VOLUME XXIX NO. 51.

REIDSVILLE, N. C. TUESDAY, SEPT. 5TH, 1916

ISSUED TUESDAYS AND FRIDAYS

PRESIDENT WILSON ACCEPTS NOMINATION

In the presence of Vice-President Marshall and members of the Cabinet, President Wilson at Long Branch, N. J., on Saturday was officially notified of his nomination as the Democratic standard bearer.

Thousands looked on and applauded as the President accepted the nomination in a striking speech. Among the Cabinet officers attending were Secretaries Lansing, McAdoo and Houston and Postmaster General Burleson.

Getting Ready For School "There is something in the September air," says the State Board of Health, "that puts one in mind of school and school books."

Owned One Just the Same. The Ashland-Eastland correspondent writes the Milton News as follows: McIver Rural Route can boast of having two as old citizens, we dare say, any other route in Caswell county.

Safe to Open Schools. In answer to an inquiry as to whether or not it will be safe for the schools to open in September on account of the prevalence of infantile paralysis throughout the country, the State Board of Health says that there will likely be no danger of an outbreak of this disease at the opening of the schools, and certainly not if the schools open under the supervision of a medical inspector.

How the Body is Nourished. The bodily process known as assimilation is well explained in these words: "As the blood, in its circulation, approaches any organ, the portions that are appropriate for this organ feel its attractive force, they it, and leaving the others, mingle with the substance of its tissue and are changed into its own true and proper nature."

How important it is that the blood should be pure and rich, not loaded with worn-out and useless matters! Hood's Sarsaparilla purifies and enriches the blood, and does all it is possible for medicine to do in the way of perfecting assimilation and building up the whole system.

Another point stressed by the Board in connection with schools and epidemics is that to keep school open in case of an epidemic and to employ a medical inspector is the best means of controlling an outbreak of any communicable disease.

How important it is that the blood should be pure and rich, not loaded with worn-out and useless matters! Hood's Sarsaparilla purifies and enriches the blood, and does all it is possible for medicine to do in the way of perfecting assimilation and building up the whole system.

FORMER GOVERNOR GLENN PLEASES AUDIENCE IN KANSAS

The following report of the lecture of former Governor R. B. Glenn in Leavenworth, Kansas, is taken from the Leavenworth Times:

The last attraction on the afternoon program was Governor Robert B. Glenn's lecture, "The Remedy for the Evil." One was of the opinion after his lecture had been completed that the Chautauqua was fully justified in engaging him time after time.

Owned One Just the Same. The Ashland-Eastland correspondent writes the Milton News as follows: McIver Rural Route can boast of having two as old citizens, we dare say, any other route in Caswell county.

Made a Killing Raising Cucumbers. Mr. J. W. Slade, one of Caswell's able and efficient county commissioners, was at Yanceyville on Tuesday and told The News man that his able co-worker, County Commissioner J. L. Warren, of Hightowers, told him that a friend told him that Mr. Cates, who lives a few miles across the Caswell line over in Alamance county, raised \$10,000 worth of cucumbers last year and \$6,000 worth in 1914, and has sold every one of them.

Take Care of the Eyes. "Take care of your eyes, they are your breadwinners," is the advice of the National Committee for the Prevention of Blindness in its latest bulletin. The bulletin says poor eyesight means poor wages, discomfort, diseases, and is often due to lack of care or to improper care of the eyes.

How important it is that the blood should be pure and rich, not loaded with worn-out and useless matters! Hood's Sarsaparilla purifies and enriches the blood, and does all it is possible for medicine to do in the way of perfecting assimilation and building up the whole system.

HAPPENINGS IN THE OLD NORTH STATE

Another hosiery mill is to be built in Albemarle.

W. S. Lineberry, superintendent of the Soldiers' Home at Raleigh, has resigned.

Frank A. Linney, Republican candidate for Governor, formally opened his campaign at Asheboro Saturday.

A storm at Randleman blew off the top of the graded school building. Damage estimated at about \$3,000.

Wilmington will in the near future be the deep water terminal for the railroad that is being built from Kinston through Duplin county.

Ex-Mayor John Underwood of Fayetteville, who has been traveling in the North, has come home and put out the word that Woodrow Wilson will carry Pennsylvania.

Dr. J. W. Summers, a Charlotte physician of some prominence, was adjudged guilty of manslaughter on the charge of performing an illegal operation on Miss Annie Jones of Greensboro, causing her death.

Five additional names have been added to the list of known dead in the disaster to the armored cruiser Memphis, at Santo Domingo, bringing the dead to 41. Navy officials have little hopes that any of the missing men will be found alive.

A jury in Buncombe Superior court gave Mrs. Louise Orr a verdict of \$10,000 against John Rumbough and others for the death of her husband, Bart Orr. Orr was killed in Rumbough's garage in Asheville about two years ago when a gas tank exploded.

C. Edgar Graham of Greenville, S. C., has sold his home at Montreat to the North Carolina Presbyterian Synod. It is announced that \$12,000 will be expended in enlarging and improving the property, which will be used for a home for ministers, evangelists and other Christian workers during the summer assemblies at Montreat.

The Southern Railway Co. plans to spend about \$200,000 in Greensboro in the next few months in the improvement of shipping facilities. The plans have been made for the reconstruction of the shifting yards West of the city and for the building of an up-to-date coal chute to replace the antiquated affair which is still in use at that point.

Francis screams from an upper berth in a Pullman car in the Raleigh station early Friday morning caused passengers on the car to investigate. They found E. S. Thomas of Charlotte attempting a criminal assault on a young lady who said her name was Miss Eula Nunn, of Nashville, Tenn., and who had been on a visit to her friends in New Bern. The man was dead drunk. He is being held under \$2,500 bond.

Gov. Craig has granted a reprieve of eight weeks to Hardy Wiggins and Merritt Miller, who were to have been executed Friday. The men were convicted of the murder of Phil Phillips, in Graham county. Just forty minutes before the electrocution was scheduled notice of the respite reached Warden Busbee. It was Hardy Wiggins who had the novel experience early in the week of being taken to the Pullen Memorial Baptist church to receive baptism.

Take Care of the Eyes. "Take care of your eyes, they are your breadwinners," is the advice of the National Committee for the Prevention of Blindness in its latest bulletin. The bulletin says poor eyesight means poor wages, discomfort, diseases, and is often due to lack of care or to improper care of the eyes.

How important it is that the blood should be pure and rich, not loaded with worn-out and useless matters! Hood's Sarsaparilla purifies and enriches the blood, and does all it is possible for medicine to do in the way of perfecting assimilation and building up the whole system.

THE NEWS IN BRIEF SINCE OUR LAST ISSUE

The beginning of a revolution in Macedonia is reported in a Reuters dispatch filed at Saloniki.

President Wilson has signed the child labor bill. The law becomes effective September 1, 1917.

It is officially announced that British casualties in killed, wounded and missing in August totaled 4,711 officers and 123,234 men.

The American-Mexican joint commission to seek a solution of border difficulties will meet at Portsmouth, N. H., probably Wednesday or Thursday of this week.

Francisco Madero, father of the late President Madero of Mexico, and one of the largest land owners in that country, was found dead in bed at his home in New York on Sunday from heart disease. He was 67 years old.

Four shots fired into the camp of a Minnesota regiment at Mercedes, Texas, from the Mexican side of the Rio Grande resulted in a general exchange. About 150 shots were fired. None of the Americans was injured.

General business conditions throughout the United States continued good thru August, according to the Federal Reserve report by the Federal Reserve Board. Generally discouraging reports were received from no district.

Robert Fay, said to have been a former German army officer, who was recently convicted of conspiracy against the United States in connection with alleged munitions plots in New York, escaped from the Federal prison in Atlanta, in company with William Knobloch, another prisoner.

A bandit, who gave his name as "Jack" Evans of Chicago, held up a branch of the Anglo-California Bank the bandit died in a commandeered automobile, pursued by the bank teller, and the chauffeur drove the bandit into the park police station, five miles away, where he was captured with the money.

The Senate has passed a bill changing from the second to the first Monday in October the date for opening of the annual term of the Supreme Court and revising procedure to limit cases which may be submitted. This will enable the court to dispose promptly of many cases in which appeals have been taken merely to cause delay.

In 20 military camps along the Mexican border 38 big Army Y. M. C. A. buildings rear themselves above the cities of white tents. The buildings are centers which the men appreciate so greatly that their facilities are used to the utmost during leisure from camp work and drill and throughout evening hours until the bugles sound taps.

Orders for the return to their State mobilization camps of 15,000 National Guardsmen now on the Mexican border have been issued by the War Department. General Funston was directed to return three regiments from New York, two from New Jersey, two from Illinois, two from Missouri and one each from California, Oregon, Washington and Louisiana.

Mayor Cox of Darlington, S. C., was amazed when he opened a special delivery letter and found \$350 in gold certificates. An accompanying note, which bore neither date nor signature, and was penciled in a nervous hand, read: "Have discovered that, owing to a mistake made long \$350 belongs to the town. Just use with ordinary taxes." The letter was mailed at the local postoffice.

Atlantic City now has a chief of police on probation, Chief Robert Miller having been ordered by County Judge Shinn to report weekly to the probation officer and pay at each visit for a period of two years \$1, in addition to paying \$15 immediately. Chief Miller was adjudged guilty of contempt because he released a boy prisoner whom Judge Shinn had remanded pending an investigation.

Former officers, directors and counsel of the New York, New Haven & Hartford Railroad have been made defendants in a liability and restitution suit for more than \$160,000,000, filed in the United States District Court by five Massachusetts stockholders. The suit is based on evidence taken at the recent trial of William Rockefeller and other former directors of the road, for criminal conspiracy under the Sherman anti-trust law.

HIGH POINT 0, REIDSVILLE 9; HIGH POINT 2, REIDSVILLE 1

An even break was the best that either High Point or Reidsville could do in contests at Red J Park Friday and Saturday.

Friday's game dragged along for the full nine innings without any brilliant features, though Reidsville played errorless ball, which encouraged Southpaw Harry Miller to pitch the game of his life. He was credited with sixteen strike-outs, which established a record down Red J way. On the other hand, Ellis was hit hard and he was accorded rotten support by his team-mates.

Score by innings: R. I. E. High Point . . . 000 000 000—0 5 6 Reidsville . . . 122 130 00x—9 3 9 Batteries: Ellis and Pearce; Miller and Mobley.

The greatest surprise of the season came Saturday. How the visitors attached that game is a mystery that thus far remains unsolved. Reidsville outthit them, while Ingle had everything on Jones in the twirling line. He allowed only five hits and "fanned" ten, while Jones struck only four and was touched for seven hits. Reidsville's base-running was far from up to standard, and his team-mates failed to give him good support.

Besides pitching a fairly good game, Jones used the willow advantageously and lined out two doubles and a single. McBane led in the hitting "stunts" for Reidsville, he touching Jones for three.

Saturday's score: R. H. E. High Point . . . 000 100 010—2 5 4 Reidsville . . . 100 000 000—1 7 5 Batteries: Jones and Pearce; Ingle and Mobley.

THE NEWS IN BRIEF SINCE OUR LAST ISSUE

Infantile paralysis in New York now shows a decrease. Since the beginning of the epidemic there have been 8,199 cases and 1,987 deaths.

The National Democratic Committee has made public a statement by Thomas A. Edison in which the inventor said that although a life-long Republican he would support Mr. Wilson for re-election.

The Senate has voted to exempt from taxation under the administration revenue bill all trust funds of insurance companies held in reserve under State laws or by contract policyholders. The action followed an unsuccessful effort made by Senator McCumber of North Dakota, to have all insurance investments exempted.

Thirteen Zeppelin airships took part in the raid over the Eastern counties of England Saturday night and London official statements say it was the most formidable attack by aircraft ever made on England. Only three of the Zeppelins were able to approach the outskirts of London. The total casualties were two persons killed and 13 injured.

A cotton crop of 11,800,000, equivalent 500-pound bales, was forecast the past week by the Department of Agriculture, basing its estimate on the condition of the crop August 25. That compares with 12,916,000 bales forecast from July 25 condition reports and 14,266,000 bales forecast from conditions existing June 25. Last year's production was 11,191,820 bales; two years ago 16,134,950; three years ago 14,156,486, and four years ago 13,703,421. During July heavy storms caused damage to the crop, causing a loss in production calculated at 1,350,000 bales.

A combined attack by French and British forces on the Somme front Sunday resulted in an important gain of ground between the villages of Forest and Clerly which lies to the South of Combes and to the East of Maurepas, over an extent of nearly four miles. These two places were occupied by the French, while the British captured a part of the village of Girny and gained total possession of Guillemont. Thus the advance of the Entente Allies is closing in on Combes, which at present is a powerfully fortified German stronghold. In the various attacks launched by the British and French upward of 3,000 prisoners were taken.

Clear Bad Skin From Within. Pimply, muddy complexions are due to impurities in the blood. Clear up the skin by taking Dr. King's New Life Pills. Their mild laxative qualities remove the poisons from the system and brighten the eye. A full, free, non-gripping bowel movement in the morning is the reward of a dose of Dr. King's New Life Pills the night before. At your Druggist, 25c.

Our Business Builders for results

THE STRIKE ORDER WAS RESCINDED

President Wilson has signed the 8-hour railroad bill, and the strike menace which had hung over the nation the past three weeks is settled for the present at least. Saturday night the Senate passed the eight-hour law and the order calling the rail operatives out was rescinded in telegrams flashed to all parts of the country by the brotherhood chiefs. The union leaders are satisfied with the victory obtained.

The railroad executives are disgruntled and charge that they have not had fair play.

The bill as it came from the House was not changed in any particular. The vote was 43 to 28. The Underwood amendment, empowering the interstate commerce commission to fix wages and hours of labor, was killed by a vote of 57 to 14.

The bill as passed provides first: an eight-hour day for all employees engaged in operating trains on interstate railroads with same pay as is now given for ten hours work, and pro rata overtime pay.

Second, a commission to be appointed by President Wilson to investigate and report on the effects of the eight-hour day as applied to railroads. The remainder of the legislative program has been abandoned by this session of Congress.

The vote was a strictly party one on the Adamson bill. Only one Republican, La Follette, vote with the Democrats for the bill, while two Democrats, Clarke of Arkansas and Hardwick of Georgia, lined up with the Republicans against the measure.

Wedding on Sept. 5th.

The "Tom Thumb Wedding" will be presented at the Graded School on Tuesday evening, Sept. 5, at 8 o'clock. Helen Jones and Nathan Link are playing the parts of bride and groom. The bride will be accompanied by her maid of honor, Julia Ware, and four pink and blue bridesmaids. The groom's best man is Nathan Mathewson, the ring-bearer being Virginia Anne Penn. Billy Hobgood is Father Midget, and brings the bride in and gives her away in a very clever manner. The part of Grandfather Midget is played by Robert Sparrow, and sings "When You and I Were Young, Maggie," in the true style of a grandfather. Theodore Mathewson is Grandfather Thumb and sings "When You and I Were Young, Maggie," to which Grandmother Thumb (Alva Stacey) responds with "I Cannot Sing the Old Songs." The usual wedding songs are sung: "O Promise Me," by Louise Dunn; "I Love You Truly," by Virginia Mims; "When I Dream of You," by Cecilia Scott. A clever old maid song to the tune of "Yankee Doodle" is an interesting feature. The closing song, "I'd Love to Live in Loveland," a song by Margaret Millner and Buster Link, to which all of the children join in singing the chorus.

The minister for the occasion is the "Reverend" Mr. Nathan Mathewson.

Everybody invited to attend. Admission: adults 35 cents; children 25 cents.

"Bill" Evans Making Good.

As was to be expected, "Bill" Evans, the Burlington boy who kept the A. and M. College baseball team on top for the past three years, and who this summer signed up with Pittsburg of the National League, is making good with the big leaguers. Last week he was put in to start a game and won it. Later in the week, when the team got in a tight place, with the score tied in the eighth inning, Evans was sent to the mound by the manager and held his opponents scoreless for eight more innings and finally winning out when Pittsburg scored a run in the sixteenth. That he was selected to finish such a game shows that the manager knows a good pitcher when he sees him, and that Bill is making good will be the best of news to his many friends here, a number of whom sent him telegrams of congratulations on his wins.

You just can't keep a Burlington boy down when he goes away from home. They go out in all walks of life and are heard from with the very best reports.—Burlington News.

[Young Evans is a nephew of Mrs. R. T. Estes of near Oregon Hill.]

Fire Near Yanceyville.

The News regrets to learn of the heavy loss by fire sustained on last Wednesday morning by Mrs. Margaret J. Bradner and sons, Messrs. Bradner and Vance Bradner, when their comfortable home near Yanceyville was burned to the ground, together with a number of outbuildings and about 250 bushels of wheat. The loss is estimated at \$4,000, and not a cent's worth of insurance on anything.—Milton News.
