapp

### Not the City of Flowers.

My visit to your city last Friday was a great disappointment to me. Saturday morning I was greeted by snow which continued to fall all day. I slouched around in it to my great discomfort. Sunday morning it was snowing again and the clouds looked as if it might continue for several days. Your skyscrapers were covered with snow and every window sill and projection of any kind was fringed with the same material. Indeed the place appeared as much unlike "the City of Flowers" as it were possible to be. I became disheartened and took the first train for Reidsville. Here I am. I have not yet been able to borrow my way over to the "city on the hill," but hope to get there by court, when you will most likely hear from me.

You, no doubt, have a beautiful city, if it could be seen; but some thing ever occurs to hide it from my view. I hope, however, if I can pull through to the 4th of July that I may find it more accessible and presentable in its summer dress.

I am glad that, through the kindness of Mr. H. J. Elam, I did see your excellent fire department building. It is elegant. The horses are the prettiest of any this side of New York, and it was a sight to see Harps slide down a brass "pole" like a little Jap scotting down a wire in a circus. It was well done. As he shot down like an arrow he called me to "come on." I "came," but it was down the stairway. I take no foolishness in mine.

I'll give you all a good looking over some day when the clouds have disappeared and the sun shines bright. Till then farewell.

## Short Items of Interest.

The House has passed the Indian Appropriation Bill. No amendments of importance were attached to it.

A Virginia delegation one day last week had a conference with the president on the subject of making the historic ground about Fredericksburg a national park.

A special from Rome says: The cabinet has resigned, owing to the failure of Signor Villa, the government candidate for the presidency of the Chamber of Deputies, to secure his re-election.

The census bureau announces the value of domestic animals in the United States in 1900 as probably \$3,200,000,000. There was a gain in all parts of the country except in the North Atlantic States.

It is said in Beer circles that if Messrs. Wolmras and Wessels, after investigating the situation in the United States, advise Mr. Kruger that a tour of the United States would be beneficial to the Boer cause, the Boer President will overcome his aversion to a long trip and undertake the journey.

Seven of the precious stones in the altar of the Tiffany chapel of the Cathedral of St. John the Divine on Cathedral Heights, New York, were removed by thieves who broke into the chapel. The value of the stolen jewelry and particulars of the robbery are withheld by those in charge at the cathedral.

After a house to house canvass by school children, who supported her cause, Kate McKnight, a society and club woman of Pittsburg, Pa., has been elected a school director. This is the first time a woman has been thus honored in Allegheny county. One of the young woman's ancestors was the first Mayor of Pittsburg.

Governor Montague, in his message transmitted to the Virginia Assembly, endorses road improvement, recommends the creation of a highway commission, to have charge of that work; favors an employer's liability bill, and the engrafting of some form of industrial education on the public school system. He would have short term prisoners in the penitentiary work on the public roads.

Senator Bacon has given notice of his intention to offer an amendment to the Philippine tariff bill, declaring it to be the intention of the United States when order shall be restored in the Philippines, to allow the formation of a government for and by the Philippine people and to guarantee to them the same liberty and independence that this country has pledged to the Cuban people.

The Executive Committee of the Southeastern Tariff Association have passed a resolution that a 25 per cent increase in rates be made on all stocks of merchandise without exception, and on all store buildings; also on all manufacturing risks and other special hazards, which have not been rated under revised schedules within a year, the same to take effect at once and continue until such risks are specifically stated under revised and approved schedules.

Secretary Long, referring to the statement upon the appeal of Admiral Schley, said: "I have no comment to make on the President's ruling upon the appeal of Admiral Schley, except to express my appreciation of its thorough, conscientious and straightforward character. It is, of course, gratifying that the Navy Department is sustained. The decision will be read as no other document would be, and I believe will direct public opinion and tend to close the whole matter."

Now that the Schley matter is settled officially, it is understood that Secretary Long feels that he is at liberty to carry out the project cherished by him in the last year of President McKinley's administration and retire to private life. However, this is not expected to occur at once, for there is no certain knowledge of what may follow in Congress, notwithstanding a strong belief by the administration that the case is settled beyond revival. Therefore, it is understood the change in the cabinet circle will not take place before the adjournment of the present session of Congress and perhaps not until next fall.

For the third time since New Year's day, Park avenue, New York, was the scene of loss of human life. First was the collision in the New York Central tunnel, at Fifty-sixth street and Park avenue; second, came the dynamite explosion in the rapid transit subway at Forty-first street, and third, Saturday, was a fire which started in the Seventy-first Regiment Armory at Thirty-third street, and then spread to the Park avenue where 18 persons were

killed and many injured. It was the worst hotel fire since the Windsor was destroyed.

Prince Henry of Prussia representative of his brother, the Emperor of Germany, at the launching of the latter's American-built yacht, reached New York to day and was cordially welcomed as a guest of the nation. The land batteries that guard the outer harbor fired salutes of 21 guns; the rifles of a special naval squadron assembled in his honor re-echoed the sentiment, there were verbal greetings from the representatives of President Roosevelt, the army, the navy and the city of New York, and a great crowd lined the way in the city to see the German sailors and the Prince of Germany.

Washington's birthday was signalized in the United States Senate by a fist fight. The day set apart by the nation to afford the American people an opportunity of paying tribute to the memory of the first President was the occasion of the most sensational scene ever enacted in the Senate Chamber. The two Senators from South Carolina were the active participants in the affray. Mr. Tillman in the course of a speech upon the Philippine tariff bill made serious reflections upon the honor of his colleague, Mr. McLaurin. In brief, he charged that Mr. McLaurin's vote in support of the ratification of the treaty of Paris had been cast through the exercise of improper influences. Resolutions were adopted holding the Senators in contempt.

### Saved Him From Torture.

There is no more agonizing trouble than piles. The constant itching and burning make life intolerable. No position is comfortable. The torture is unceasing. DeWitt's Witch Hazel Salve cures piles at once. For skin diseases, cuts, burns, bruises, all kinds of wounds, it is unequalled. J. S. Gerald, St. Paul, Ark. says: "From 1865, I suffered with the protruding, bleeding, piles and could find nothing to help me until I used DeWitt's Witch Hazel Salve. A few boxes completely cured me." Beware of counterfeits.—L. L. Sapp.

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal disease if taken in time.—L. L. Sapp.

## KIDNEY DISEASES

are the most fatal of all diseases.

FOLEY'S KIDNEY CURE is a Guaranteed Remedy

or money refunded. Contains remedies recognized by eminent physicians as the best for Kidney and Bladder troubles.

PRICE 50c. and \$1.00.

FOR SALE BY L. L. SAPP.

## Tooth Brush Economy.

We have tooth brushes for five and ten cents that are sold for double the prices in some places. Extra good ones for fifteen cents, splendid values for the money, but we do not urge the sale of any of these because real downright economy comes in buying something a little better. We would advise you to pick a brush costing 25 cents or more for two reasons:

First, your teeth are worthy of the best brush made. The better the brush the more perfect its work.

Second, the higher grade brushes are guaranteed to give long and perfect service.

FETRER & MIMS, Corner Peay Block.

WILL G. KIRKMAN, Teacher of

Piano, Violin, Mandolin, Guitar, and all Brass and Reed Instruments.

Instructor of BANDS, ORCHESTRAS, MANDOLIN CLUBS, CHORUS CLASSES, CHURCH CHOIRS, ETC.
