Better Late Than Never to Open an Account With ROCKINGHAM SAVINGS BANK & TRUST COMPANY

An old colored man in this town used his TRUNK instead of a BANK for the savings of several years. Result of this: Burglar relieved him of over one hundred dollars. He has since started an account with this bank. MORAL: Use banks, not trunks, hollow logs, etc., for keeping your money.

The newspapers are saying much about the German spies visiting Elm Grove, six miles south of Reidsville, and inciting the negroes against their government. So far as we can learn these spies (if indeed there are any) feigned to make any headway whatever. Our colored citizens are as loyal as anybody in this country.

Burton-Chance-Walker Co have just received a handsome motor hearse, made especially for them by the Michigan Motor Co., and is one of the nicest cars we ever saw. The motor hearse is sure to take the place of the horse drawn one, as the livery business is fast giving over to the motor car and the up to date funeral directors dislike to have the only horse drawn car in a funeral procession, as they are forced to trot the horses all the way up hill and down when in a procession. With this arrangement the distance doesn't count for much, as the family 15 miles from town can have the same quality and services as if in town.

Rocky Mount to the Front. The city health department of Rocky Mount has determined to decrease the infant death rate of the town and to protect the babies' health at the most important period of their lives. To this end, the health department requires by law every person engaged in the duties of midwifery to pass a satisfactory examination in the elementary principles of midwifery, which instruction is furnished by the city health department free of cost.

This law went into effect January 1, 1917, and according to evidence signs that it is working effectively and is being appreciated by the people. It has been noted already that there is a marked increase in the city's birth rate which is due to a complete birth registration, the importance of which has been made known to the midwives. According to figures furnished by the State Board of Health, 20 per cent of the white births and 80 per cent of the colored births in the State are attended by midwives. It is the opinion of the Board that the high mortality of colored babies, which is almost twice that for white babies, is largely due to the ignorant midwives. The Board therefore endorses the ordinance of Rocky Mount and recommends such legislation to other city and county health departments.

WHEN THE CALL IS SOUNDED They will come from the hill and the valley. They will come from the mountain and plain. From the deeps and the heights they will rally. At the sound of the bugle's refrain. They will come in their youth and their beauty. With valorous daring and skill. And all will be patriot duty. And all will be patriot will.

Not once will the echo, repeating. Ring empty over the plain. But, swelled with the voices of greeting. Redouble the clarion strain. From hearths that are shadowed with sorrow.

From homes that are happy and gay. They will come at the summons tomorrow. To march to the heat of the fray.

The day when the war cry is sounded. Not one will show vestige of fear. But numbers in haste will be rounded. And all will be courage and cheer. They will come from the mountain and valley.

A noble, invincible band. To the flag of the free they will rally-The flag of their own native land! -Lurana Sheldon in New York Times.

ZELL'S USE ZELL'S SPECIAL COMPOUND FOR TOBACCO Madison, N. C., Jan. 27, 1917. I used 2917 bags of ZELL'S SPECIAL COMPOUND FOR TOBACCO on my farms last year and so far have sold about \$60,000.00 worth of tobacco grown over it at prices which are highly pleasing. ZELL'S starts tobacco nicely, and ripens it uniformly, producing a rich, waxy leaf which weighs well and brings the money. I will certainly use Zell's again this year. J. M. THE KIDS ARE PLANNING TO HAVE A BIG HOLIDAY April 12th Sparks World's Famous Shows will hold forth in this city for a matinee and night exhibition, and the rare, unique and wonderful things that have been promised on paper will become a reality. The airy riders who, in diaphanous skirts have been pirouetting on the expansive backs of beautiful and speed circus horses (see on the bill boards) will be seen in all the gorgeousness of tulle and seductive smile the elephants will copy their pictured acts of comedy and go them one better; the contortionist will proceed to disentangle himself from the knots he tied in his responsive body last year; the acrobatic families will turn dizzy somersaults and the clowns will work off their latest comedy stunts to the great delight of the crowds present-we all like the clowns. There is nothing on earth like the circus. It is the people's show par excellence. It is the one great American amusement that appeals to all the people. The merit in a big circus like the Sparks Shows is in the fact that everything in the show is the very best of its kind. There must inevitably be riding acts, but the riders are the leaders of their profession. There must be acrobats, but the acrobats are artists an aerialists are gathered from the wide world, and are the best that money can procure. It is this superiority in the quality of the performers that makes the Sparks Shows such a welcome visitor. Some Good Advice "Don't think too much of your own methods. Watch other people's ways and learn from them." This is good advice, especially when bilious or constipated. You will find many people who use Chamberlain's Tablets for these ailments with the best results, and will do to follow their example. Read the paper regularly.
