Mr. Smith married a couple at the parsonage at 7:30 on the same evening. Mrs. Lou Alice Sergeant of Roxboro spent several days at the home of Dr. Wharton. SYSTEM OF SPYING IN THE LARGER TOWNS AND CITIES

The administration espionage bill, providing severe penalties for spying on matters of national defense and punishing conspiracies to violate American neutrality, was passed Tuesday by the Senate 60 to 10. Washington is honeycombed with nests of spies and so are the cities of New York, Boston, Philadelphia, Baltimore, Norfolk, New Orleans, Galveston, San Francisco and other seaports, says the Washington Star. There has been a rather complete system of espionage in Washington since the European war began. Heretofore intelligence officers of the various European governments have been more occupied in ascertaining the moves of each other than in ascertaining moves of the United States government. But it is believed now that some of this expert attention has been turned upon Washington activities, although, as an intelligence officer of a foreign nation put it: "What's the use? Any possible opponent of the United States knows all about this country's affairs that is desired to be known anyhow?"

Little Secrecy in United States.

This remark recalls the fact that there has been very little secrecy about United States military affairs in years gone by, owing to the system of public hearings and the system of making public the information in regard to hearings on military affairs before congressional committees which has been in vogue in the United States. Several years ago, when Major General W. W. Wotherspoon, U. S. A., retired, was chief of the war college, a Japanese prince visited the United States and was shown through the war college. Just before his arrival General Wotherspoon was showing a friend through the building and pointing out some of the systems in use, which, he said, he proposed showing the prince. General Wotherspoon's friend expressed surprise that such entirely complete courtesies should be placed at the disposal of the distinguished visitor. General Wotherspoon replied: "Oh, well, the prince will know all about this anyhow before he gets here. The Japanese have a pretty good intelligence system."

Queer Happenings in Washington.

Queer things, however, have been happening in Washington the past few days. Splendid looking limousines of a character not used by ordinary messengers have been seen standing in numbers before the doors of European embassies as early as 6 o'clock in the morning, when the ordinary worker in Washington has hardly turned over for his last nap. Queer things also have been happening in connection with the use of the long distance telephones. These have come under the notice of observing persons, who have readily understood that the intelligence officers of various nations could give an explanation of them if they wanted to do so. It is proper to add, perhaps, that such explanations might be forthcoming from the department of investigation of the department of justice of the United States too.

The British intelligence system is believed to be the best thing of its kind ever put into operation in the world. It is known to be in charge of Captain Guy Gaunt, R. N., the youngest captain in the British navy, an Australian, who has much at home in the country houses of Long Island as he is in Washington. Captain Gaunt is described by those who know him as the ideal of the romantic type of modern intelligence officer, a man of indomitable energy, to whom could possibly be applied the old fashioned detective phrase, "He never sleeps."

Great Britain is watching out for the intelligence system for the allies on the eastern coast of the United States, and Japan is watching out on the western coast.

There is now a new officer in charge of the German intelligence system in the United States. He makes his headquarters in the office of a big German steamship company, a fact well known to the allied intelligence officers. The German system, however, is said to have met with some reverses recently. Cogs in the machinery have slipped, and it is said that the German system is not accomplishing as much as it did at the beginning of the war.

Spy's Real Name Disclosed.

When the spy Von der Goltz was arrested in Great Britain while trying to make his way back to Germany under a false name and a false American passport he was confronted in Great Britain with his real name, which is Wachtermann, a name, it was said, that has not up to this time been known even to the department of justice. He heard it pronounced for the first time since he left Germany years before. Von der Goltz, it will be recalled, was known as Bridgman Taylor. "Listening in" on telephones, on wireless, the hunting for tips and clues to codes, is going on all over Washington and the big seaports of the country.

TONOLINE IS BEAUTY AID, ANNOUNCES SPECIALIST

Mildred Louise Talks of Interest to Women.

As health is a first aid to beauty this story, told by Mildred Louise, beauty specialist, of Boston, Mass., is of unusual interest. "I can recommend no better health giver than tonoline," said Mildred Louise.

"I was for many months a victim of stomach trouble and nervousness. I had suffered terribly from pains that followed eating. Headaches also would add to my worries. Poor digestion finally brought on nervousness.

"Relief came, however, when I took the advice of several women who said, 'Take tonoline.'

"Not long after I started the tonoline treatment, my parents began to remind me of the improvement in my condition. And because health is the quickest way to beauty, the improvement was particularly noticeable in my face.

"What tonoline really did for me I can not say. I am so grateful that I am very willing to recommend tonoline publicly."

"Tonoline is a purely vegetable preparation which goes to the seat of common maladies—stomach and kidney trouble, catarrhal affections of the mucous membranes, liver ailments and impurities of the blood—and quickly restores proper action. Tonoline is being explained daily to many people at Gardner Drug Co's.

Notice:—As tonoline is a wonderful flesh builder, it should not be taken by any one not wishing to increase his weight ten pounds or more. Although many reports are received from those who have been benefited by tonoline in severe cases of stomach trouble and nervous dyspepsia, chronic constipation, etc.

"THE SCHOOL BOY"

So many boys make a big mistake, By not going to school for their own sake. The boy is not always to blame, Upon the parents its an awful shame. If he is not at school, he's loafing around, Getting in mischief all over town. A boy of this standing is never any good; He's never at home to cut a stick of wood. So dull is the man's brain he cannot see That his boy needs an education as you and me. Some parent's say their children have nothing to wear, That's a poor excuse, the untrained brain is there. Some don't like the Superintendent and the teachers too. If there's any disagreeableness the fault is in you. If your boy is ever expelled from

school. You can just bet he's broken the Golden Rule. Your child may come home with some spiteful tale, Simply all he needs is just a good frail. Some parents may think the writer is a fool. But your child will regret that he never went to school. —R. B. RICE, Reidsville, N. C.

HOPE.

Hope is the most beneficial of all the affections and doth much to the prolongation of life if it be not too often frustrated, but entertaineth the fancy with an expectation of good.—Bacon.

Perhaps Right

Governor Bickett has announced he will not pardon H. A. Hayes, who was convicted of embezzling funds from the Orphans Home of the Western North Carolina Conference. Hayes was sent up ten years. His son has been working hard for a pardon and all health was urged as the reason. The Governor perhaps cannot understand why a man who would steal the money of orphans should be turned loose. And especially when all had a right to expect better things from the man entrusted with the funds. It doesn't look like Governor Bickett is going to make a record as a pardon governor. Of course there are times when a pardon should be granted, and again many are pardoned when they should not be. Hayes should serve his full time and be thankful it wasn't a longer sentence.—Greensboro Record.
