THE KIND OF FELLOW THAT REIDSVILLE NEEDS

One of the first things the Booster Club here will attempt to accomplish is to find a hustling fellow, young or old, as an official Civic Booster. He must have a square jaw bone and a stiff back bone. He must be a "Go-Getter." In the first place he should form an organization for fostering civic pride. We have a good town, but it must be made better, and the Civic Booster must be the man to lead the procession. Have you ever seen a town with well-paved, clean streets, a good waterworks system, good street lighting, a fine health record and an air of prosperity that wasn't proud of some citizen who was the prime mover in every improvement? It isn't going to do us much good to have the best town in the State if we don't take our coats off, get together and work like a traction engine to keep her so. The trouble is that most of us stand back and wait for the other fellow to take the lead. Well—the time's come! Who's going to take the lead? Who'll be the Go-Getter? Will you? The time is ripe for the Go-Getter to step out, shuffle off his coat and start in. He must be a man who knows how to do things. He ought to know how yards should be cleaned and be able to persuade each owner or renter to keep his own clean. If each one will keep his yard clean, we'll have a clean town. There must be a concerted movement, with the Go-Getter in the lead showing folks how to do it. Whole blocks should have nice grass esplanades, and the grass should be kept mowed. Yards should blossom with flowers, so Reidsville will look like a huge flower garden. Trees should all be alike in a block, and set in a straight line. If grass and flower plots are put into the middle of the street, the same uniformity should obtain. Property holders should form neighborhood clubs, with the Go-Getter telling them how, and see that the designs and plans are uniform. When we "Swat the Fly" we ought to do it together. When we oil the water puddles to keep out the mosquitoes, there should be an united attack. These things make for health, and health is the basis of all civic improvement. In short, the Go-Getter ought to be a fund of information and dynamo to electrify his associates and get things done. He ought to study the good points in other towns and adopt them to Reidsville. The fever will get behind the movement and shove. What we want now is the Go-Getter! Are you the man?

NEXT MONTH WILL SEE AUTO MAIL SERVICE ON BIG SCALE

Rural mail service by automobile will begin on a large scale Aug. 2, says a statement just issued by the postoffice department. Thereafter, under orders thus far signed by Postmaster General Burleson, 105 machines carrying mail will traverse more than 5,500 miles of rural post roads daily except Sunday. The first dispatch of rural mails by auto was made July 1. Two pioneer routes radiating from Quarryville, Pa.—the one 55.1 and the other 56.8 miles long—went into operation on that date. Additional orders are pending, providing for numerous other motor routes, and it is probably that many more will be approved in time to become effective in August.

Preparatory to the introduction of this service wherever it will be advantageous to the rural public, surveys of special needs and conditions in every state are being made. Rapid increase of automobile mileage in the R. F. D. is certain during the coming fiscal year. Prospects are that the rural mail auto will soon be as familiar in the great farming sections of the country as the present boxlike rural carrier's wagon. Where roads are good the automobile promises to effect a huge economy of time and labor and vastly to enlarge the postal facilities of the districts served. The auto routes thus far authorized are apportioned as follows: Oklahoma, 44; Georgia, 28; California, 19; Texas, 8; Florida, 3; Pennsylvania, 2; Louisiana, 1. By law the minimum length of such routes is fixed at fifty miles. Thus far the longest route authorized involves nearly sixty-three miles of daily travel. Up to date the number of families to be served by each of the above routes varies from a minimum of 130 to a maximum of 470. The average throughout the service, it is expected, will be about 300. It does not follow that the auto mail carrier must make a stop for each family on his line. Frequently rural mail boxes are located in groups or "nests," so that one stop suffices for several. It is seldom that the carrier has mail for every patron, and few farmers mail a letter or a parcel every day. Uncle Sam's auto service is to be strictly an express service.

On account of the Panama-Pacific Expositions, San Francisco and San Diego, Cal., Southern Railway will sell round trip fare from Greensboro for \$34.15. Dates of sale March 1 to November 30, 1915; final return limit three months from date of sale, except that these tickets will not be good to return later than Dec. 31, 1915. Fares to Seattle or via Portland and Seattle at higher rate. These tickets will permit of diverse routing and will allow stop-overs on both going and return trip within limit of ticket. Southern Railway offers choice of several routes of historic interest from which to select; going one way and returning another. Special car parties now being arranged.

THE LIVABLE TOWN.

Why are so many towns going backward? During the past 10 years 650 towns in a middle Western State have decreased in population. The rural districts of another have lost 180,000 people. Practically every other middle Western State has suffered in the same way, and it is believed that shortly every State East of the Rocky mountains will face this condition. At the same time every large city in these States has shown a remarkable growth in population. This indicates that the young people of the rural districts and small towns are dissatisfied with conditions, and gravitate to the larger towns because of the pleasures and better living conditions they hope to find there. Until we make our small towns attractive we can not hope to hold the young people. There must be amusements for them. We must stop the continual nagging, the constant fretting of the older people who see in the pleasures of youth eternal damnation and the end of morality. Times change, and with them goes the narrowness of puritanism. Simply because a fad is new it is not necessarily immoral. Encourage the young people in all the harmless amusements of the day, regardless of what your parents taught you to do. This is a new generation we are trying to keep in the small towns, and youth demands its play. Be broad and liberal.

INDIVIDUALS AND TYPHOID.

"When a person dies from typhoid fever these days it seems to me it's more or less a plain case of suicide," said a citizen of Raleigh recently. "Especially so," he continued, "in the face of all this anti-typhoid treatment that is being put before the people. I can't see why every person in the State does not avail himself of this opportunity to become immune to typhoid fever even though it hasn't been offered to every citizen free of charge. The State is doing all it can to get it to all the people practically without cost, but that's not the trouble. The people won't take it, free or not free. Why, right here in Raleigh where it has been offered free for every day in the week for four weeks, not half the people have taken it—not more than one-fourth have taken it."

"Of course, I don't mean that when a person dies from typhoid that he prefers death to life but that he is responsible to the extent of his neglect or his indifference and ignorance. There may also be a community responsibility in that insanitary conditions were allowed to exist as the source of fever, but when such a preventive as this vaccine is put up to individuals, I do say they are to a great extent responsible when they come down with fever."
