The Leaksville postoffice is being overhauled inside and out. The carpenters are to work now and in a few days the painters will be busy with their part of the work. Mr. Joe Lane said the other day that they had been at work for some time to get the improvements made and was pleased that they had succeeded. There will be a number of new lock boxes added and the front greatly improved, the building painted inside and out, and the old boards that everybody felt at liberty to use for advertising by tacking handbills on the sides of the door-

way will be a thing of the past. The changes were badly needed and will be very much appreciated.

To Tobacco Growers.

I am delighted to be able to tell my farmer friends that our market is fully opened and all the buyers on and as eager for tobacco as I have ever seen them, and (quality considered) I don't think I ever saw it higher, especially common and medium primings with any show of color. I think I have made some good sales out of this crop as I ever made in my life, quality considered. I think the whole crop is going to sell high beyond a doubt, as I don't think the crop will weigh out over 65 per cent of last year's crop.

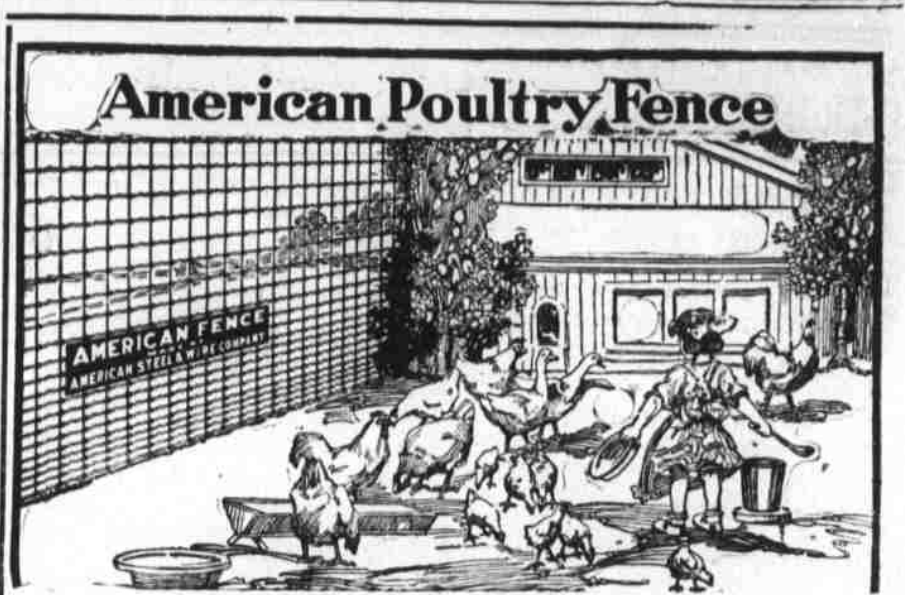

I certainly congratulate you all in the prices you will get—as I know all farmers have lost money for the past two years.

When you get your tobacco ready for sale I will appreciate your patronage with the assurance that I will always do in the future as I have done in the past: Get you every dollar I can for your tobacco.

With thanks for your past patronage, I am,

Your friend,
J. N. WATT.
