County News as Told by Correspondents

MADISON.

Madison is to have a lyceum course of attractions this fall and winter. These will be the Alkahest Lyceum Bureau attractions of Atlanta.

Roy Hill of this county, who was recently sent on to court by Mayor Jones for having too much liquor in his possession and who forfeited his bond, the grand jury having returned two true bills against him, has been arrested by the revenue officers for having been in the Smithtown shooting affair of a few days ago, in which Deputy Marshall Mays was shot and seriously wounded, and is now in jail at Stuart, Va. None of the Smiths, who did the actual shooting, have been arrested, though every effort is being made by a large number of officers to bring them to justice. The condition of Mays remains unchanged, and his recovery is very doubtful.

On Wednesday afternoon of last week a severe hailstorm visited that section of the county about 12 miles Northeast of this place in the South Fork and North Fork neighborhood, and a large lot of tobacco was destroyed, but probably Joe Taylor's loss was greater than that of any other man in that section. The hail destroyed his entire crop, and he had only housed one barn, which he was curing at that time. During the storm lightning struck the barn and it with its contents was burned to the ground.

Jesse Adams, of this section, who was recently given a sentence of eight months on the roads for blockading, made his escape a few days ago. News reaches here that Adams was arrested near Roanoke Tuesday and was being brought back. He was handcuffed and as the train neared Martinsville he sprang through a window while the train was running about 30 miles an hour.

Wm. Searcy was run in by Chief of Police Ed Jones Tuesday morning and given a hearing before Mayor W. C. Jones for enticing labor, he claiming to be an employment agent, and having in his possession passes to Ohio. In default of a \$500 bond he was sent to jail to await the next term of court.

Mrs. T. R. Pratt left for Spray Monday morning to spend the week with her daughter, Mrs. John Van Noppen. She was accompanied by her grandson, Master John Van Noppen, who has been visiting her.—Messenger.

LEAKSVILLE-SPRAY.

The county board of education heard the Spray School case Monday at Wentworth and sustained the action of the school committee in deciding to conduct the high school work at the Leaksville-Spray Institute. It seems that a remonstrance has been placed before the board protesting against the action of the committee.

The Danville & Western Railway Company has practically decided to build an addition to the Draper station. The passenger end will have an additional room as well as the rear end an additional thirty feet to handle the increased freight. The month of August was the biggest month's business the Draper station has ever done. Freight Agent Jones stated to the writer.

Dr. S. E. Webb, who has been located at Draper the past few years, has left there and is now located at Hainesville, N. C. Dr. Webb has many friends in this community who regret to see him leave. He, however, saw a better opening at Hainesville and took advantage of it.

Miss Girtha Voss met with a painful accident Monday while arranging the spring in a large clock in the Pyron Jewelry Cos. store, where she is employed. Her first finger and thumb were caught in some manner and the force of the coiled spring struck them and came nigh cracking the bones.

Mr. W. P. Henry is in Leaksville-Spray closing up the business contracts and reports started here the latter part of June by Mr. G. W. Poland in reference to the Merchants' Credit Guide. Mr. Poland was taken ill before the work was completed.

Mr. J. W. Dillon and party of ladies motored to Greensboro Thursday. Those in the party were Mrs. Dillon, Mrs. Clayton and Mrs. Murray.

The J. M. Hopper Construction Company started another lot of thirty houses a week ago for the Thread Mills Co. employes.

Rev. P. H. Gwynn went to Richmond Wednesday to confer with the officers of the Federal Reserve Bank in that city.

Mrs. Wilson, who was injured in an automobile accident, is improving.

WINTER COVER CROPS AND PREPAREDNESS

The time will soon be here for planting cover crops. It will also be the time when you will determine for yourself whether your land is going to give you a revenue next season, or lie a prey to the elements, without producing.

The principal cover crop in this county is crimson clover. It is the poor man's friend, performing two distinct functions at comparatively small initial cost—improving the land, and giving a good money crop, especially in dry seasons. Clover ought to be sown before the end of September, in a well prepared seed bed, and for a successful stand lime is a necessity. Sow a few acres, with a couple of tons of ground limestone in addition to the necessary fertilizers, and you will have a rich return next spring, and throughout the summer. If you have a crop of clover on the land that you are permitting to seed, save it and wait your turn for the clover huller to reach you, in the meantime securing your seed through Conny Demonstration Agent F. S. Walker free, on the strength of having a seed crop to be hulled.

Alfalfa is rapidly becoming popular. It ought to, for there is no other crop that will, at one and the same time, enrich the land, keep it from washing, and give larger returns in dollars and cents, and at the same time require a minimum of labor and care to maintain it for ten years time. Alfalfa will grow on our lands. That has been proven. It will give a gross return of \$200 per acre, if planted in accordance with instructions.

Every farmer in Rockingham county ought to put in an acre of alfalfa this fall, but do not put it in unless you observe the rules—better not try than to try and doom yourself beforehand to failure. There will be no failure if you stick to the rules.

In Memorium.

In the passing of Miss Mollie K. Fetzer, the Woman's Missionary Society of the Reidsville Presbyterian church sustains an irreparable loss.

Having no distinctive home ties, Miss Fetzer reached out to the community—then to the world in her high ideals. As a teacher of the young, her influence extends over a quarter of a century. Possessing such traits of character as faithfulness in small things, a stern sense of duty, her love of the truth, unselfishness, love for beautiful things, which she passed to others, giving praise wherever deserved, she commanded love and affection of a host of friends, and the respect of all who knew her.

Possessed of native poise, she presided over religious meetings with dignity and ease. As our representative at Presbyterials at Montreat conference, we are greatly bereft. The community has lost a friend. The great cause of missions has lost a friend. We individually mourn our loss.

Ships of the Entente Allie fleet sank a German submarine Sunday morning off Phaleron, says a cablegram from Greece.

OUR FLAG.

Your flag and my flag, And how it floats today O'er your land and my land And half the world array.

Blood red and rose red, Its stripes forever gleam, Snow white and soul white The good forefathers dream.

Sky blue and true blue With stars that beam aright, A gloried guidon of the day, A shelter through the night.

Your flag and my flag, O, how much it holds; Your heart and my heart Seems within its folds.

Your heart and my heart Beat quicker at the sight, Sun-kissed and wind-tossed The red and blue and white.

The one flag—the great flag— The flag for me and you, Glorified all else beside, The red and white and blue.
