Don't forget that plan for an agricultural excursion. Your demonstration agent might be interested in this and your town chamber of commerce. Suppose the farmers in your community are getting interested in better livestock or alfalfa growing or in cooperative creameries or in better roads or in better schools. Well, find some county not too far away in which notable success has been made along whichever line you are interested in, and then work up an automobile excursion. The business men of your market towns will doubtless be glad to go along and give the use of their machines. In several counties we know this plan has been worked with much success. Why not in yours?—The Progressive Farmer. Mr. I. L. Pritchett of near Brown Summit was in town yesterday and gave us a pleasant call.
