Tell the Truth, Be Polite and Spread Sunshine, He Advises.

The 185 graduates of the school department of the General Society of Mechanics and Tradesmen of New York cheered Charles M. Schwab enthusiastically when he told them how to be successful in life.

Briefly, this is the formula outlined by Mr. Schwab: Have integrity. Tell the truth even if the truth is unpleasant.

Always have a pleasant word. Always have a pleasant manner. Be polite to all women—as polite to scrubwomen as to New York's society leaders. Be genial and attractive. Spread sunshine. Be scrupulously honest. Be loyal to the friends who help you advance.

If the 185 graduates follow this formula, Mr. Schwab told them, there is no reason in the world why they should not be eminently successful in life. In fact, he explained this is the formula followed by the man whom he described as "by longest odds the highest paid man in the United States." He meant Eugene R. Grace, president of the Bethlehem Steel company. "There is no boy in this room," Mr. Schwab added, "who can't do what he did."

Iceland Now Likely to Create Soldiery of Peace.

Iceland, whose inhabitants, because of the isolation of their country, have always been exempt from military duty, is about to create a citizen soldiery of peace, according to Godmundur Kamban, an Icelandic dramatist. "A bill, known as the allegiance act, pending before the althing, the congress of Iceland, provides that every youth reaching maturity must give at least six months' service in some constructive public labor, for which the national government is responsible," said Mr. Kamban. "The service would include bridge and road building and construction of public edifices. "Instead of training to destroy and kill the youth of Iceland is to be trained to construct. The bill was conceived by a farmer legislator, Herman Jonasson, and has attracted wide attention in the Scandinavian countries. It is certain to pass."

ZELL'S USE ZELL'S SPECIAL COMPOUND FOR TOBACCO Madison, N. C., Jan. 27, 1917. I used 2917 bags of ZELL'S SPECIAL COMPOUND FOR TOBACCO on my farms last year and so far have sold about \$60,000 worth of tobacco grown over it at prices which are highly pleasing. ZELL'S starts tobacco nicely, and ripens it uniformly, producing a rich, waxy leaf which weighs at 1 and brings the money. I will certainly use Zell's again this year. J. M.
