

HOW ABOUT IT?

A Granville County Farmer Wants to Know a Few Things.

Recently Mr. V. T. Cheatham, of this county, sent the following letter to Mr. Daniels, editor of the News and Observer, with request that a correct intelligent answer be given.

"To the Editor: There seems to be much criticism of Governor Kitchin by his opponents in regard to the so-called anti-trust legislation passed by the last two legislatures and also an attempt to prejudice the tobacco farmers against the Governor on account of the bill he has taken in regard to such legislation. I am a tobacco farmer myself and if there is a law to be made on the statute books of North Carolina that will be of any benefit to the tobacco farmers, I am for that law. We would like to know wherein the great benefit to be derived by the farmer in passing the Reid bill instead of the Blow-Bassett bill that was passed. I believe the Reid bill might possibly have put the tobacco trust to some more inconvenience, but so far as being any real benefit to the tobacco farmer I don't believe it is worth a continental. You might confer a favor on us by giving us a synopsis of the two bills showing the great benefit to be derived from the Reid bill. A simple statement that the bill passed was a pink-tea affair doesn't convince any one that the other bill would have been any better. We would like for you to discuss the merits of the two bills in such a manner that we tobacco farmers ourselves will be able to judge of their merits. If you don't the Governor will. We don't care how much your bill bites the tobacco trust, but we propose to use our own judgment as to whether we are likely to be bitten."

Mr. Daniels, instead of answering the question, sent Mr. Cheatham's letter to Mr. E. J. Justice, with the request that Mr. Justice answer. Mr. Justice follows in a column article of the usual stereotyped abuse of the last Legislature, but does not answer one single question contained in the letter of Mr. Cheatham.

There has always been more honor and playing to the galleries on both sides of this business than should have been, and a fair explanation and discussion of the two bills is what is wanted, rather than a discussion of the factional differences. If those politicians would leave out a lot of abuse and peanut politics and talk plain facts so that the farmer could understand in plain words just what is what, these important questions could be better understood.—Oxford Public Ledger.

THE GOOD WORK GOES ON.

North Carolina Leads in the Building of Highways.

"Over \$45,000,000 has been invested in good roads in the South this year, and I look for something like \$75,000,000 to be invested in good roads during 1912," declared Mr. H. B. Varner, the apostle of good roads, who was one of the guests of honor at the big dollar dinner of the Greater Charlotte Club at the Selwyn Hotel in Charlotte the other evening. "How does North Carolina stand in this work?" Mr. Varner was asked by a Chronicle man. "By right, she is at the head of the list of 16 Southern States," was the quick reply, "though Texas leads in the actual amount appropriated for roads. 'You must remember, however,' said Mr. Varner, 'that Texas is many times larger than North Carolina, and has several times the population, so that on a percentage basis, North Carolina stands well in the lead.'"

Mr. Varner is full of enthusiasm for good roads and spends much of his time in lecturing in the interest of good roads. He has come to be recognized as a high authority on the subject, and should he attempt to accept all of the invitations which he receives each year to speak on the subject of good roads, his native town would see little of this enthusiastic road-builder. Mr. Varner is very optimistic over the 1912 outlook, and believes that more money will be voted for and expended on road improvement than in any year in the past history of the country. In fact this fact seems to be thoroughly established already.

YOU RISK NO MONEY.

Our Reputation and Money are Back of This Offer.

We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way whatever, if you accept our offer. Could anything be more fair to you? Is there any reason why you should hesitate to put our claims to a practical test?

A most scientific, common-sense treatment is Rexall Orderlies, which are eaten like candy. They are very pronounced, gentle and pleasant in action, and particularly agreeable in every way. They do not cause diarrhoea, nausea, flatulence, griping, or other inconvenience. Rexall Orderlies, particularly good for children, aged and delicate persons.

We urge you to try Rexall Orderlies at our risk. Three sizes, 10c, 25c, and 50c. Remember you can get Rexall Remedies in this community only at or store—The Rexall Store, Fetzer & Tucker.

WASHINGTON LETTER

Timely Topics Discussed by Tavenner.

The Review's Washington Correspondent Sends in a Batch of Matter That Will Interest All Readers of This Paper.

Washington, D. C., Jan. 4.—The Taft tariff board exonerates woolen manufactures of anything like taking advantage of high tariff rates to advance prices. The board's report would make it appear the woolen trust wouldn't do such a thing. But the report isn't altogether useless, because it proves beyond successful contradiction:

First—That Schedule "K" is indefensible; it proves this conclusively for all time.

Second—It confirms practically every charge made against the woolen schedule by Democrats and Progressive Republicans.

Third—It proves that the American people are victims of extortion from wool manufacturers.

Fourth—And that President Taft's veto of the Underwood-La Follette bill was against the interests of 90,000,000 consumers of wools; that it was absolutely unjustified, unnecessary, and therefore unforgivable.

Louis D. Brandeis, the famous Boston lawyer, who looks, acts, walks and talks like Abraham Lincoln, while testifying before the Senate trust investigating committee, showed how the trusts receiving the greatest protection have destroyed trades unionism, reduced wages, increased working hours, and driven Americans out and brought foreign immigrant labor into their mills.

He exposed the injustice and futility of the Tobacco Trust settlement, effected by the United States Supreme Court, and said the rule laid down amounted to this: "What man has illegally joined together, let no court put asunder."

In contrast with the record of the tariff protected trusts, Mr. Brandeis presented instances where prices had been reduced and wages raised, in industries operated under free competition. Yet the Standpatners would have the workingmen believe that the Payne-Aldrich high protection wall was put up exclusively for their benefit.

The Republicans have selected the man who is to be in charge of the filling of the Republican campaign barrel for the 1912 contest. He is Fred W. Upham, who was assistant trust contribution grabber in 1908. Between Presidential elections Mr. Upham trains with the Busse machine in Chicago, runs a coal monopoly during the winter and an ice trust during the summer, and also has a lumber company, a railroad, and a few banks and trust concerns. An ideal selection!

United States Circuit Court Judge Peter S. Grosscup, of Chicago, has managed to make a millionaire out of himself while sitting upon the Federal bench. Besides getting rich himself he appointed Marshall E. Sampson, his court clerk, receiver for a traction company that was in litigation in his court, at a salary of \$25,000 a year.

John M. Harlan, one of the really great jurists in this nation's history, and one of the best friends the common people ever had on the Supreme bench, died a few weeks ago. His daughter recently has accepted a position as secretary to earn her living.

Miss Howard Entertains. The home of Mr. and Mrs. P. O. Howard, near Pelham, was a scene of loveliness Wednesday night when their daughter, Miss Hessie Howard, entertained in honor of Mr. and Mrs. Irene Howard McGee.

The hall was of solid green. The parlor was of green, red and green. The dining-room was of solid green also, this color being the favorite, representing a holy forest. The center piece and plates were of holly and fruits, this effect being lovely. Miss Howard took her stand in the hall between the palms and ferns, where she met her guests. They were shown into the parlor, where Mrs. Irene Howard McGee and Miss Stona Womack were receiving.

Mrs. McGee wore a gown of white embroidered all over lace over merrilline. Miss Womack was gowned in black deeroid, trimmed in trio lace. Miss Howard wore a gown of white embroidered marquisette over green merrilline, and wore a band of real pearls in her hair. These gowns were lovely as the candles would throw their soft light upon them.

Promptly at one fifty-eight the chimes were heard, these being sounded by Mrs. J. R. Womack. The guests were then ushered into the dining-room by Mrs. Howard, where a four-course luncheon was served.

The guests departed at five-thirty and declared they had never spent a more enjoyable day.

Mrs. A. R. Tabor, of Crider, Mo., had been troubled with sick headache for about five years, when she began taking Chamberlain's Tablets. She has taken two bottles of them and they have cured her. Sick headache is caused by a disordered stomach for which these tablets are especially intended. Try them, get well and stay well. Sold by all dealers.

BLAMES THE FARMERS.

Colonel Thompson Says They Don't Understand the Plan.

A special from Washington says: Colonel Robert M. Thompson, of New York, head of the syndicate which proposed to advance \$5,000,000 for the purpose of handling the Southern cotton crop, blames the Southern planter for the delay in putting the scheme into effect. He declared here that the syndicate still was ready to proceed with the plan, which he said meant everything to the Southern farmer.

"We did not reject the plan," he declared. "It was the South which rejected it; and the Southern farmers are opposed to it only because they do not understand it. They will have to be educated into the knowledge that our scheme is not a speculative one, as they have been led by certain interested parties in the South to believe."

"We would be willing today to put through the plan which we proposed some time ago to the committee from the South which met in New York and talked over the proposition. We are not trying to urge the South to accept something it does not want, but if it should appoint a committee and send to us, we would see to it that the plan we suggest was put through."

"As it is, a number of individual farmers of the South have expressed their desire to have us handle their crop for them on the plan which we proposed for the entire South. This will be a test which will show the rest of the South just what we intended; and it is probable that by next year others will be willing to fall in with the scheme."

"The Southern cotton farmers this year will lose \$300,000,000 and the trouble is that at least \$200,000,000 of this will go abroad. The whole country, not only the South, will be the loser by the South's refusal to accept the economic proposition we submitted."

ARE MICROBES IN YOUR SCALP?

It Has Been Proved That Microbes Cause Baldness.

Professor Uma, of Hamburg, Germany and Dr. Sabourand, the leading French dermatologist, discovered that a microbe causes baldness. Their theory has time and again been verified through research experiments carried on under the observation of eminent scientists. This microbe lodges in the Sebium, which is natural hair oil, and when permitted to flourish it destroys the hair follicles and in time the pores entirely close, and the scalp gradually takes on a shiny appearance. When this happens there is no hope of the growth of hair being revived.

We have a remedy which will, we honestly believe, remove dandruff, exterminate the microbe, promote good circulation in the scalp and around the hair roots, tighten and revitalize the hair roots and overcome baldness, so long as there is any left in the hair roots.

We back up this statement with our own personal guarantee that this remedy called Rexall "93" Hair Tonic will be supplied free of all cost to the user if it fails to do as we state.

It will frequently help to restore gray and faded hair to its original color, providing loss of color has been caused by disease; yet it is in no sense a dye. Rexall "93" Hair Tonic accomplishes these results by aiding in making every hair root follicle, and pigment gland strong and active, and by stimulating a natural flow of coloring pigment throughout the hair cells.

We exact no obligations or promises—we simply ask you to give Rexall "93" Hair Tonic a thorough trial and if not satisfied tell us and we will refund the money you paid us for it. Two sizes, prices 50 cents and \$1.00. Remember, you can obtain it in Reidsville only at our store—The Rexall Store, Fetzer & Tucker.

A Girl's Wild Midnight Ride.

To warn people of a fearful forest fire in the Catskills a young girl rode bareback at midnight and saved many lives. Her deed was glorious but lives are often saved by Dr. King's New Discovery in curing lung trouble, coughs and colds which might have ended in consumption or pneumonia. "It cured me of a dreadful cough and lung disease," writes W. R. Patterson, Wellington, Tex., "after four in our family had died with consumption and I gained 87 pounds." Nothing so sure and safe for all throat and lung troubles. Price 50c and \$1.00. Trial bottle free. Guaranteed by W. S. Allen and Fetzer & Tucker.

When you want a reliable medicine for a cough or cold take Chamberlain's Cough Remedy. It can always be depended upon and is pleasant and safe to take. For sale by all dealers.
