PERUNA

No other remedy ever offered the American people has more friends after two generations of success; no other remedy is more generally used in the homes of the people; no other has been so enthusiastically endorsed by the thousands.

The reason is found in real merit. For coughs, colds, catarrh, whether local or systemic, and general debility following any of the above Peruna will be found effective, reliable and safe. For irregular appetite, impaired digestion and run-down system it is an invaluable tonic.

Peruna may be obtained in tablet form for convenience.

The Peruna Company, Columbus, Ohio

Used It Eleven Years.

There is one remedy that for many years has given relief from coughs, colds, croup and whooping cough. Mrs. Chas. Reitz, Allen Mills, Pa., writes: "I have used Foley's Honey and Tar for the past eleven years and I would not be without it." It promptly relieves hoarseness, tickling throat and wheezy breathing. MT. CARMEL.

Farm work is at a standstill in this section owing to the prolonged drouth. The land is so dry and hard that it is almost impossible for the farmers to prepare and sow the wheat crop.

The turnip and clover crops are looking fine at this writing but unless we have some rain soon the crops will be damaged by the dry weather.

About the only job that the farmers can do these days is to strip and market tobacco.

Now, Brother Farmer, don't let's get discouraged about the dry weather and say it is too late to sow a crop of wheat. I have known some good yields made when the wheat was sown as late as the 15th of November. So let's sow a large acreage to wheat even if it is late before you can prepare your land. Remember that 20c tobacco has long been a dream of the Piedmont farmers. But it will be observed that the high price is due to the shortage of the crop. Farmers can keep the crop short and the price high every year by diversifying their crops and raising grain and stock in addition to some tobacco.

Mrs. L. H. French and children have returned to their home in Spencer, N. C., after an extended visit to friends and relatives in this section.

More Miracles.

We wrote the other day about miracles—about modern inventions being really miraculous—and again we must stand uncovered at the inventive genius of the Germans who sent into these shores a submarine—a war-ship that had crossed the Atlantic Ocean in seventeen days. A ship two hundred feet long, splendidly equipped with all sorts of guns and torpedoes—with wireless apparatus—and the Captain who only came to mail a letter carried but three hours and put again to sea, stating that he needed nothing—not even fresh water.

To have read about such a craft in some old history would have caused us a few years ago to exclaim: "Foolishness, there could be nothing like that." But there is something like it—indeed a marvel—a wonder never dreamed of in our philosophy.—Greensboro Record.

Resolutions urging that lynching be made a Federal offence and that persons prosecuted for it be tried in another State from their own, were adopted by the National Equal Rights League, in a convention at Washington and attended by negro delegates from 25 States.

PACIFIC COAST PROSPEROUS.

Sometimes we are inclined to believe that a goodly number of men will kick and complain whether they have cause or not. During the entire four years preceding the present administration there were from 4,000 to 50,000 men in Seattle, Washington, who were unemployed a great part of that time. They were never properly in possession of good employment or good homes. They worked at odd jobs and then lived as best they could until something else showed up. They were never happy and were beginning to believe fate had destined that they should become charges on the community. But just as the clouds were the darkest, a change set in, and now every man who wants work can have it. Of course they are not the ones who are kicking—others are doing it for them. This is the report that now comes from the Pacific Northwest.

"What is regarded as the most important industrial event in the history of the Pacific Northwest took place at Seattle last Thursday when the Manufacturers' Association tendered a big banquet in honor of the men who are responsible for the new era of shipbuilding which is bringing prosperity to this section of the country. Two hundred and fifty of the most prominent shipbuilders, lumbermen, merchants and bankers of the territory from Vancouver, B. C., to Portland, Ore., helped to celebrate "Shipbuilders' Night." The statement was made at the dinner that more than \$30,000,000 worth of ships are now under contract in the Northwest, with splendid indications that yet more will be ordered. This does not include government contracts, which in themselves make a good sized total."

A special train on the Virginian railway, bearing the 101 Ranch and Buffalo Bill's Wild West Show to Norfolk, was wrecked near Victoria, Vt. More than a score of horses are said to have been killed. There was no loss of life.

A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.

If your work is tiring; if your nerves are excitable; if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions.

It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength.

Scott's is strengthening thousands of mothers—and will help you. No alcohol. Scott & Bowne, Bloomfield, N. J.
