How Catarrh is Contracted.

Mothers are sometimes so thoughtless as to neglect the colds which their children contract. The inflammation of the mucus membrane, at first acute, becomes a chronic and the child has chronic catarrh, a disease that is seldom cured and that may prove a life's burden.

The International Institute of Agriculture at Rome estimates the total production of wheat in Spain, England and Wales, Ireland, Italy, Switzerland, Canada, United States, India, Japan and Tunis at 1,526,041,000 bushels, or 69.8 per cent. of the production in the same countries last year and 92.5 per cent. of their average production during the five years 1909-1913.

So many contributions for relief of European war sufferers have become known since the Carnegie Peace Foundation reported to the total contributions at nearly \$29,000,000 that the Red Cross has ordered a new compilation which will be made immediately. It would create no surprise if the total should be found to be double that reported by the Carnegie foundation which included no funds contributed since March 1.

Because he was unable to return to Germany to fight, in the belief of his friends, Richard Frederick Riesschlagger, aged 26, former fireman in the German imperial navy, shot his brains out on a grave in a cemetery at Lynchburg, Va. He left a note asking that the pistol he used be sent to his father and mother.

IMPORTANT FIGURES.

Comptroller Williams says Uncle Sam had paid his floating debt since the European war started. He asserted: "Just two years ago, after the outbreak of the European war, we were considering how we could find means to meet our floating debt, estimated at \$350,000,000, in gold, which was to mature in Europe between September 1 and December 31, 1914, and what we should do to avert financial calamity if the European nations should begin to unload upon us their American securities, of which they held an amount then estimated at four and a half billion dollars.

"If a balance should be struck to day, taking into account the amount of our securities still held in foreign countries and the amount due our people on account of their foreign investments, the probabilities are that we would find ourselves for the first time in our history a distinctly creditor nation. We hold a mortgage on the world's physical assets. The world holds a mortgage on our soul, on our good will and broad nobility of purpose."

"In 1899 the gross earnings of all National banks were less than \$199,000,000 and their net earnings slight under \$50,000,000. For the calendar year 1916 the indications are that the gross earnings, based upon the actual returns for the first six months, all approximate \$600,000,000 and net earnings over and above all expenses and losses \$170,000,000.

Abruzzi Rye. Quite a little acreage is being planted in this winter cover crop this season, and large returns are expected in seed. The price of the seed is comparatively high—around \$3.00 a bushel, but it is a splendid cover crop, and a good investment taken either as a seed prospect or for land improvement. It furnishes a splendid winter grazing during the period from December to April, and will grow on thin land better, probably, than any other crop.

Lone White Woman Leads Savages. There has appeared in the Killmanjaro region a German woman warrior, who is leading a force of native troops without the assistance of any other European, says a dispatch from Cape Town, South Africa.

The Tale of a \$1.00 Bill.

A citizen went down town to spend Some of his hard-earned dough, And in a merry jest, and just To show his printing skill, He printed his initials on A brand new dollar bill.

He spent that dollar that same day, Down in a grocery store; He thought 'twas gone forever then And he'd see it no more. But long before the year rolled by One day he went to fill A neighbor's order, and received That same old dollar bill.

Once more he spent that dollar bill In his own neighborhood, Where it would do himself and friends The best amount of good. Four times in two years it came back As some bad pennies will, And each time he'd go out and spend This marked one dollar bill.

Had he been wise that dollar might Be in the town today; But just about two years ago He sent it far away. The people who received it then I know have got it still. For 'twas to a mail order house He sent his dollar bill.

No more will that marked dollar bill Come into this man's town, And nevermore will it help to pay The taxes he planks down. He put it where it never can Its work of life fulfill, He brought about the living death Of that one dollar bill.

Prosperity. It is almost astounding how the business of the United States has increased in the past two or three years as shown by bank deposits, National and State.

United States Comptroller of the Currency Williams says: "Deposits in our National banks alone now exceed by \$250,000,000 the aggregate deposits held by all banks, National and State, including trust companies, in 1902—just fourteen years ago."

"In 1902 the total deposits of State banks, savings banks, trust companies and other banking concerns under State supervision aggregated six billion, one hundred and fifty-seven million dollars. On June 30, 1916, the deposits of these State banks and trust companies were reported at fifteen billion, three hundred and fifty million dollars, an increase of 149 per cent."

The increase in deposits in State banks and trust companies during the past three years amount to \$3,358,000,000, or 28 per cent, and in National banks \$2,733,000,000, or 33.1-2 per cent. This was under the Federal Reserve Act approved Dec. 23, 1913.

"The tremendous growth in wealth and banking power which these figures indicate may be more fully realized when I tell you that the increase alone in deposits in all banks since June, 1913, exceeds by \$500,000,000 the total amount of all loans and discounts made by all the banks in the United States—National banks, State banks, trust companies and savings banks for all purposes of trade, commerce, industry, agriculture and business of every kind, as late as the year 1900."
